## 13.Inventory

The Inventory section is responsible for Tax Management and Terms/Conditions of available modules of the CRM

## Task Management

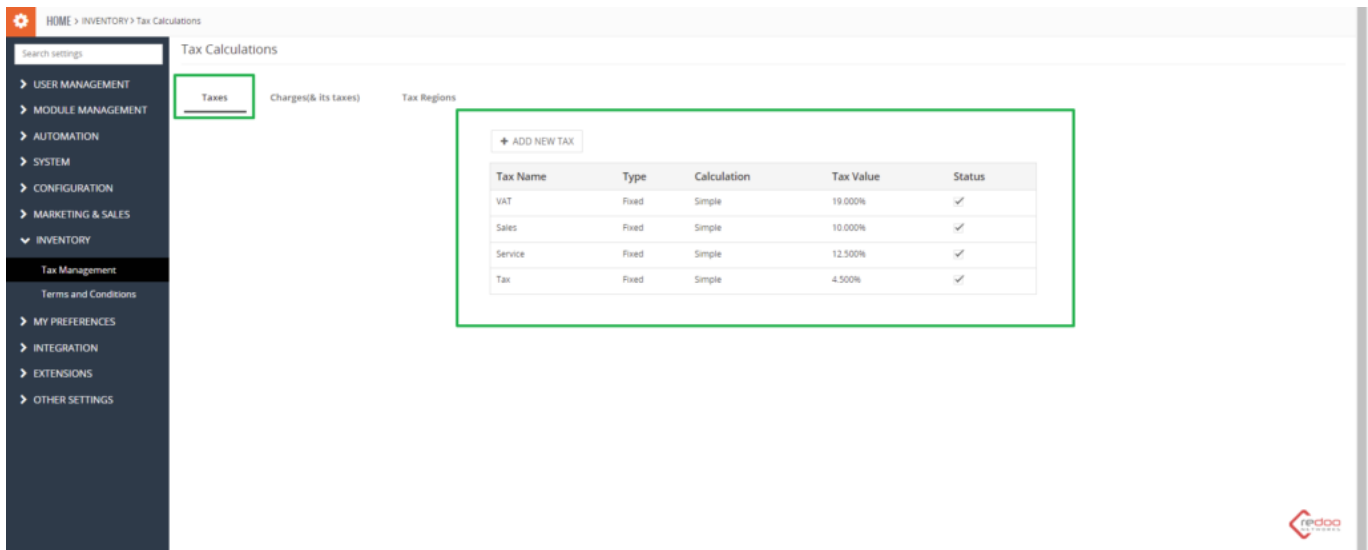

Here is the page of Tax Calculator which allows you to set up Taxes which will be then used within the CRM processes of buying/selling products

The screenshot shows the 'Tax Calculations' page in the Flexx.Suite CRM. The left sidebar contains a navigation menu with 'INVENTORY' expanded, and 'Tax Management' highlighted. The main content area displays a table of taxes with columns: Tax Name, Type, Calculation, Tax Value, and Status. The table lists VAT (19.000%), Sales (10.000%), Service (12.500%), and Tax (4.500%). A red logo is visible in the bottom right corner.

Tax Name	Type	Calculation	Tax Value	Status

A window opens and here you will see a form for new tax creation

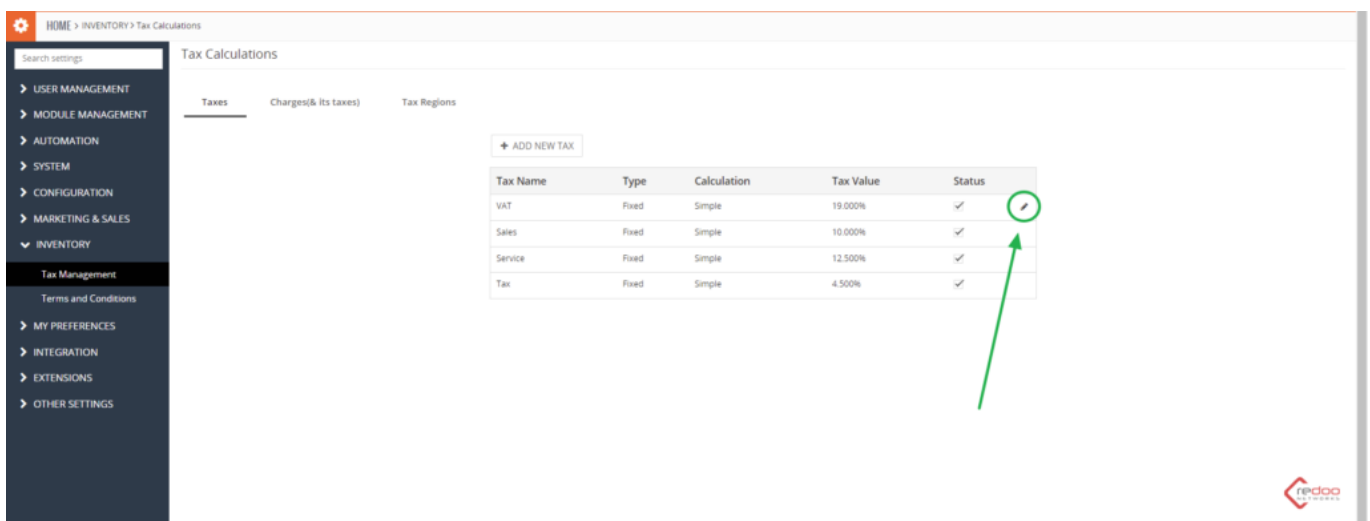

Choose:

- Tax Name
- Status (Active/Disabled)
- Type of Tax Calculation (Simple / Compound / Deducted)
- Tax type (Fixed / Variable)
- Tax Value

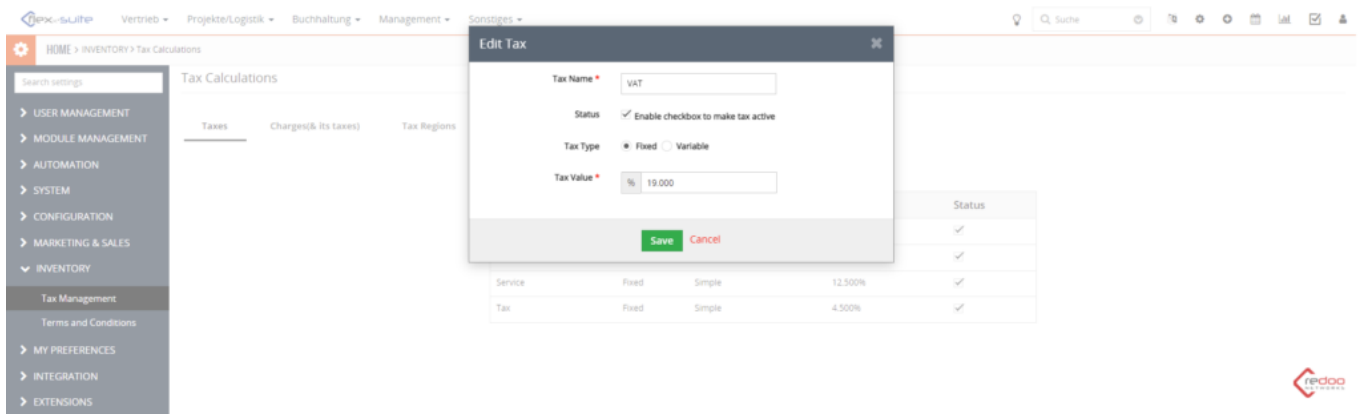

After that press the "Save" button below and then a new tax will be visible on the list

To edit an already existing Tax aim the cursor at the desired one and an "edit" button will show up, use it to make changes.

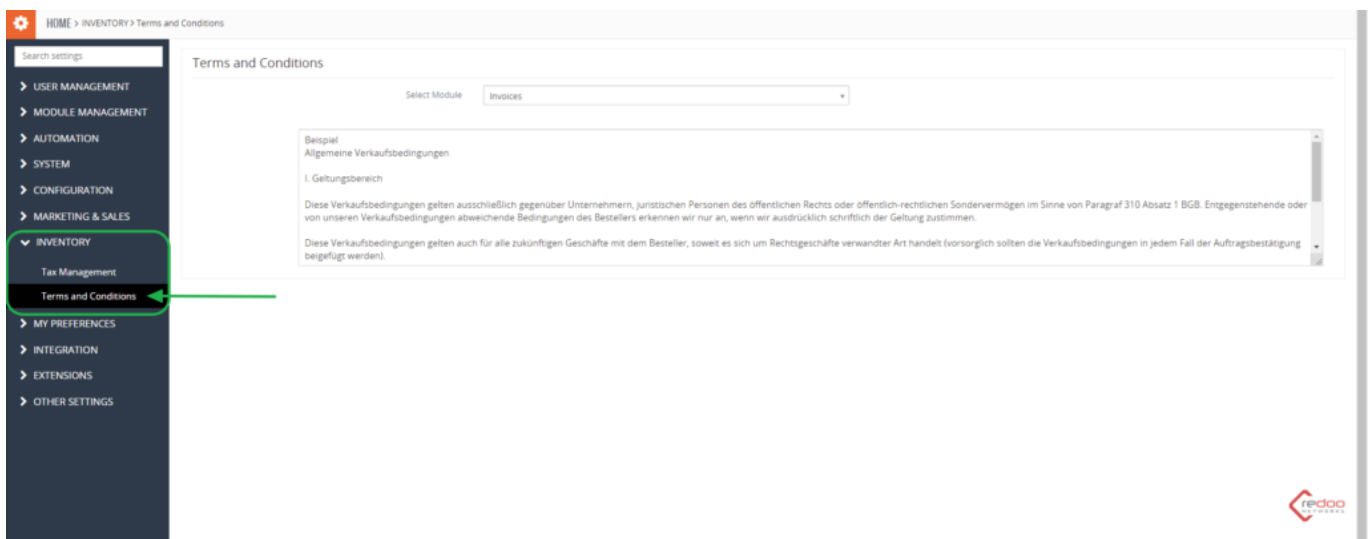

Here is an example of the edit window

## Terms and Conditions

Here you can find Terms and Conditions for any module within the CRM

On the top of the page select a module from the list and all the Terms will be uploaded in the text box below
