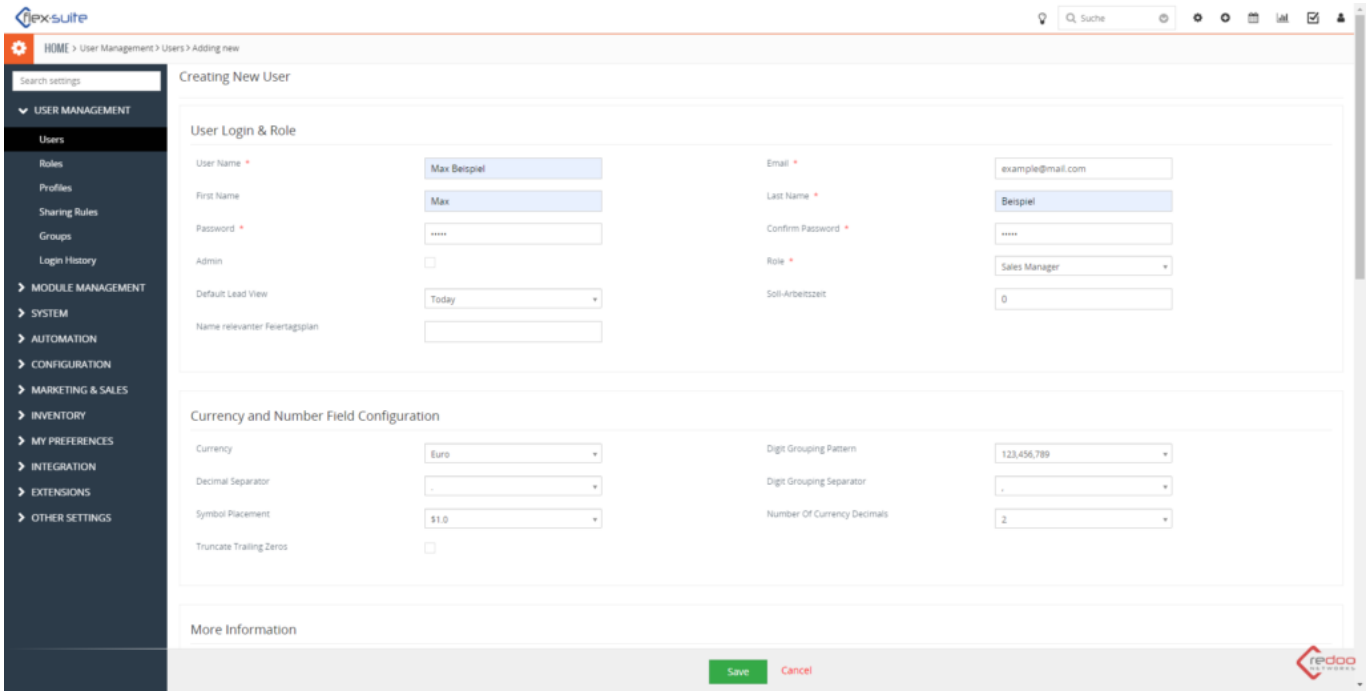
This is a create new User page. Here you can define the basic values that will determine the User:

- User Name
- Email
- First and Last name
- Password
- Will the User have admin rights
- Role

You can also set some basic values in sections like:

- Currency and Number Field Configuration
- More Information
- User Address
- User Photo

