Press “Save” button below to continue

Customer Portal

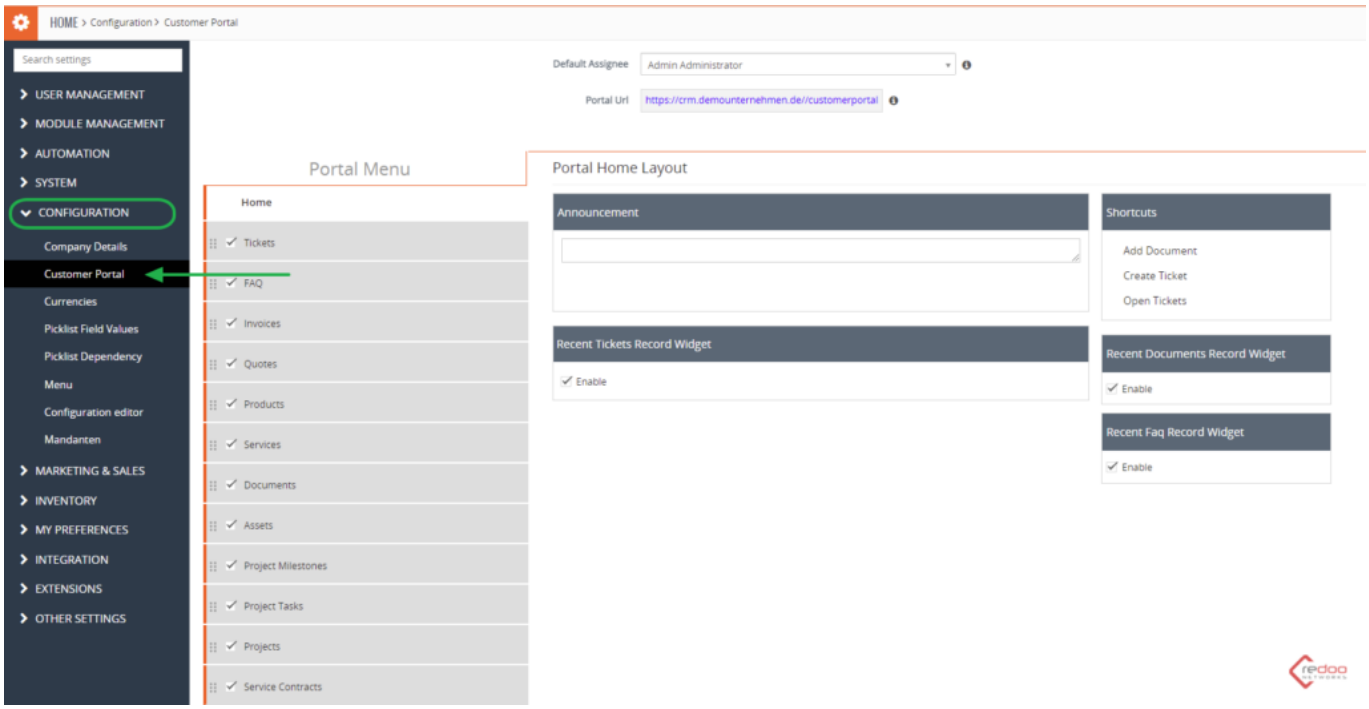

Another part of Configuration block is Customer Portal

Here you are able to configure a customer portal where your customers will be able to view module records you share with them, keep an eye on important announcements and use important widgets

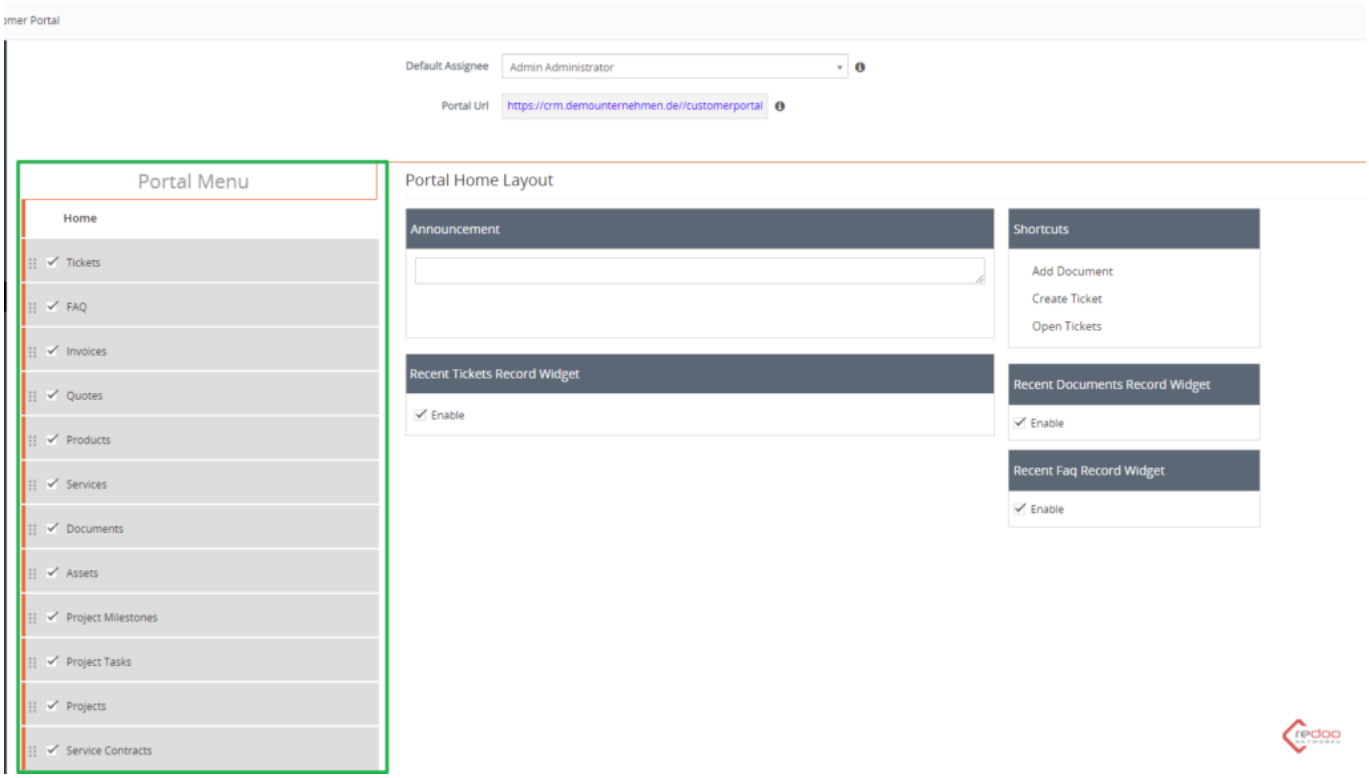

Im linken Block können Sie durch Ankreuzen Module festlegen, die für Kunden sichtbar sein sollen

Copyright © 2026 Redoo Networks GmbH

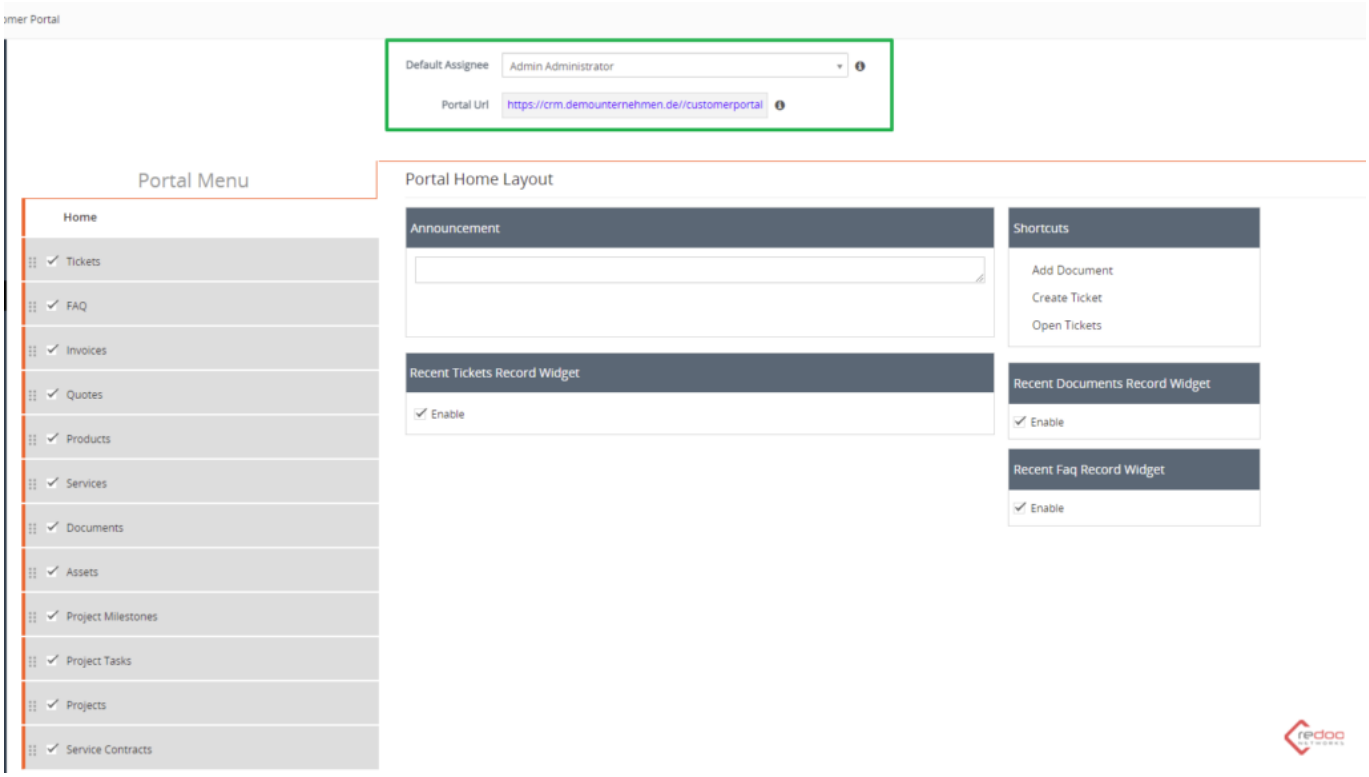

In the left block you can set modules via check marks that will be available for customers to view

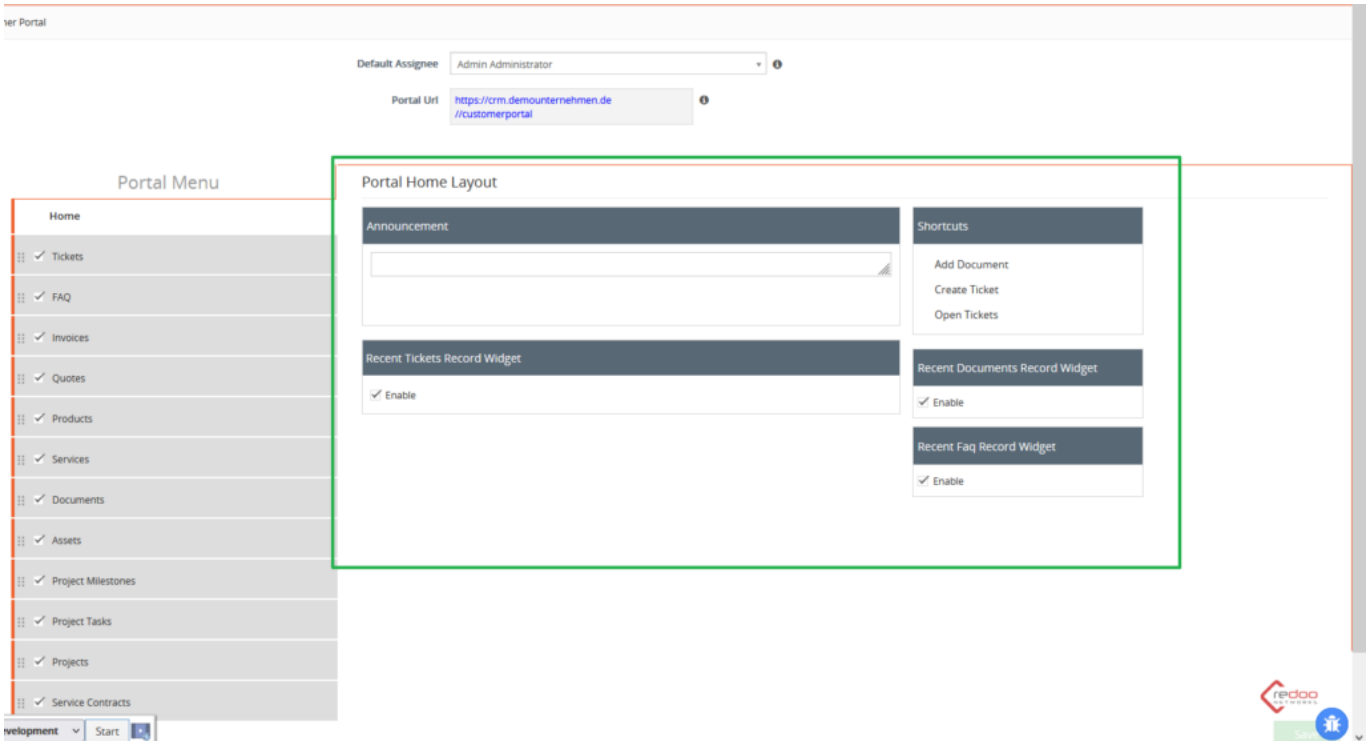

But firstly you set a default assignee for the customer portal and set the Portal Url