After you finish press the “Save” button bellow to save

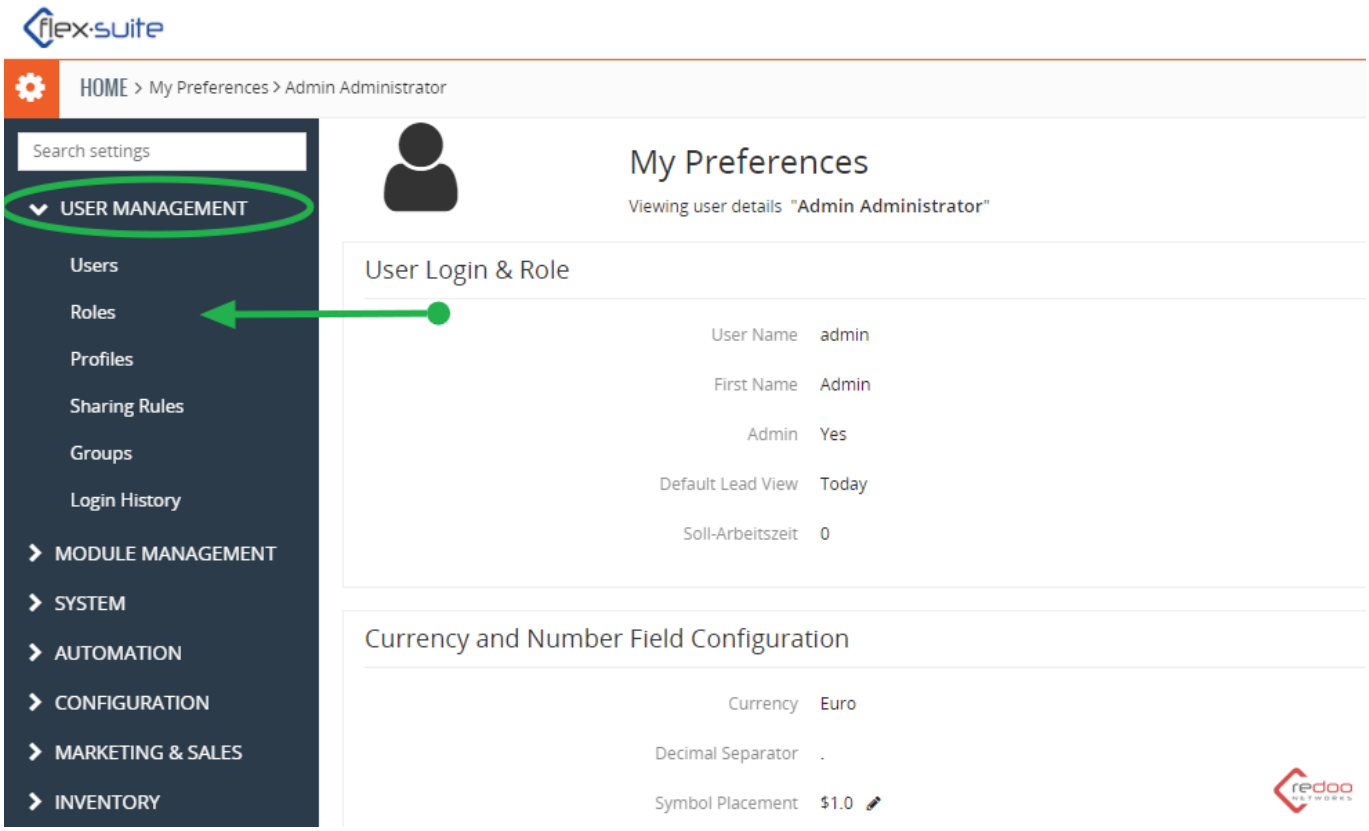


User Roles

Every User profile has its Role that defines its relations with other users and its credentials

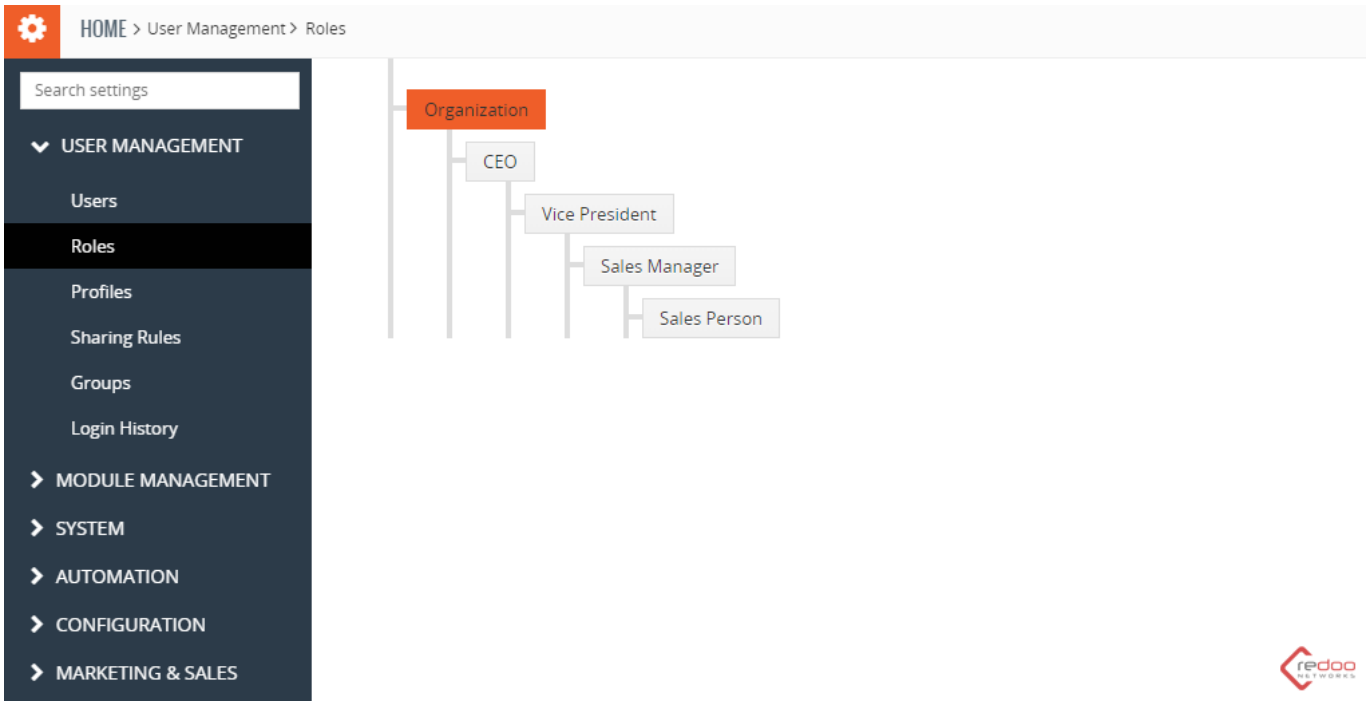
 Copyright © 2026 Redoo Networks GmbH

To manage user roles go to the Preferences page, choose User Management and click on Roles.



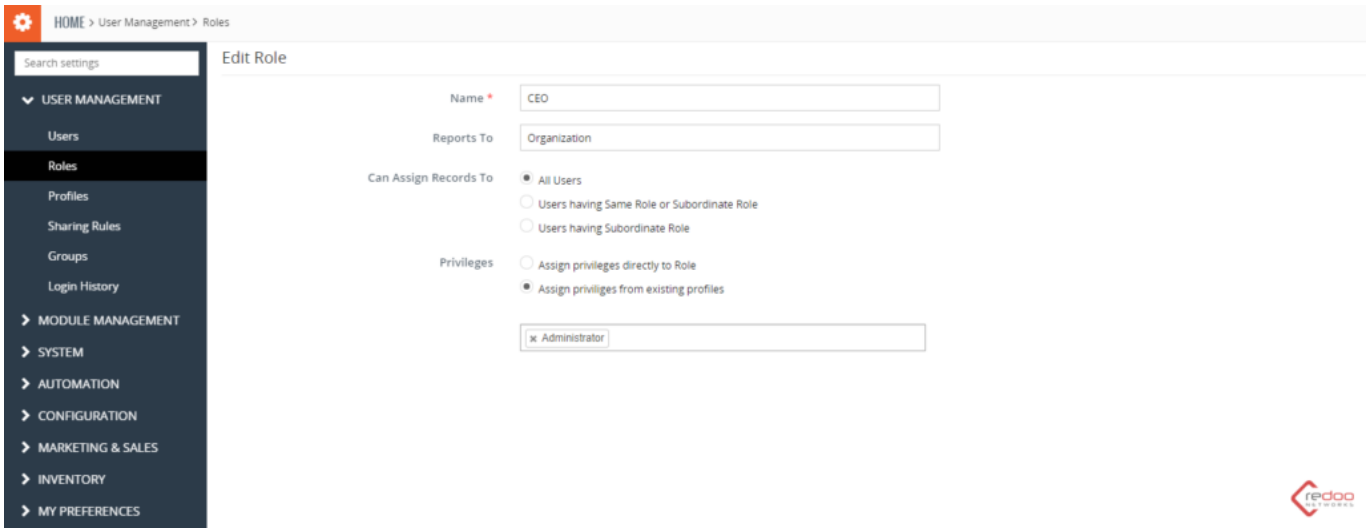
Now you can see how the Roles system is build