 Copyright © 2026 Redoo Networks GmbH

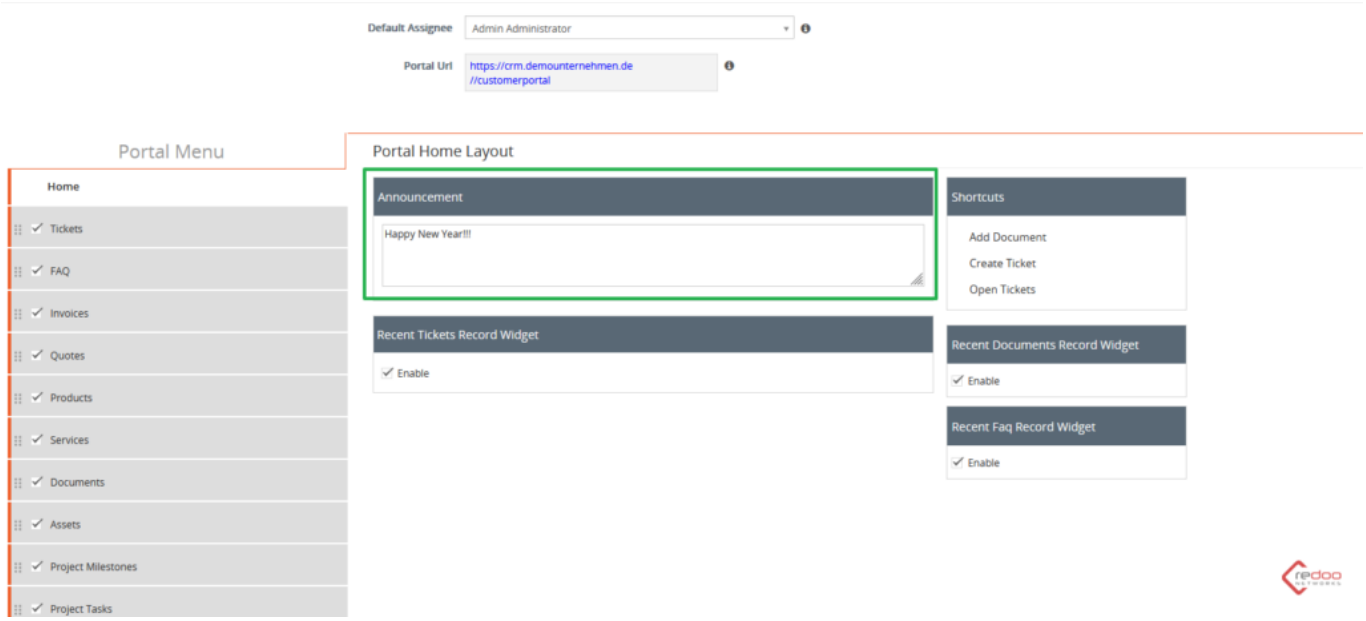

Next block is used for Portal Home Layout customization

 Copyright © 2026 Redoo Networks GmbH

In Announcement window you can upload some important news

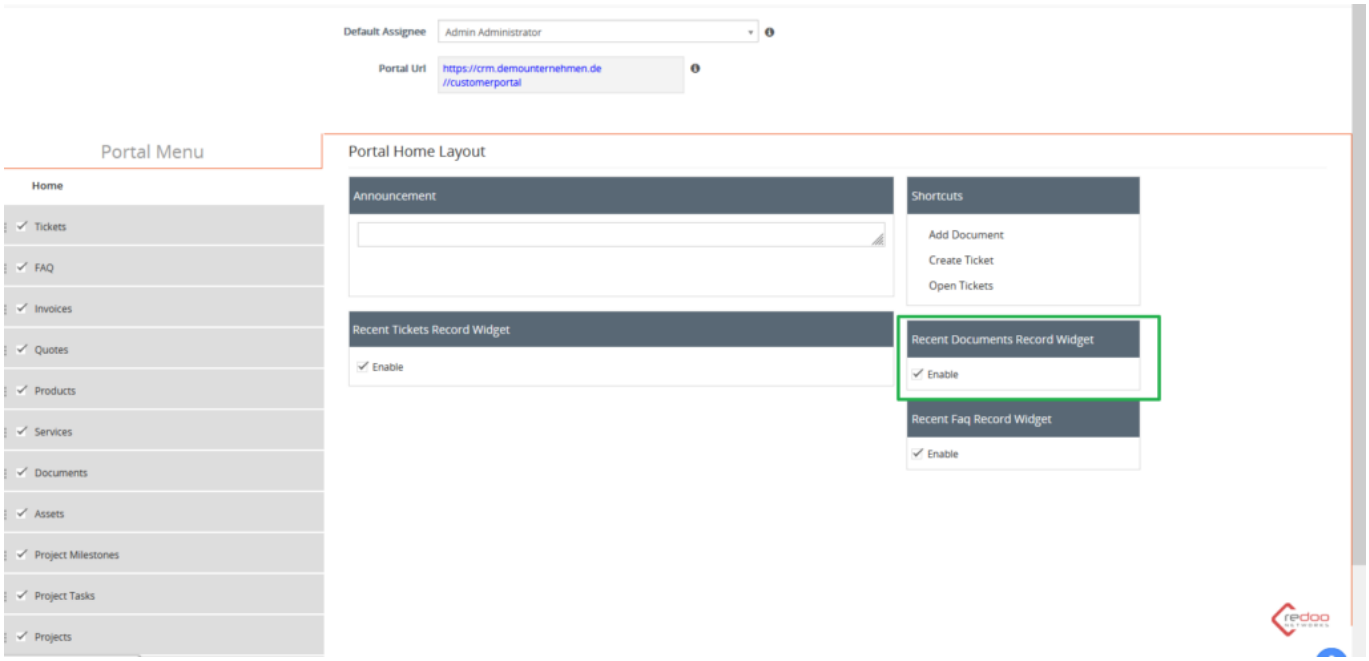

Right below there is a place where you can enable Recent Tickets Record Widget via check mark

 Copyright © 2026 Redoo Networks GmbH

Next one is Recent Documents Widget which you can enable or disable via check mark which shows the recent documents added to the CRM

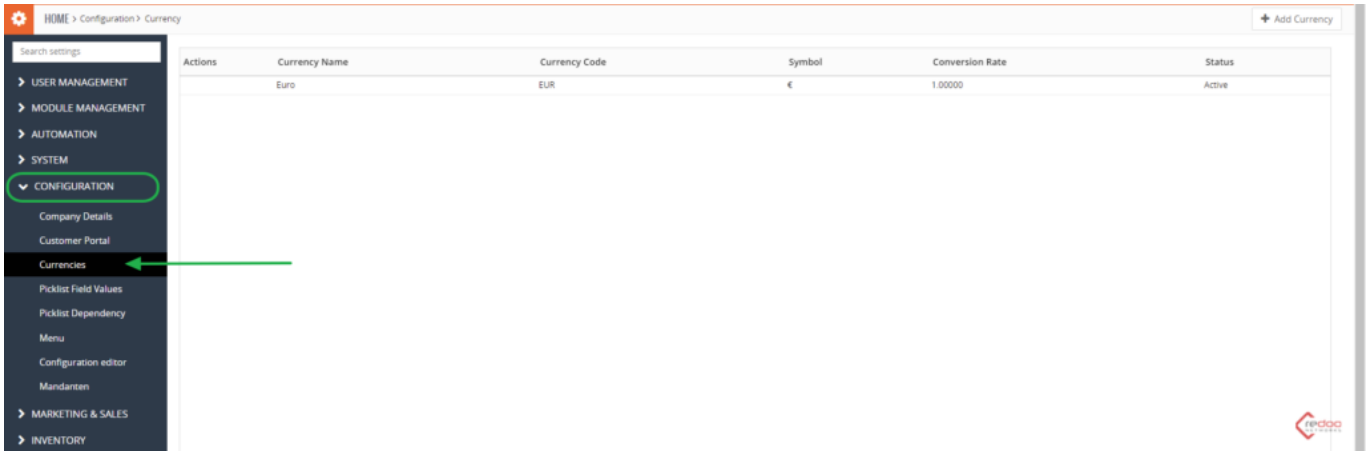

Below there is another widget you can enable via check mark which shows the latest FAQs records in the CRM

Customer Portal User view

To give a customer and access to Customer portal you have to create a Contact record for the particular customer, enter his e-mail and set a check mark in “Portal User” field

As you register you will get login and password sent to the user`s email

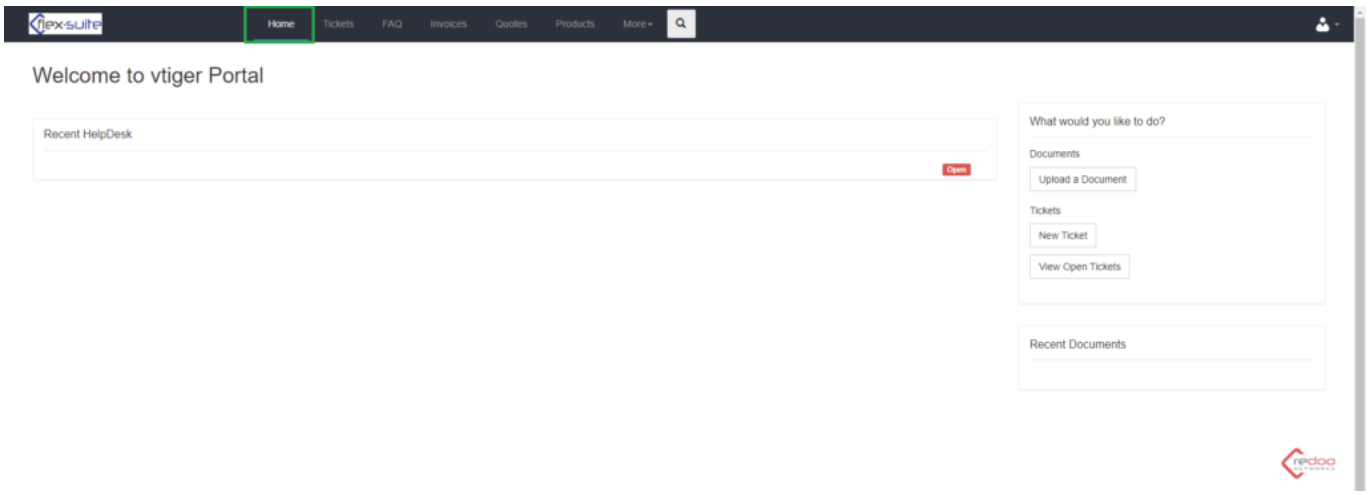

This is Customer Portal from user perspective

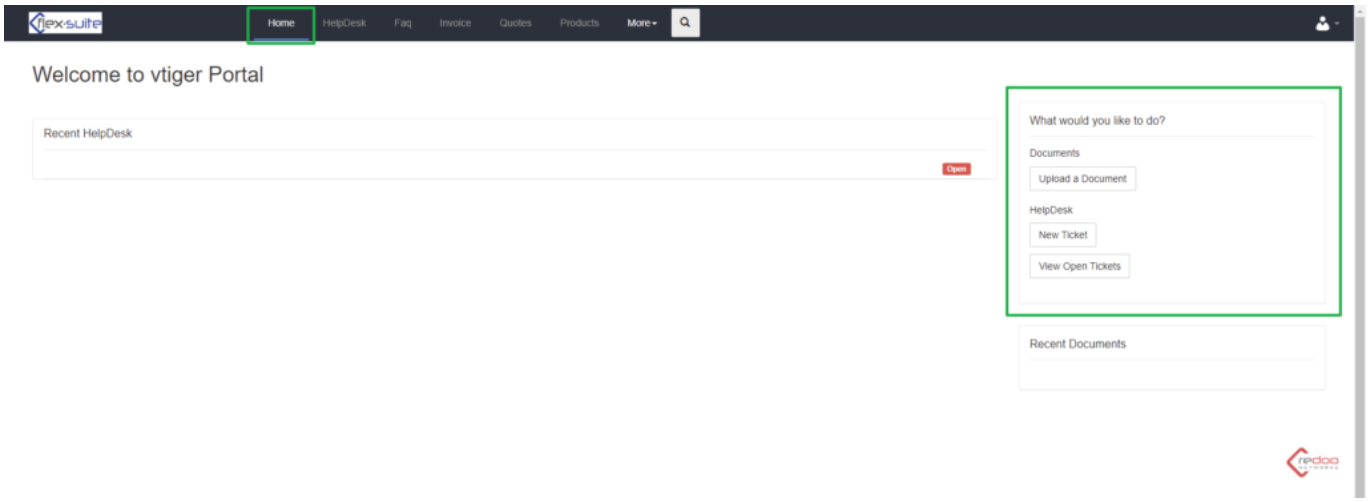

Copyright © 2026 Redoo Networks GmbH

At the Home page you can see a quick access to Document and HelpDesk functions

From this page you can enter other parts of Customer Portal

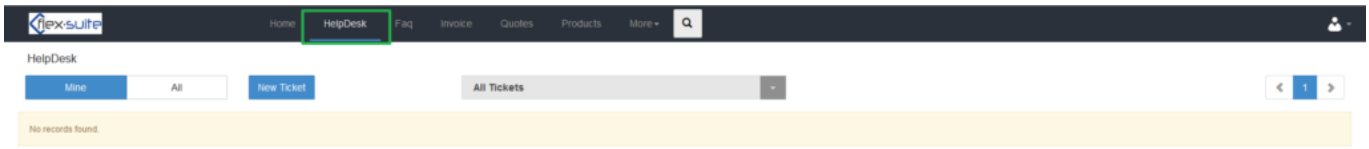

There is a quick-create block “What would you like to do?” where you can in a fast way upload a document, add a new ticket or view already opened ones.