Copyright © 2026 Redoo Networks GmbH



If you click on any of these entries you will see the deep Role settings page and edit it.

Lets see how CEO Role works

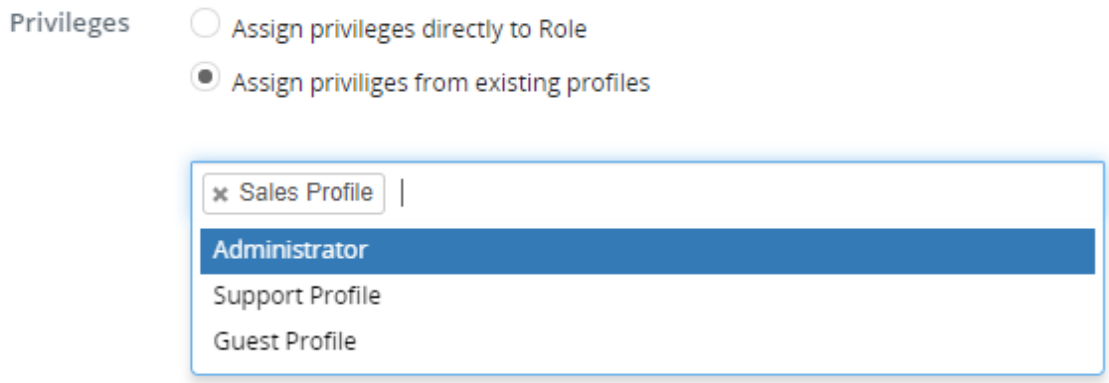


Here you can change a role Name

Choose the Role that this one will report to

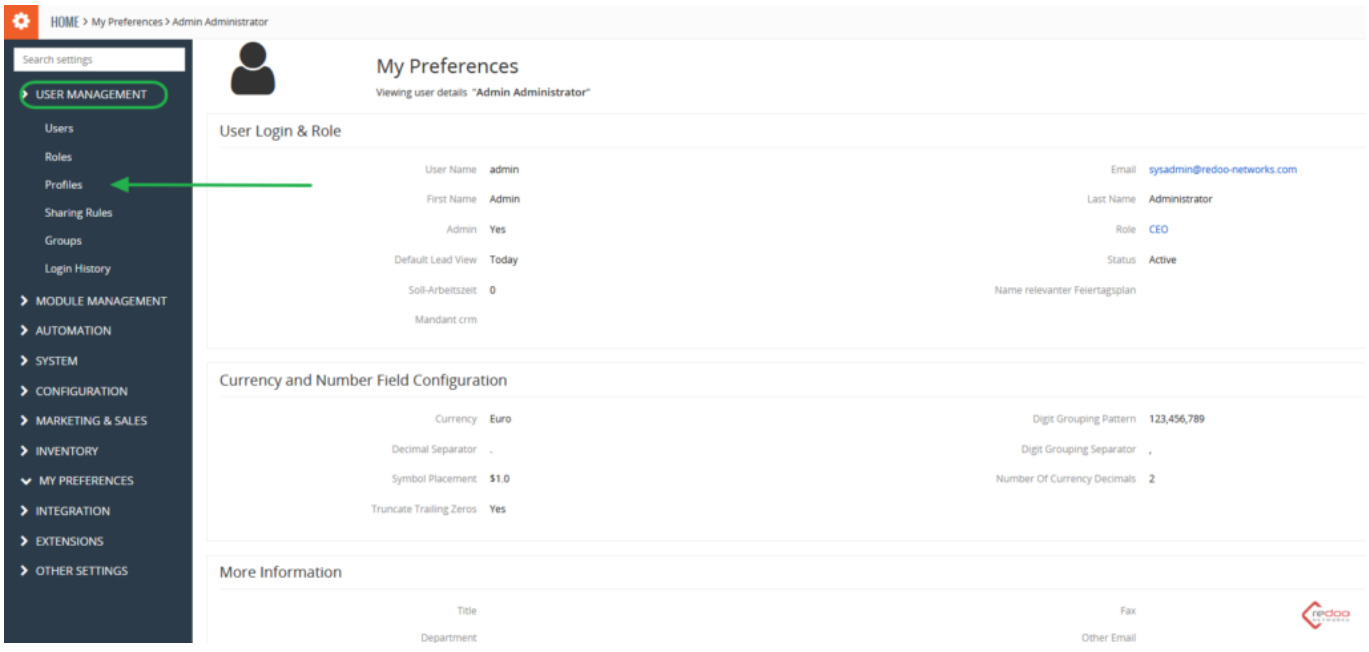
 Copyright © 2026 Redoo Networks GmbH

Select if the Role can assign records to other users and if it has privileges assigned from already existing roles or profiles.



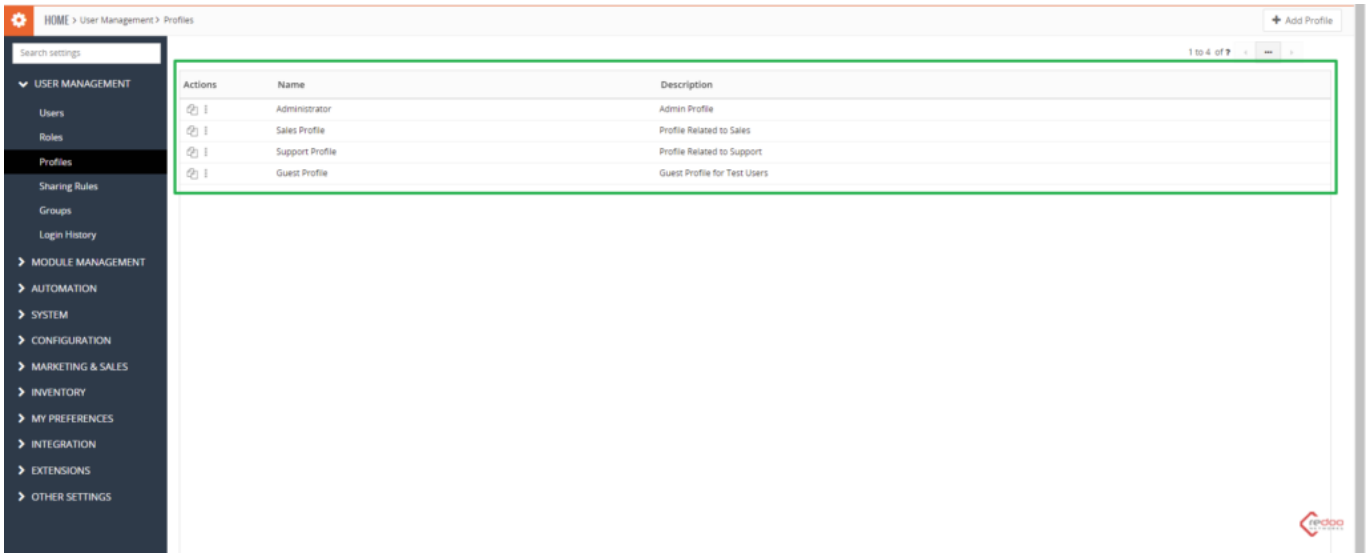
Profiles

In this section you can set up profiles in your CRM

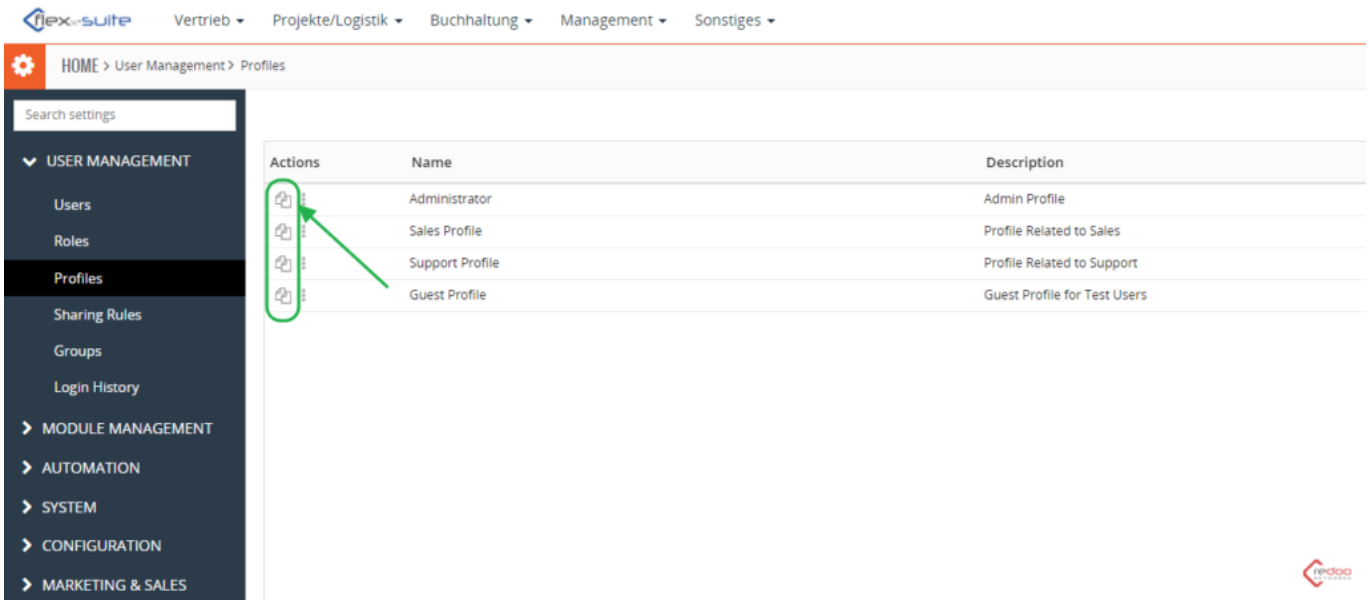


Here you can see the list view of all Profiles within the CRM