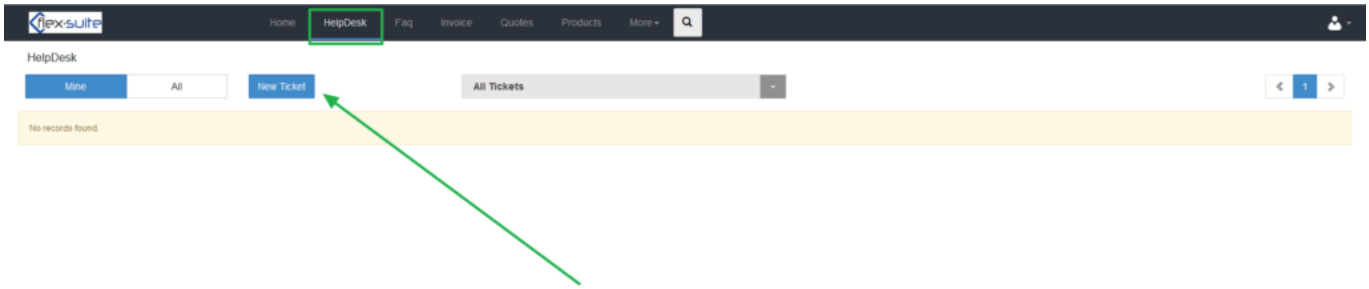

At HelpDesk page you can view the list of Tickets

Copyright © 2026 Redoo Networks GmbH

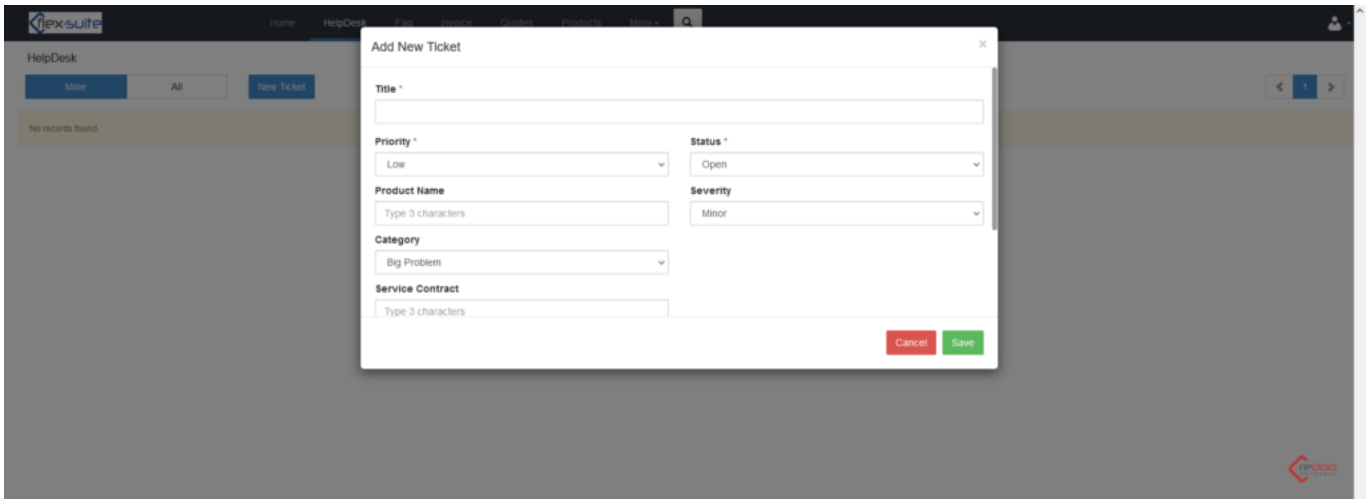

From here you can add new tickets by pressing the “New Ticket” button

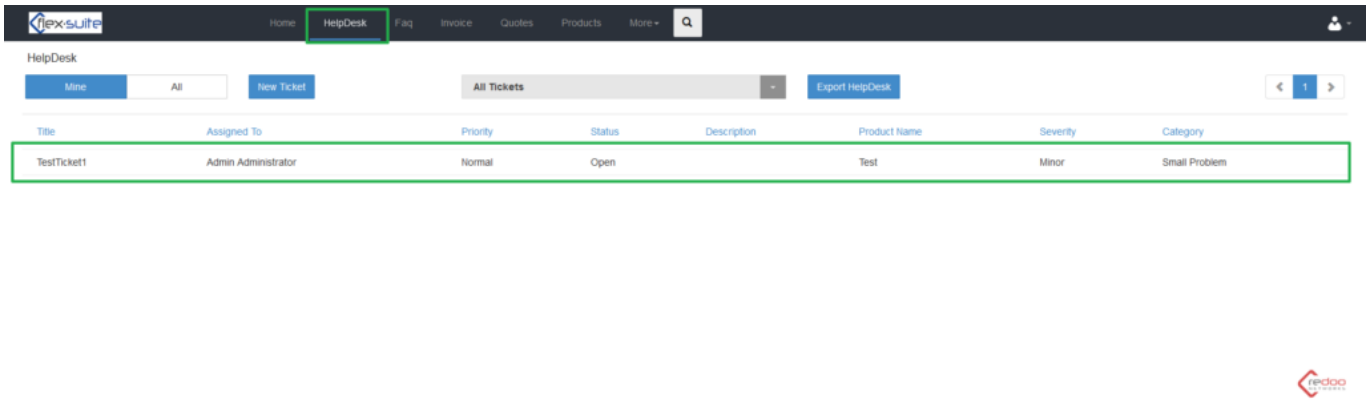

In the opened window you can add all the needed information about the ticket:

- Title
- Priority
- Status
- Product Name
- Severity
- Category
- Service Contract
- Description

 Copyright © 2026 Redoo Networks GmbH

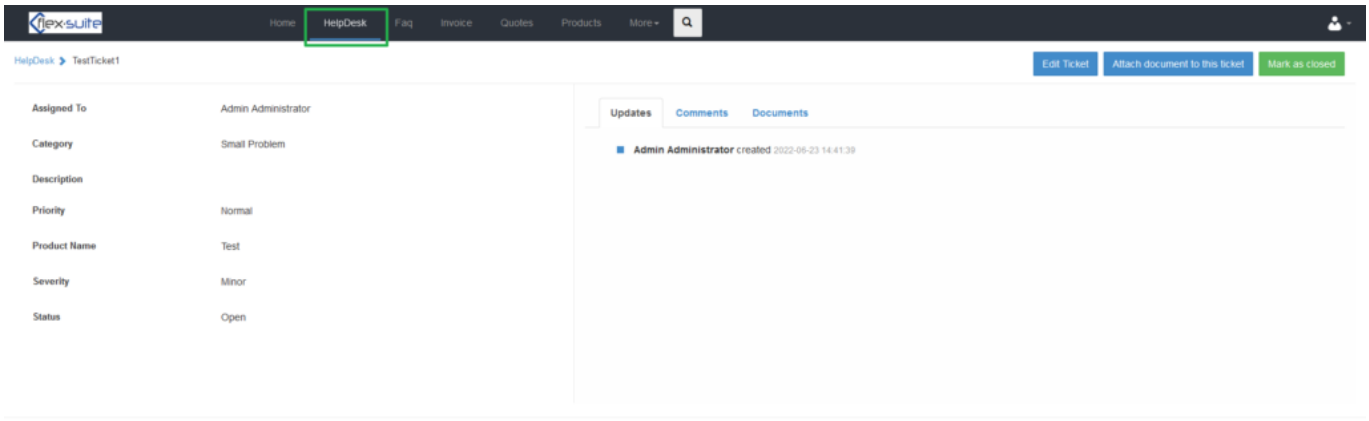

As you pressed “Save” new ticket will be displayed on the page

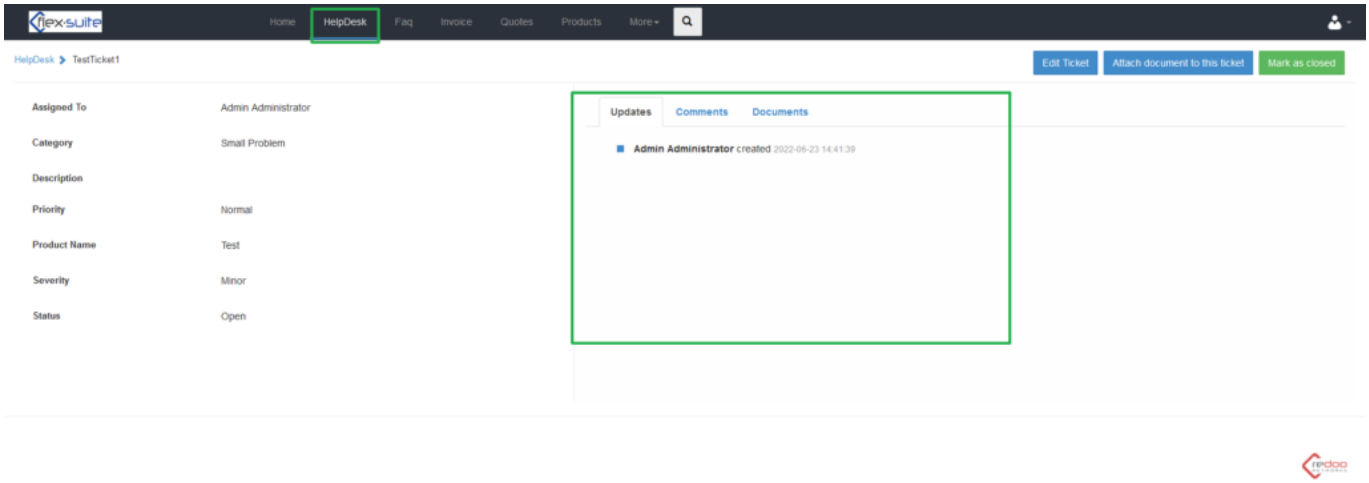

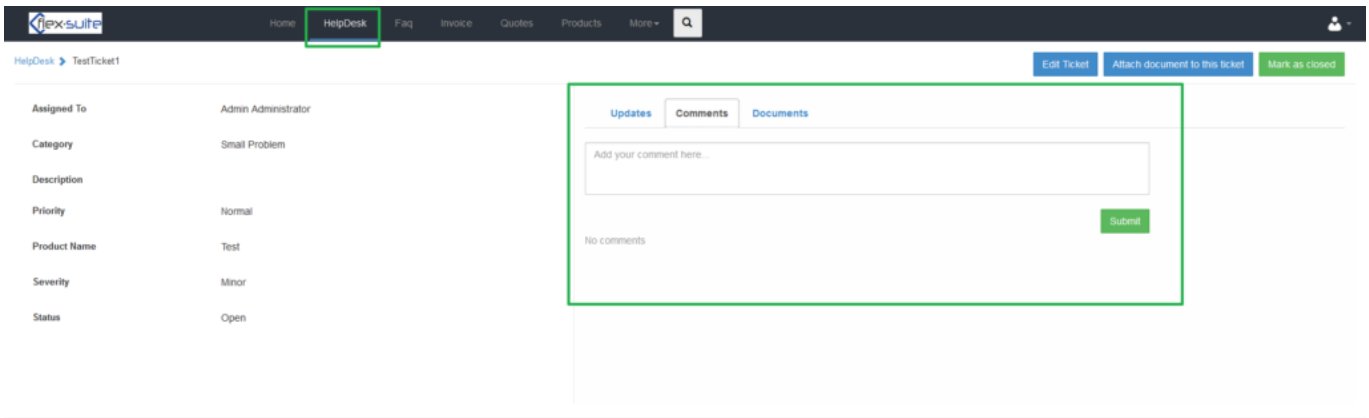

By opening ticket’s page you will see all basic information displayed

Copyright © 2026 Redoo Networks GmbH

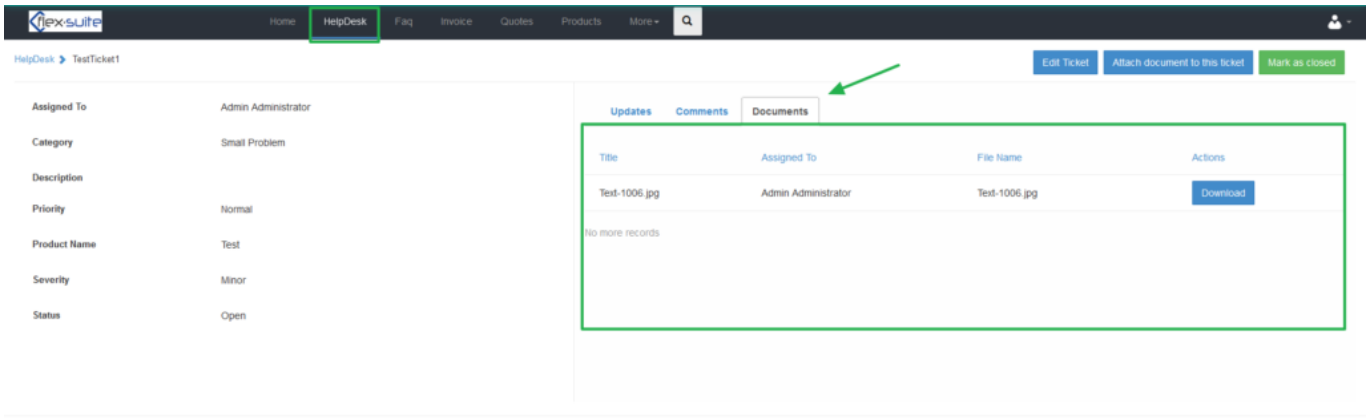

In the right corner you may see an Update, Comments and Documents section

 Copyright © 2026 Redoo Networks GmbH

In the upper right corner of the page you can see an “Edit Ticket” button for editing the ticket and “Attach document to this ticket” which will allow to add document to the ticket

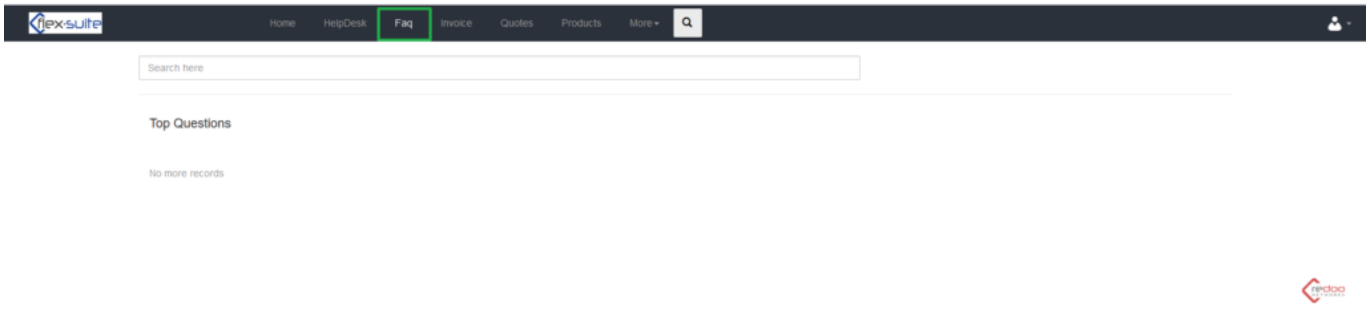

There is also a green “Mark as closed” button which you can use if the ticket was finished

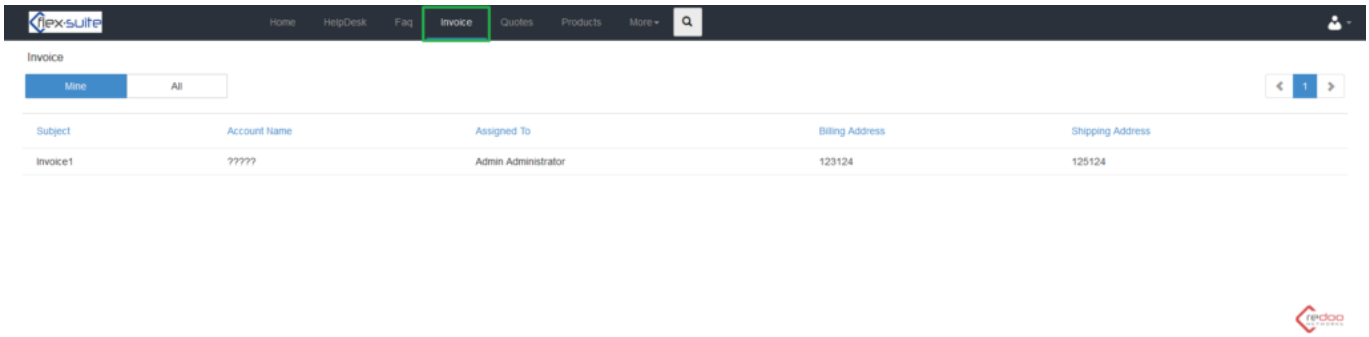

Next section of the Customer Portal is **Faq**

Here you can search for any top questions recorded in the CRM

 Copyright © 2026 Redoo Networks GmbH

On the **Invoice** page you can see the list of all available Invoices connected to your user profile

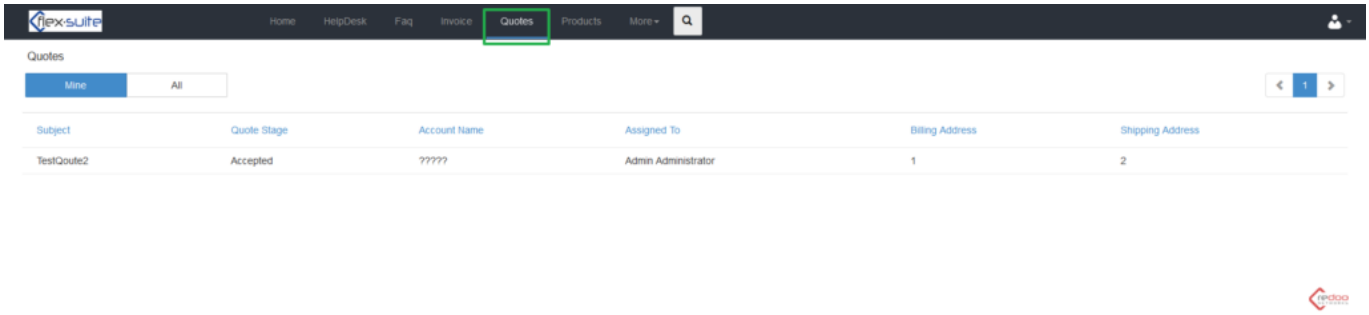

By clicking on the Invoice name you will see the page corresponding to it

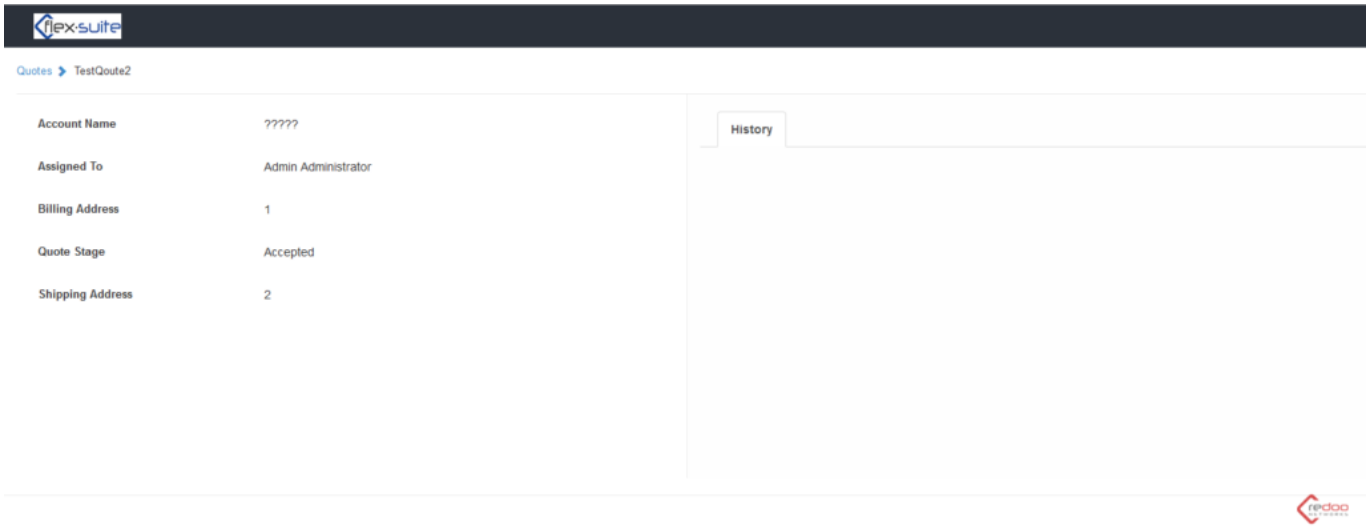

Next one is a Quotes page where all quotes connected to your account are available

 Copyright © 2026 Redoo Networks GmbH

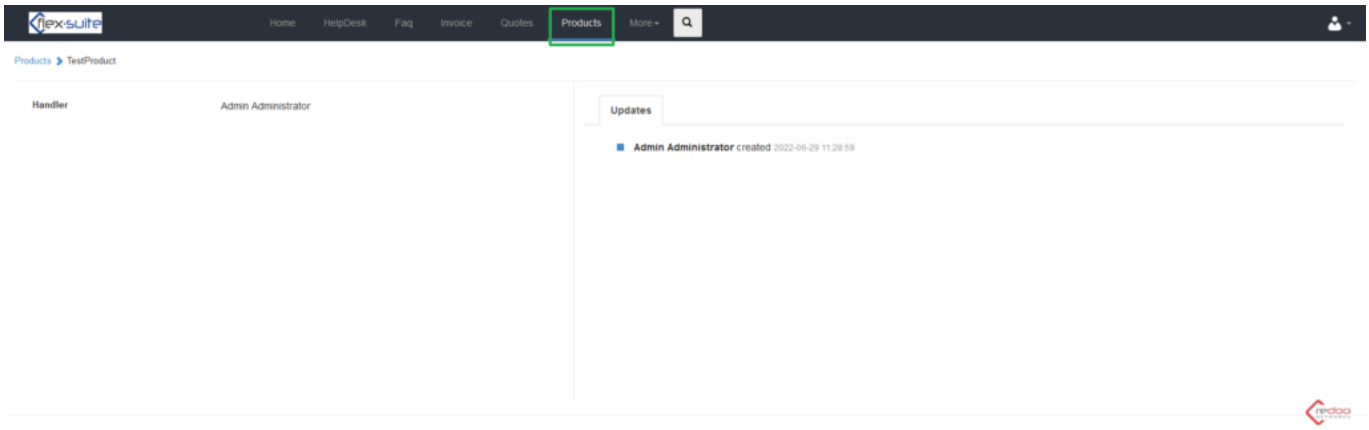

On the quote page itself you can see some basic information and History block

On the Products page you can see the list of all products that you are connected with as a Contact

 Copyright © 2026 Redoo Networks GmbH

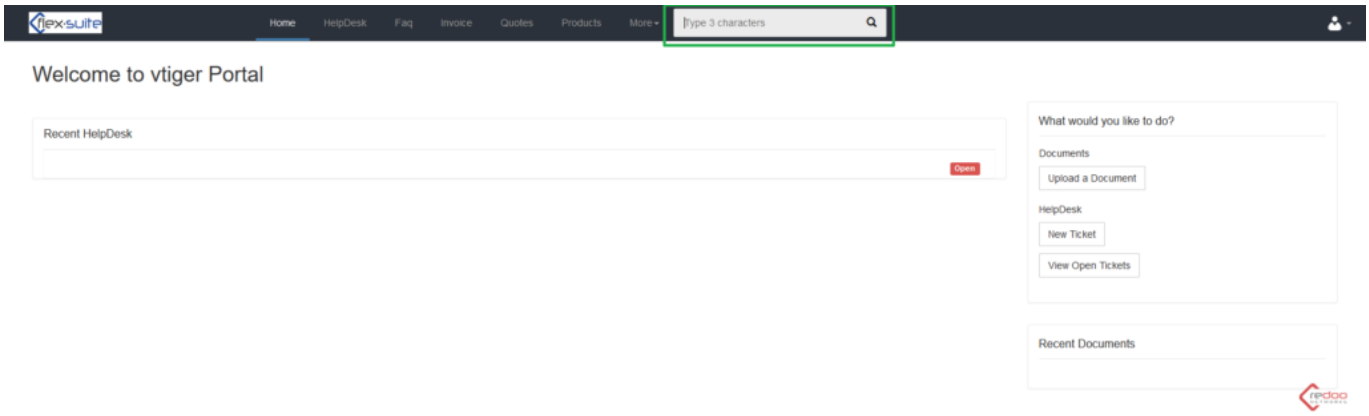

In More there is a pop-up window where you can get to the:

- Services
- Documents
- Assets
- Project
- ServiceContracts
- Redoo Messages

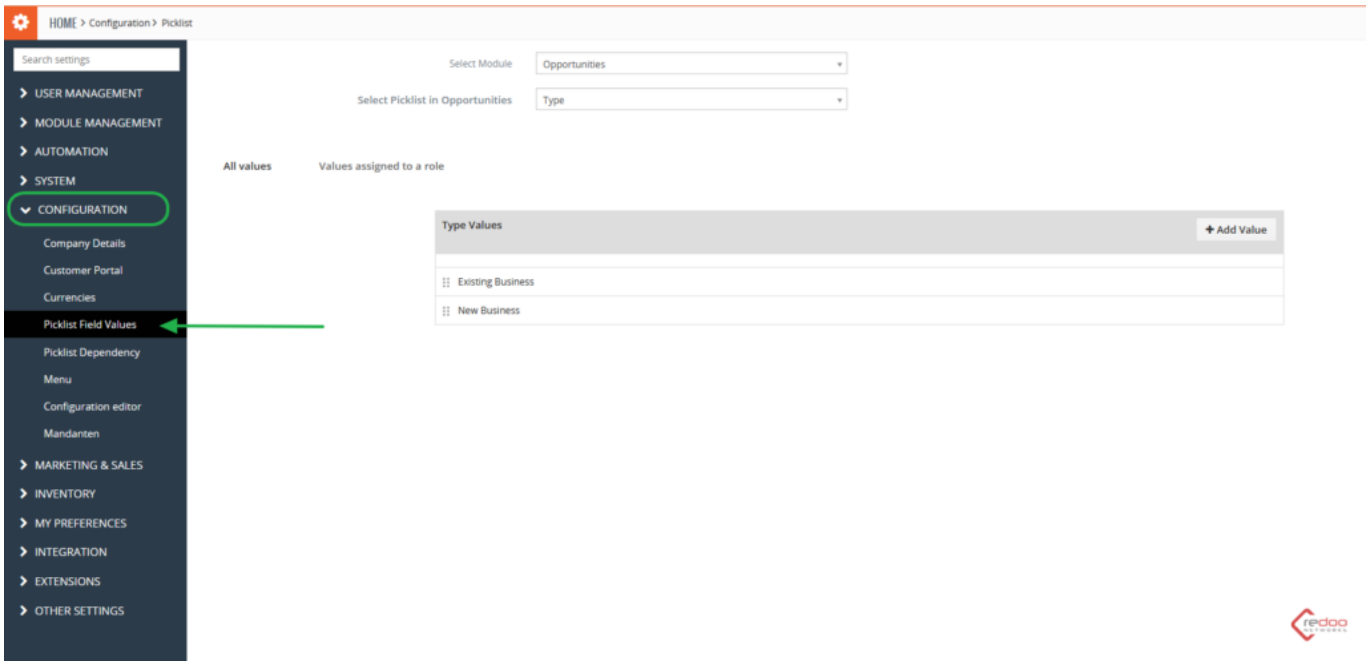

On the right you can see

Picklist Field Values

The next page in Configuration block is Picklist Field Values

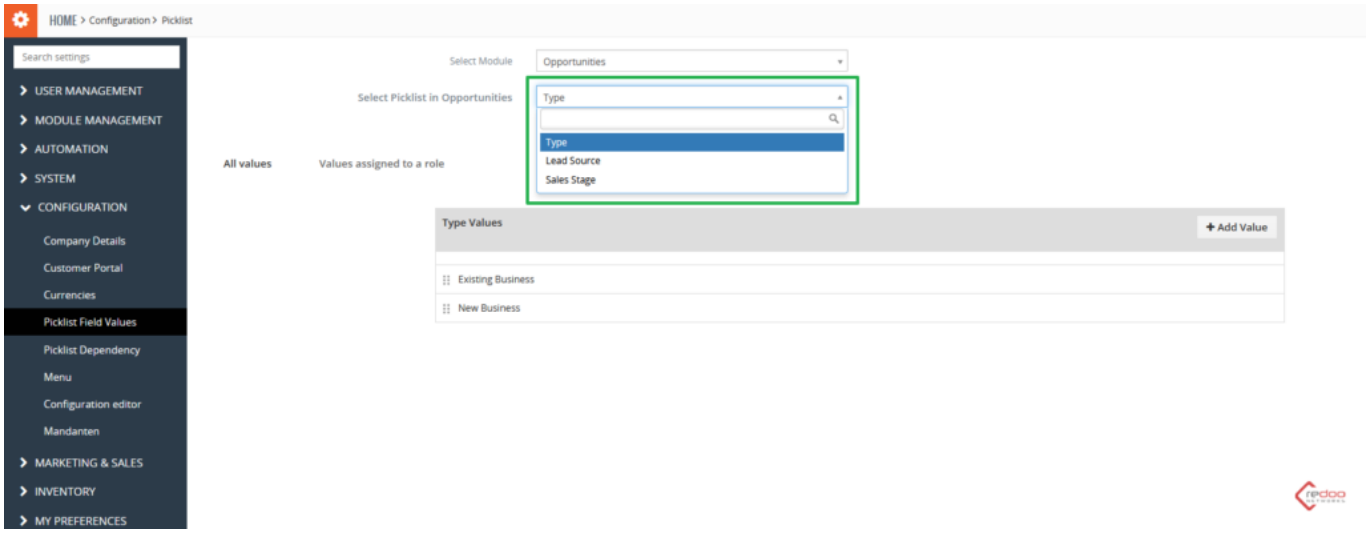

On the first steps you have to select a module which you would like to select picklist for

 Copyright © 2026 Redoo Networks GmbH

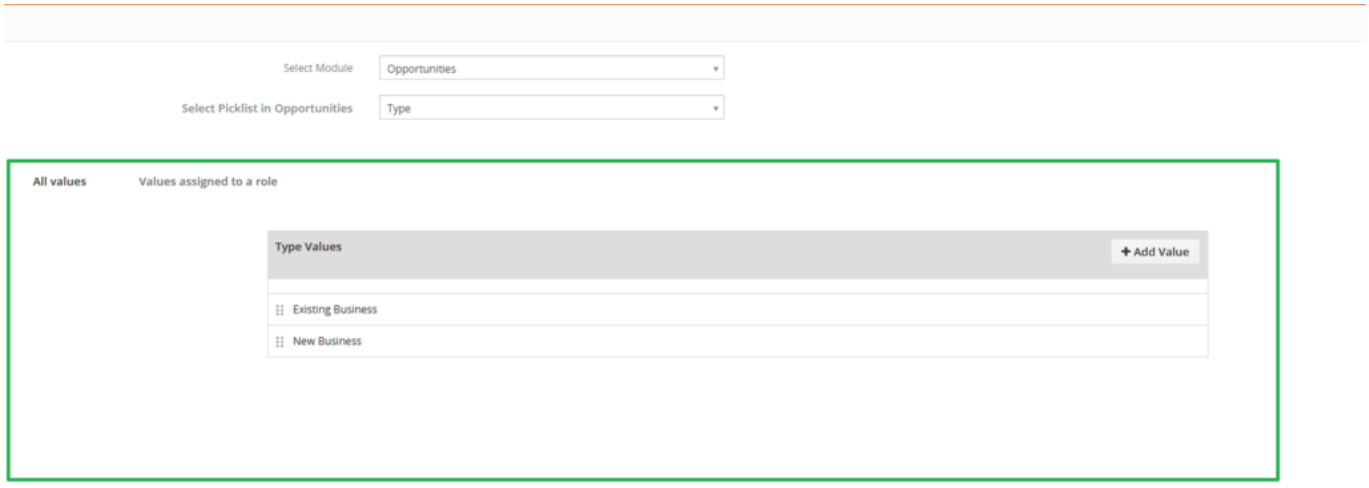

und wählen Sie unter “Möglichkeiten” die Option “Pickerl”, wo Sie zwischen drei Optionen wählen können:

- Typ
- Lead-Quelle
- Verkaufsstufe

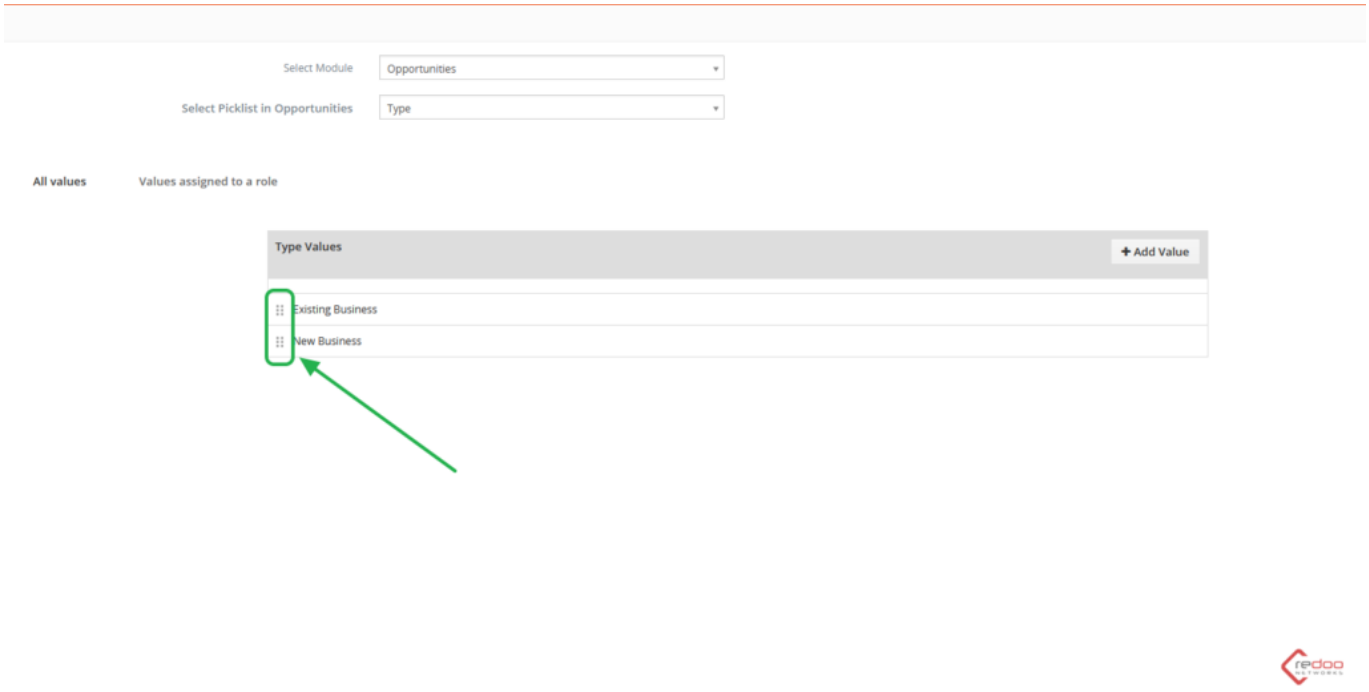

In the main part of the page you can see a list of all Picklist Values that are used within the CRM

 Copyright © 2026 Redoo Networks GmbH

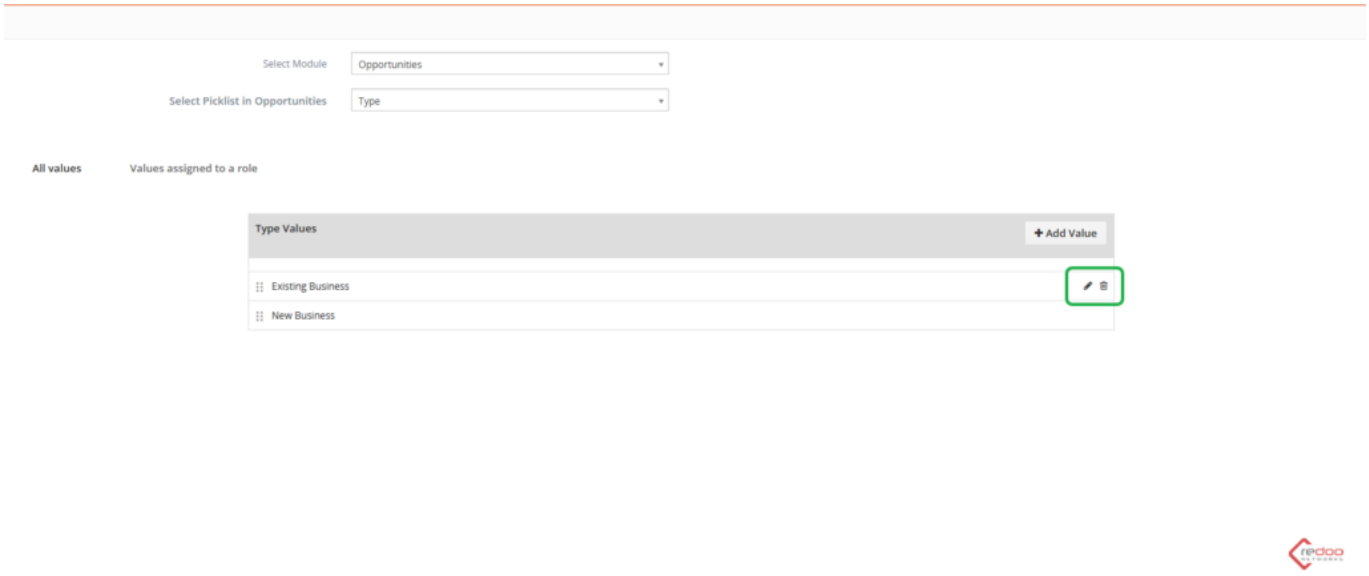

You can move them via drag and drop using these dot signs

To edit or delete a picklist values you can use these “pencil” and “trash can” icons by clicking at

 Copyright © 2026 Redoo Networks GmbH

them like shown in the image

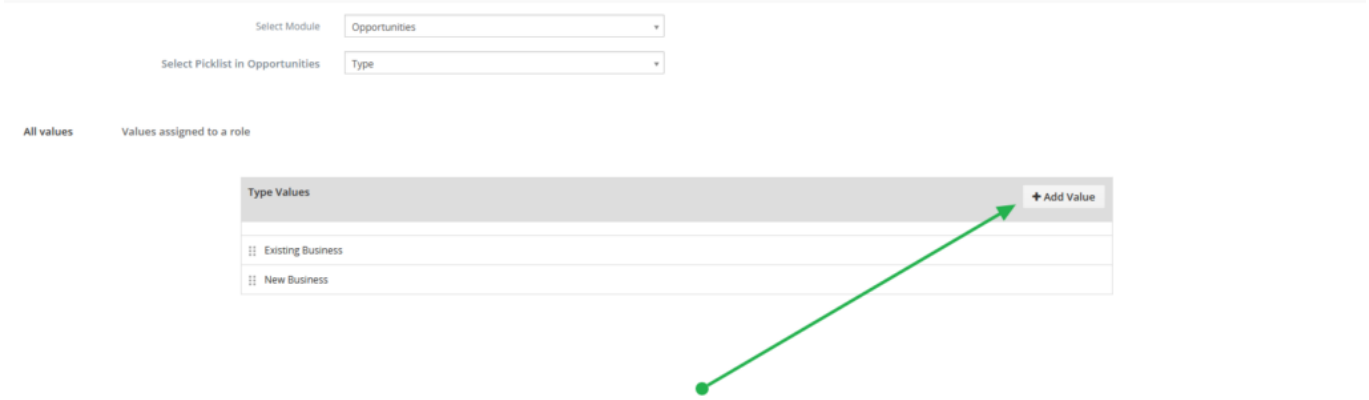

When you edit a Picklist Value you should choose an Item to rename, Enter the new Name and select a color.

Copyright © 2026 Redoo Networks GmbH

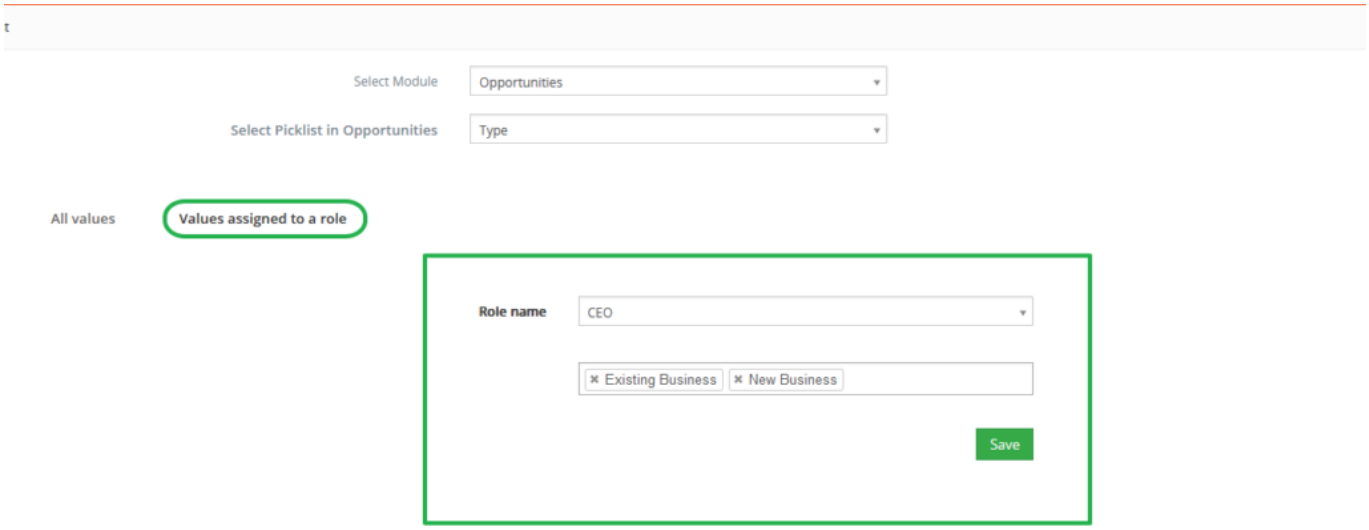

To add a Picklist Value use the “Add Value” button shown in the image

 Copyright © 2026 Redoo Networks GmbH

There is also an option to set up Picklist Values individually to each role by switching to the Values assigned to a role page

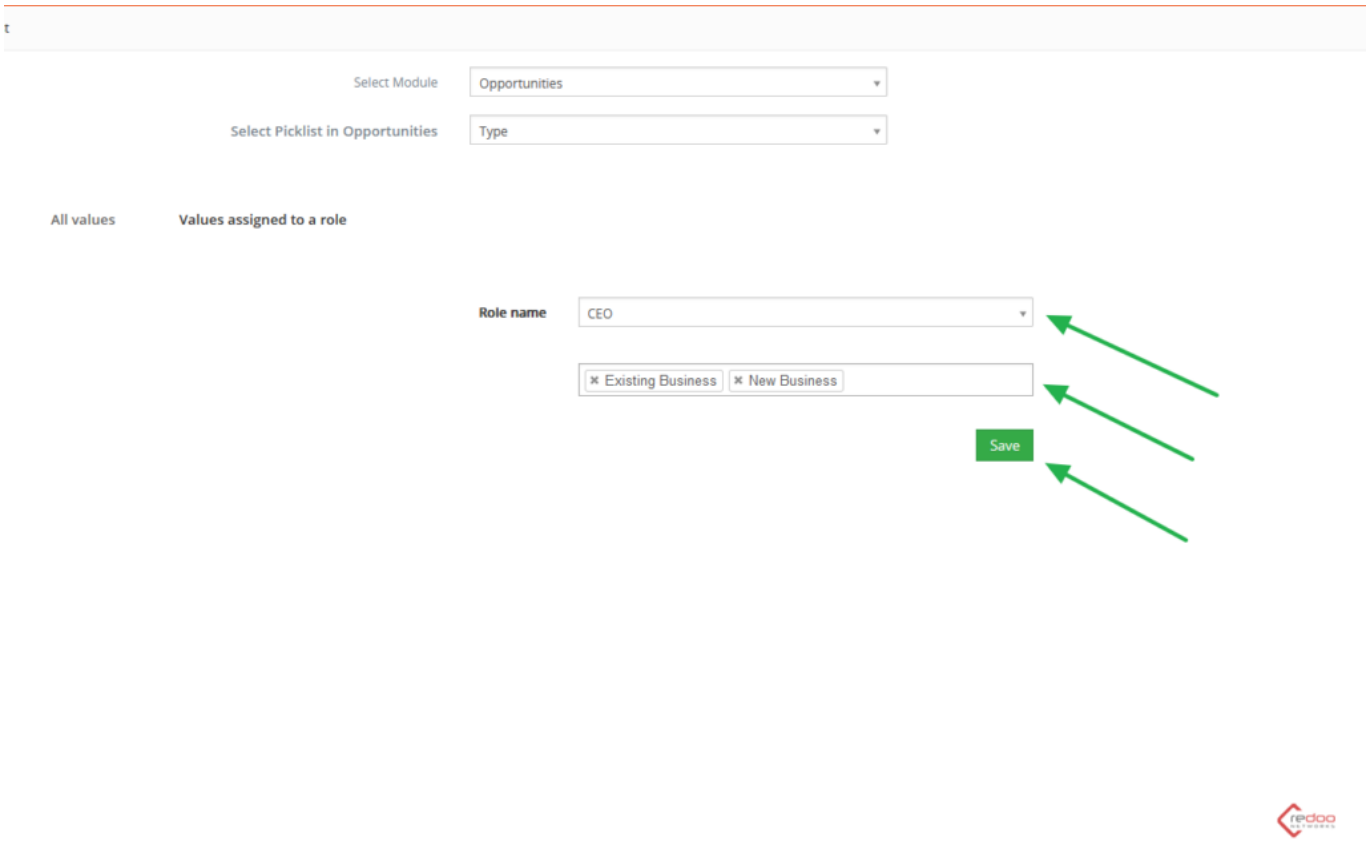

Firstly – Select a role name

Then choose which Picklist Values to add or remove the extra ones

And finally – save

Copyright © 2026 Redoo Networks GmbH

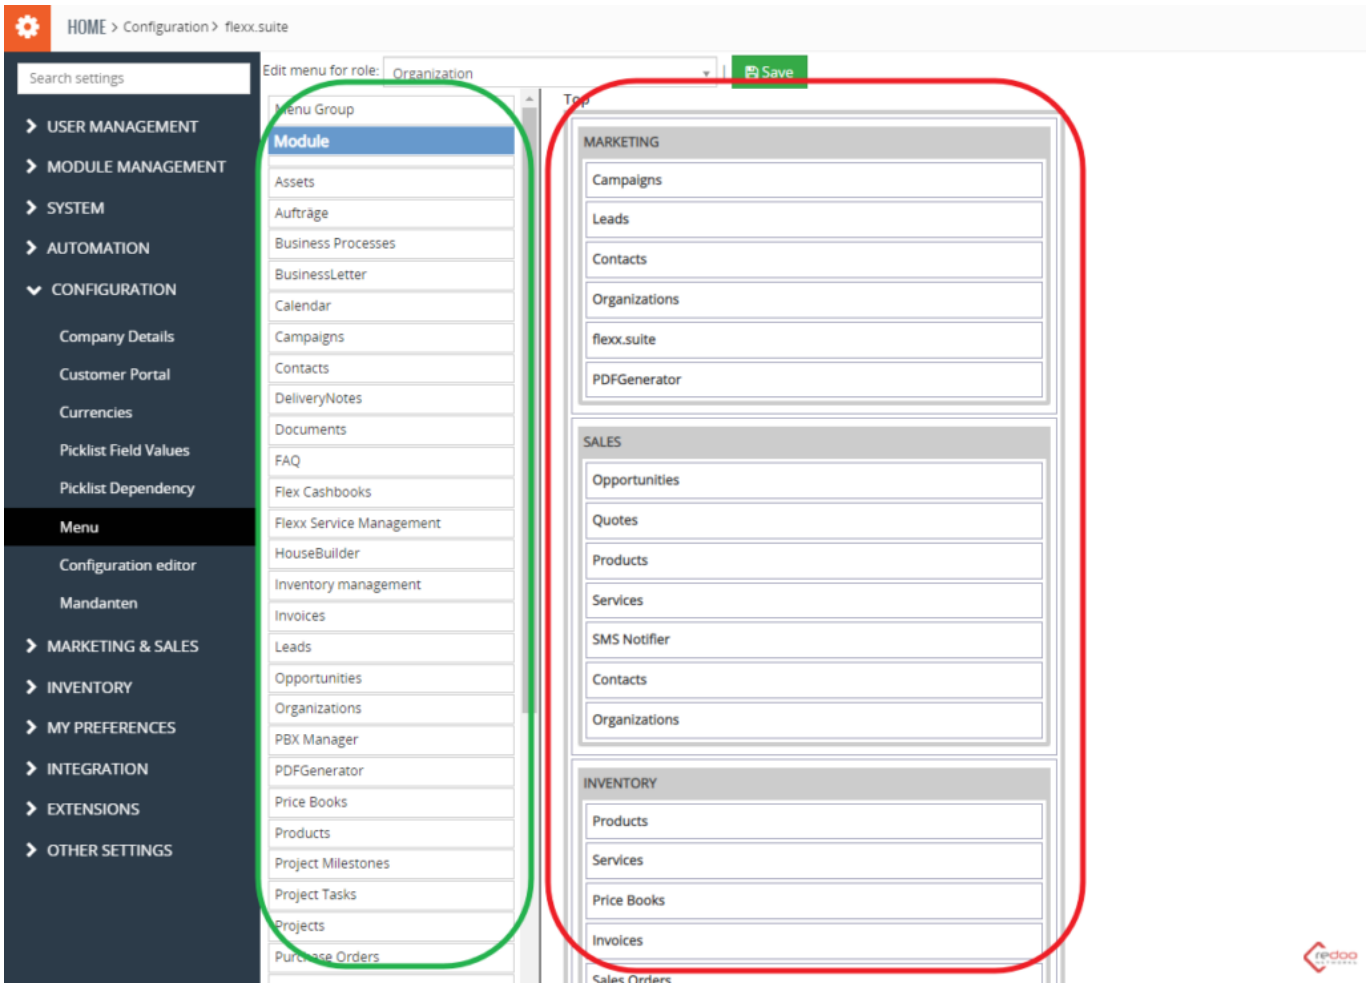

Menu

Here you can see a page divided in two columns

The column shown in green displays the list of all modules available in CRM

The red column responds for all top bar sections and modules that you can view from a pop-up window that opens when you select the proper section.

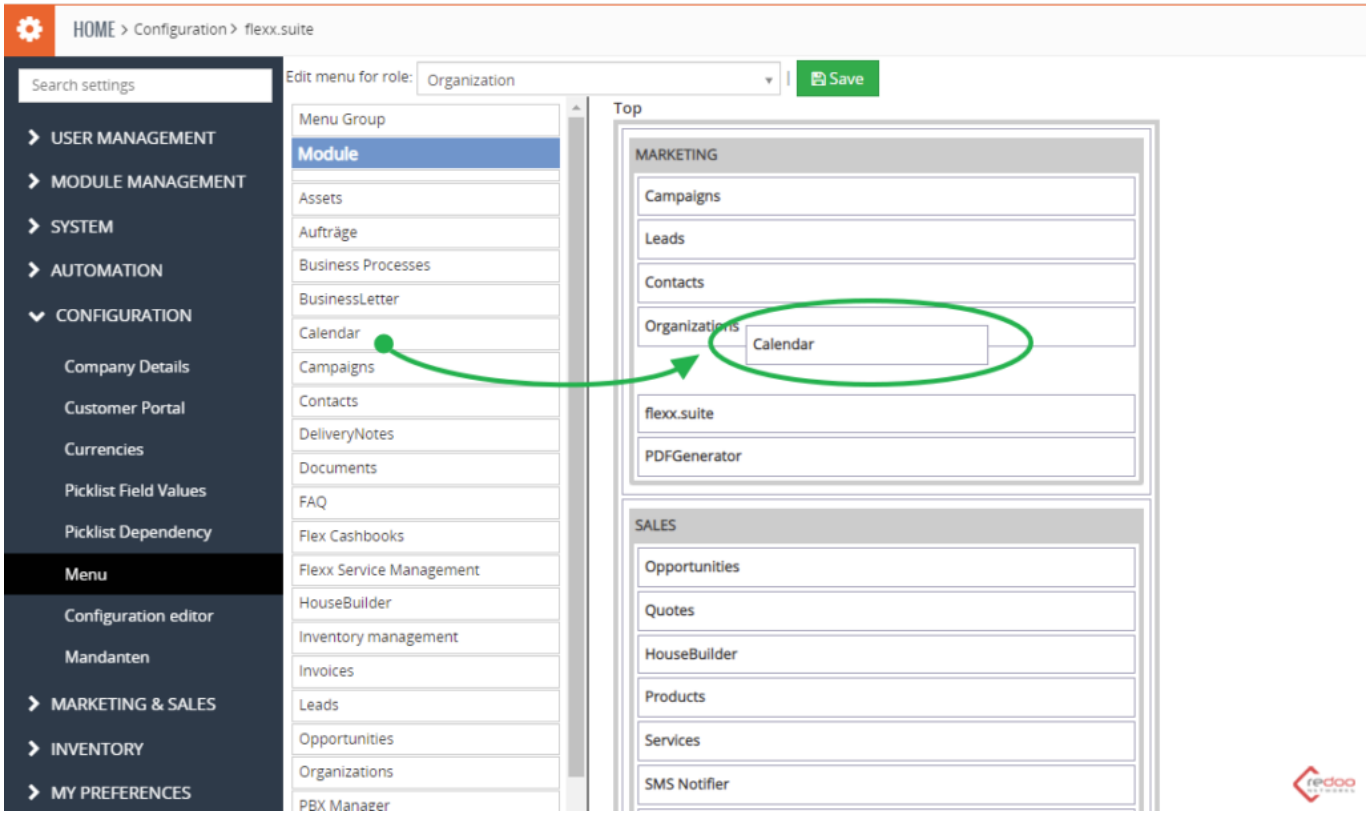

Copyright © 2026 Redoo Networks GmbH

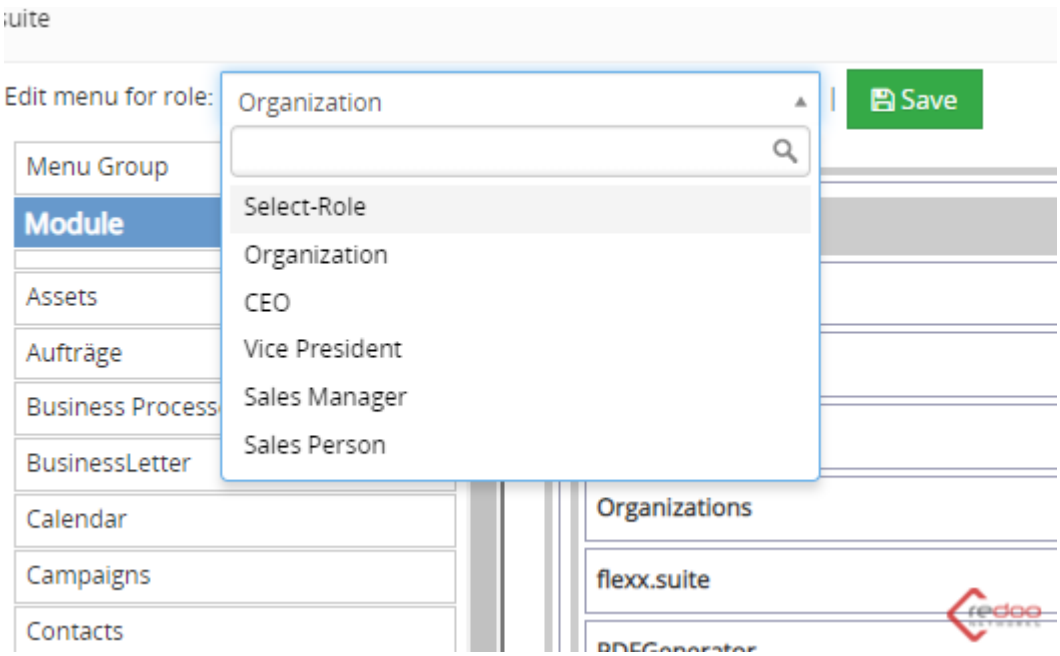

Via drag and drop you can move modules from left column and place them in the desired section

In the example below you can see how a Calendar module is mode to the Marketing section and placed between “Organizations” and “flexx.suite” modules

Copyright © 2026 Redoo Networks GmbH

On the top of the page there is a section when you are able to choose a specific role that will work with the menu you created below

 Copyright © 2026 Redoo Networks GmbH

To save your progress press the green “Save” button.

Configuration Editor

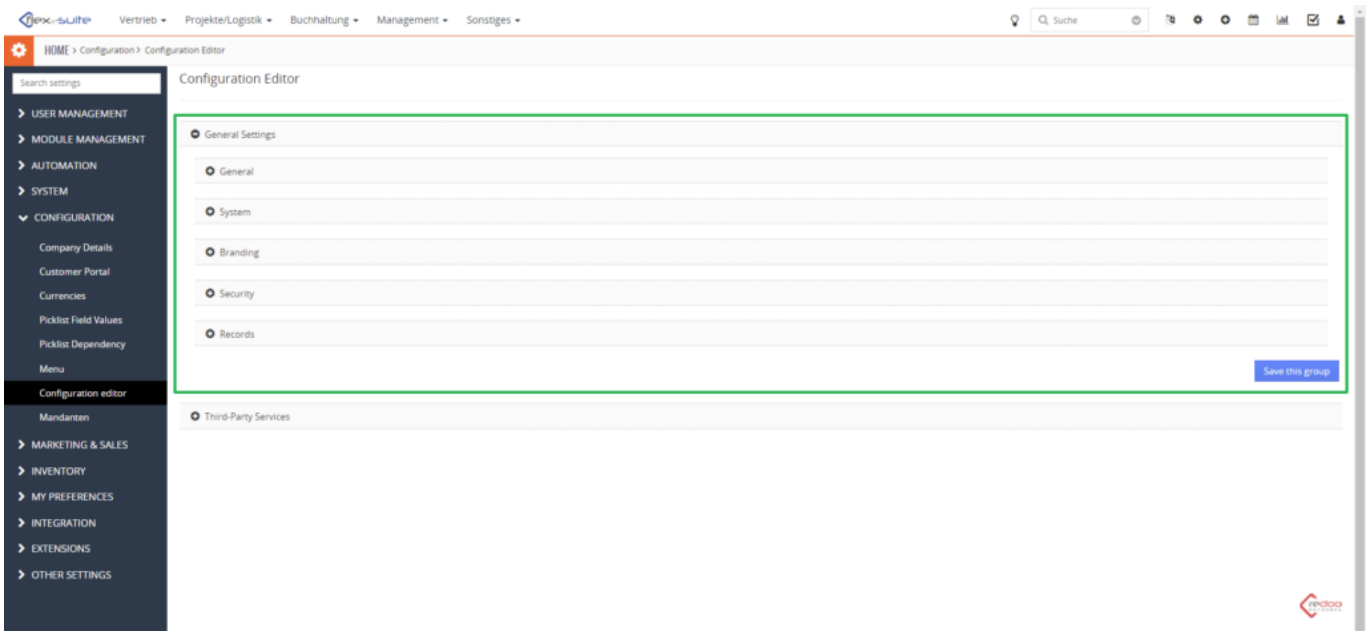

This page responds for Configuration Editor

It is divided in two sections:

First is **General Settings**

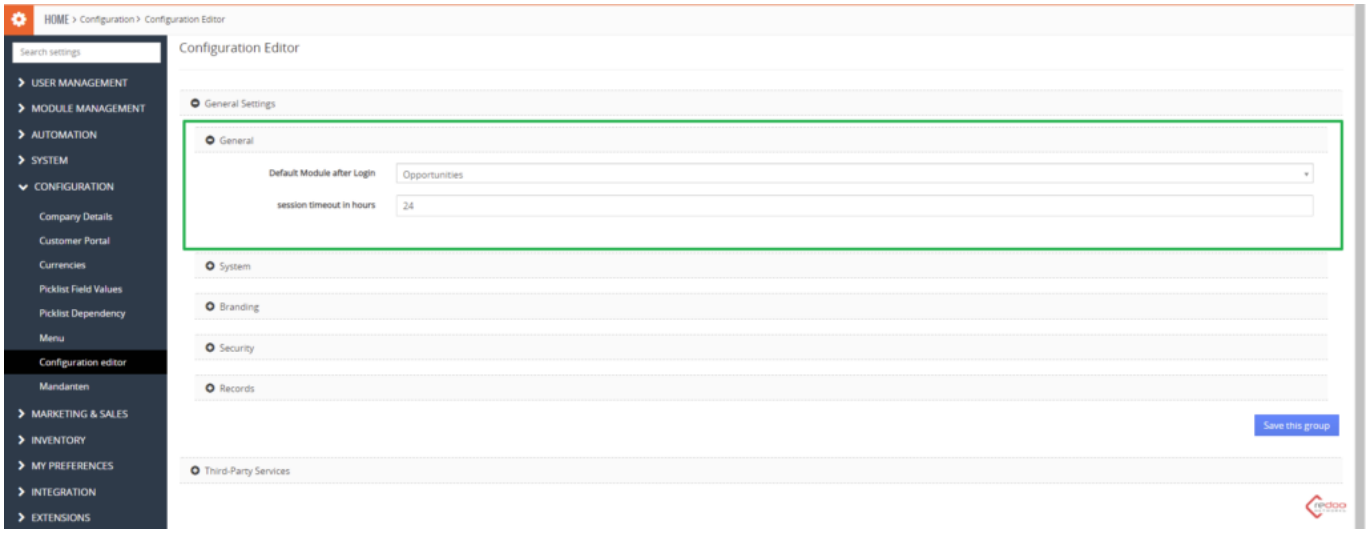

Copyright © 2026 Redoo Networks GmbH

Here are 5 sections corresponding to different aspects of the CRM system:

- General

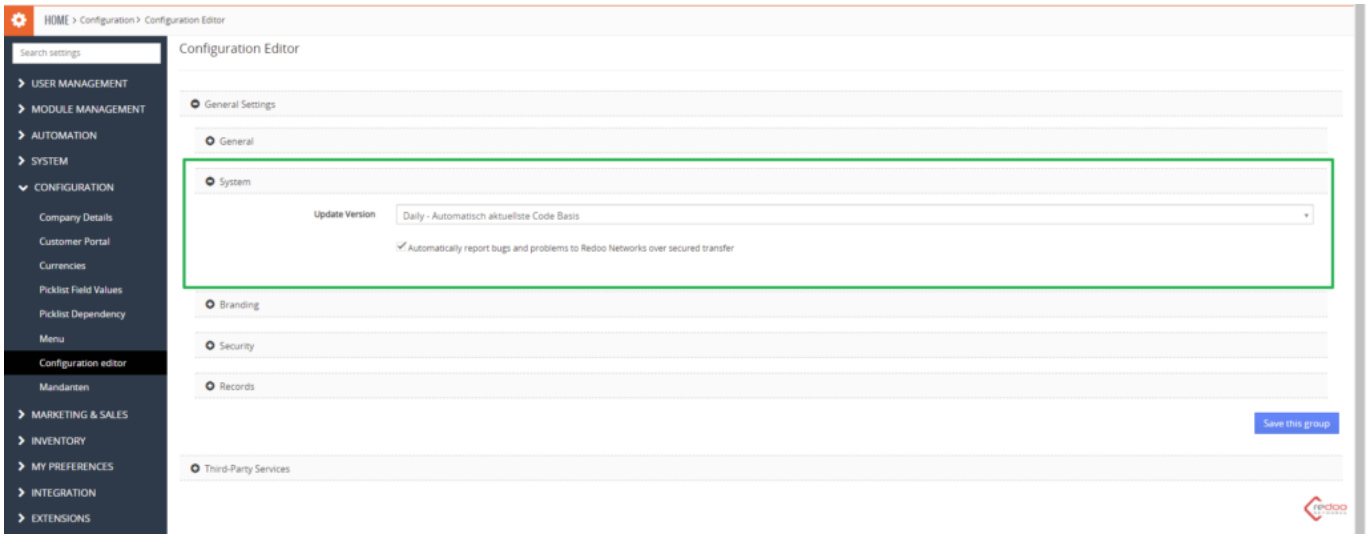

In this part you can set the default module after login and set session timeout in hours

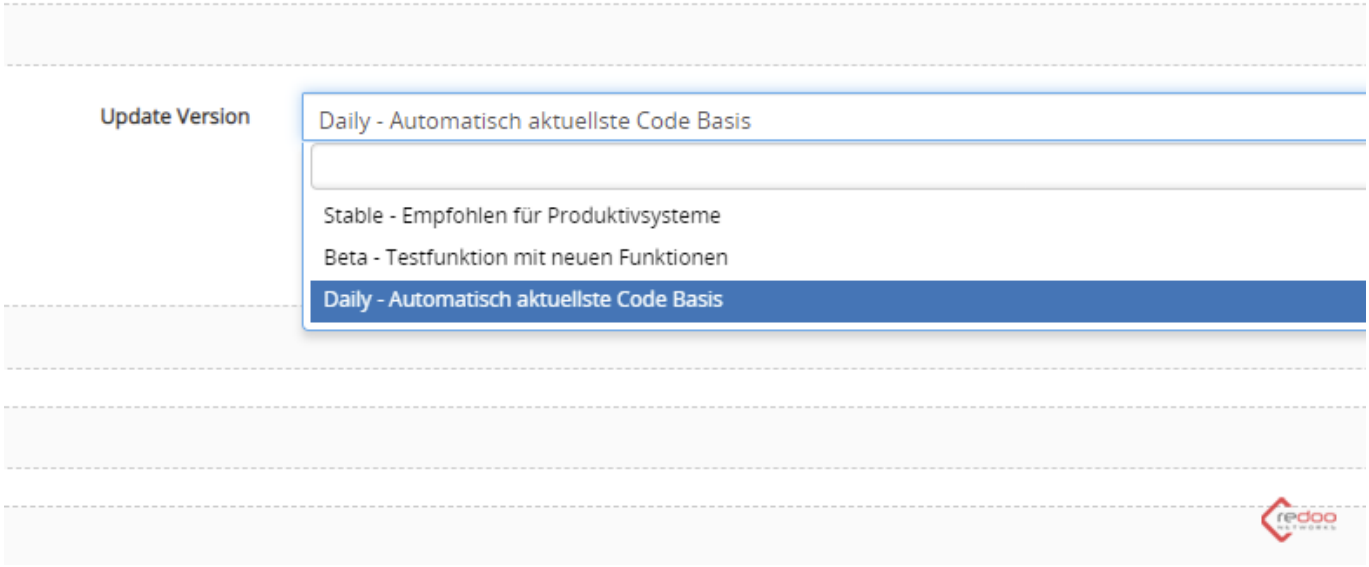

- System

Here you may configure the update process

 Copyright © 2026 Redoo Networks GmbH

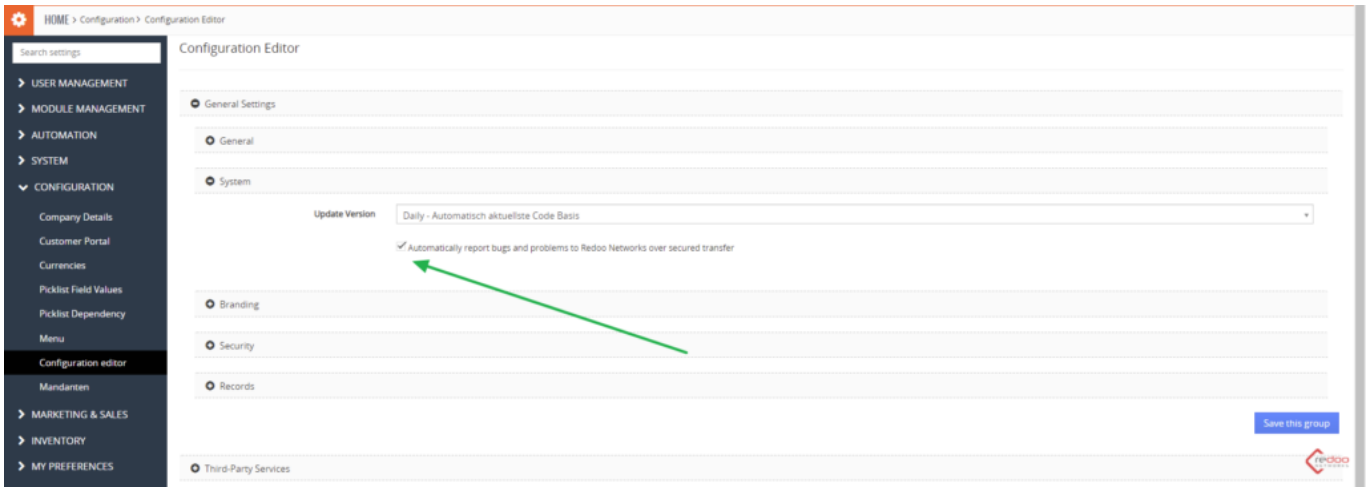

Pick up one of three different options: Stable, Beta and Daily

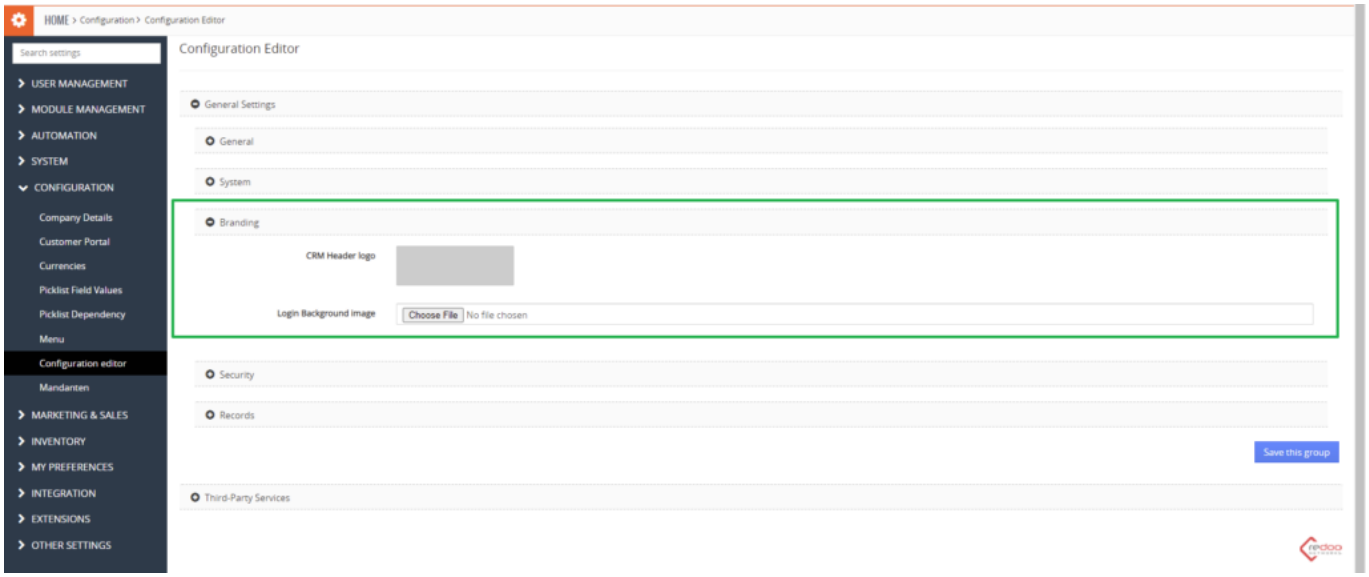

Below there is an option to turn on the automatic bug report function which will send bugs and problems to Redoo Networks over secured transfer

 Copyright © 2026 Redoo Networks GmbH

- Branding

This section is made to set up a header logo and login background image

- Security

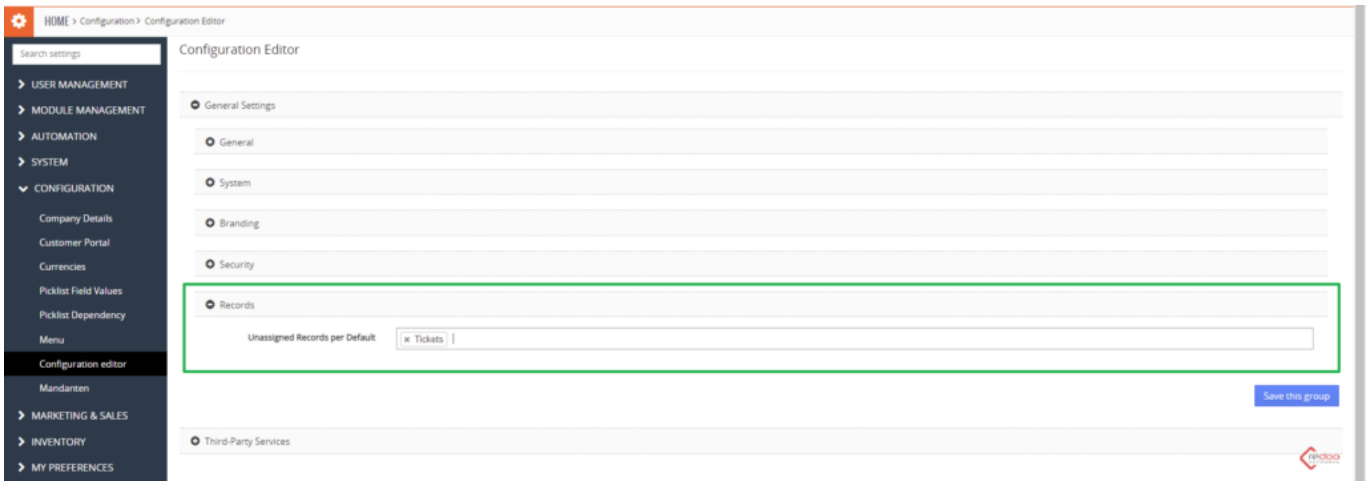

Security allows you to manually enter the allowed referral domains

 Copyright © 2026 Redoo Networks GmbH

- Records

in Records you can select modules which new-made records will be unsigned by default

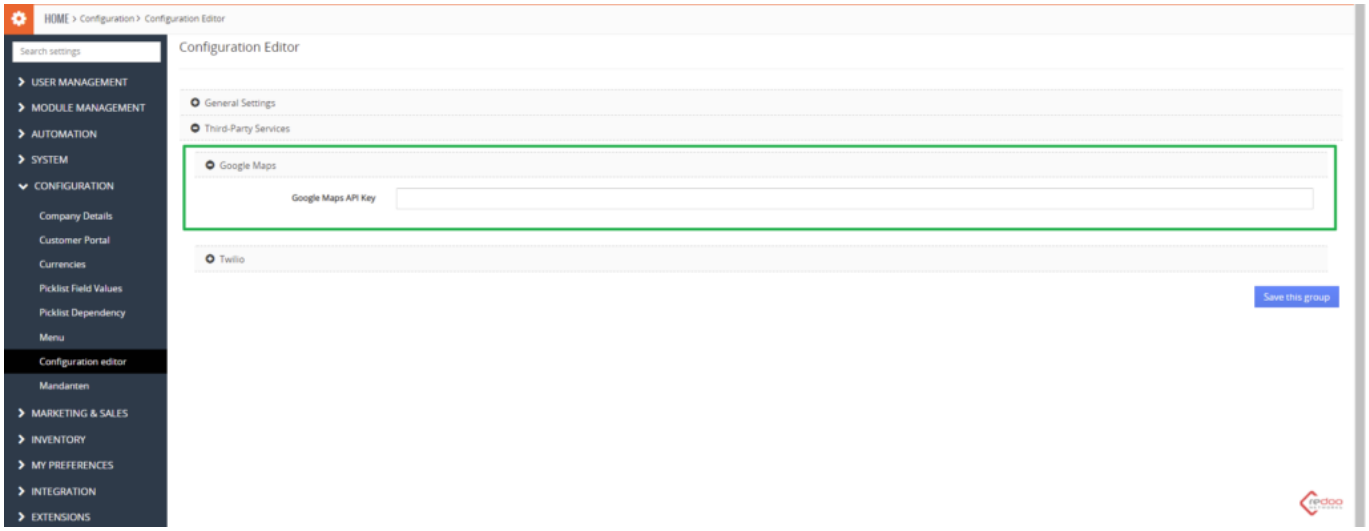

To save changes press the blue button like shown in the image

 Copyright © 2026 Redoo Networks GmbH

Below there is a second block called **Third-Party Services:**

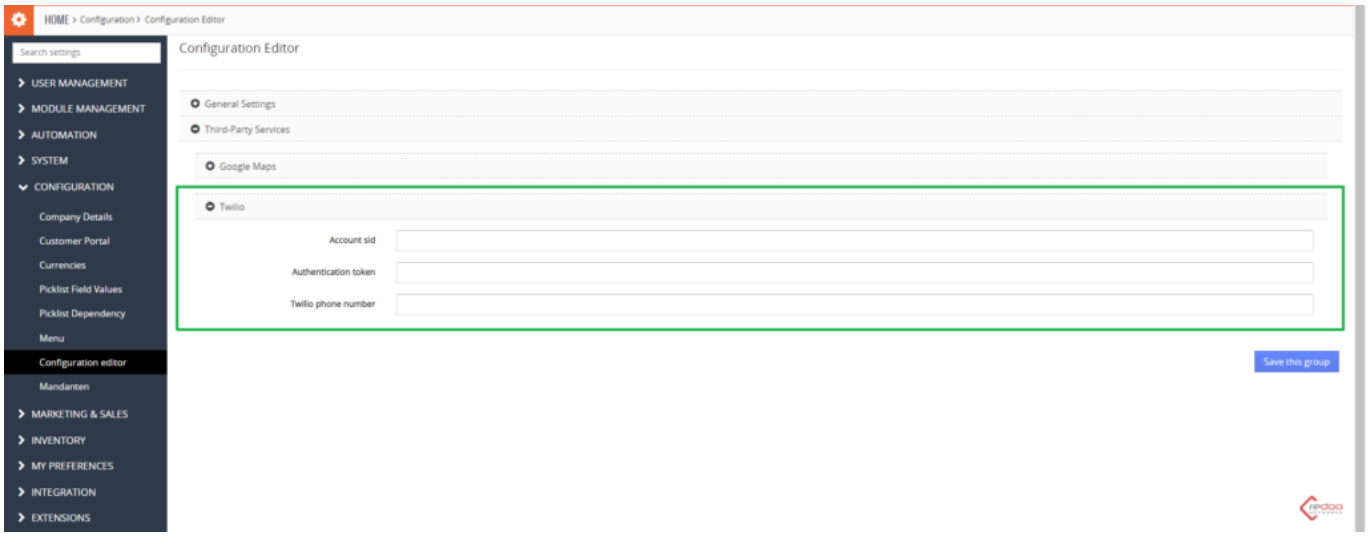

First block responds for Google Maps API Key

And the second one for Twiilo

Here you can fill in the Account sid, Authentication token and Twilio phone number