Copyright © 2026 Redoo Networks GmbH

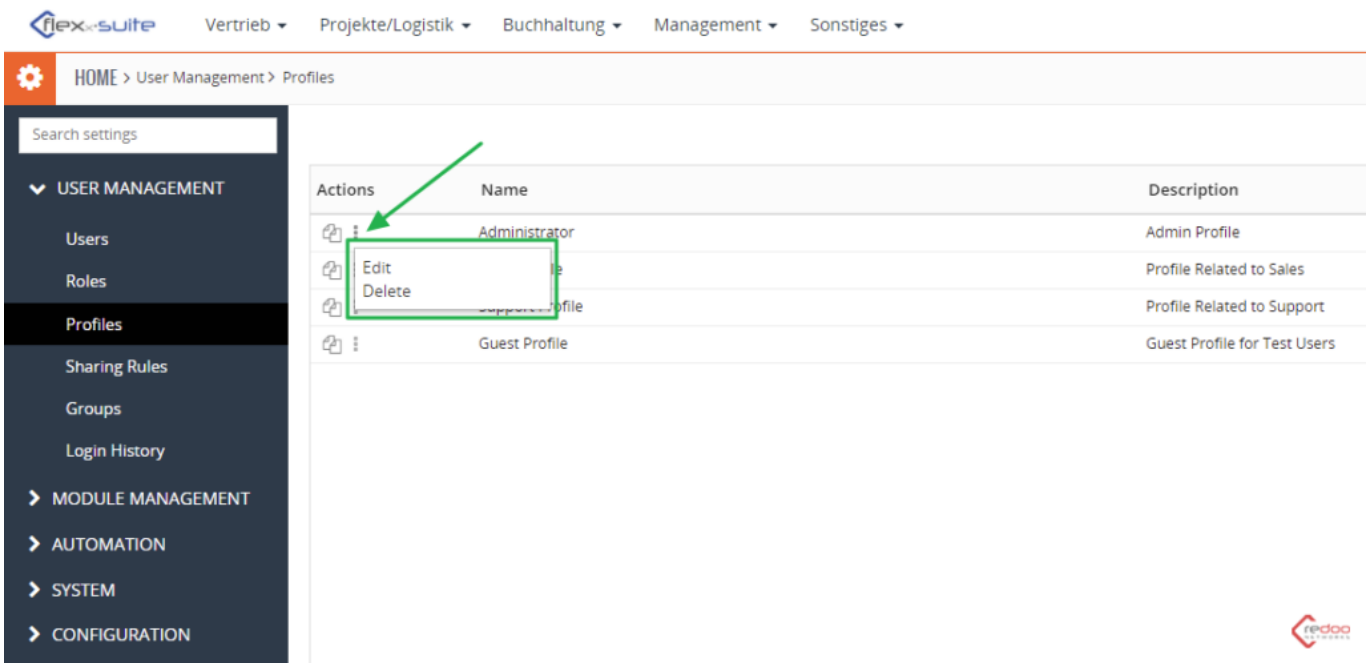


To duplicate a profile press this button like shown in the image

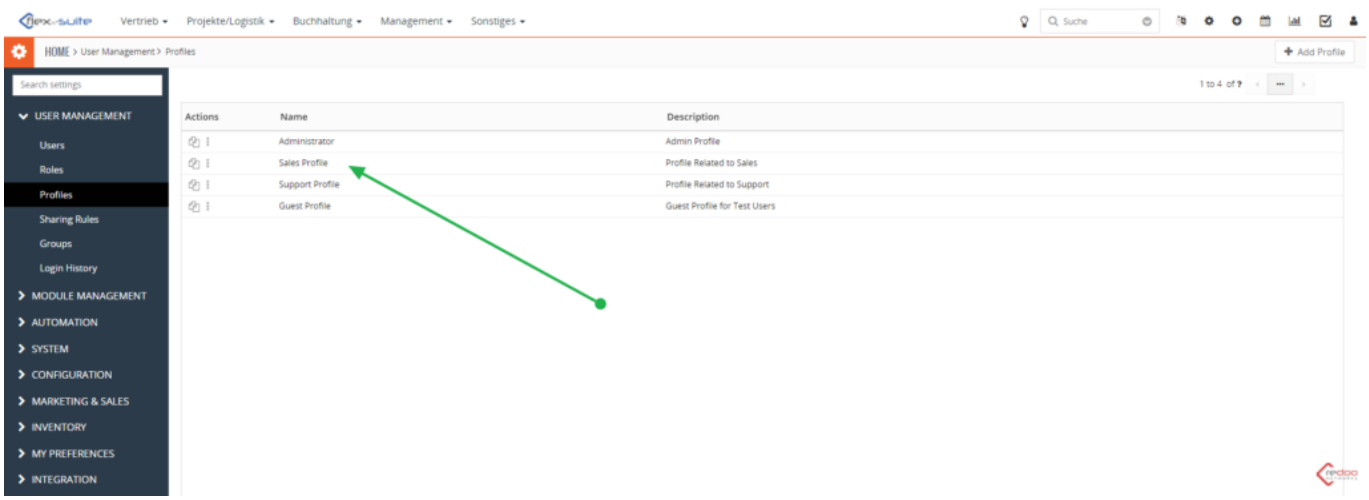


By pressing on this three-dot sign you will open Delete/Edit option pop-up

Copyright © 2026 Redoo Networks GmbH



To see the Profile settings press on the desired field from the list here



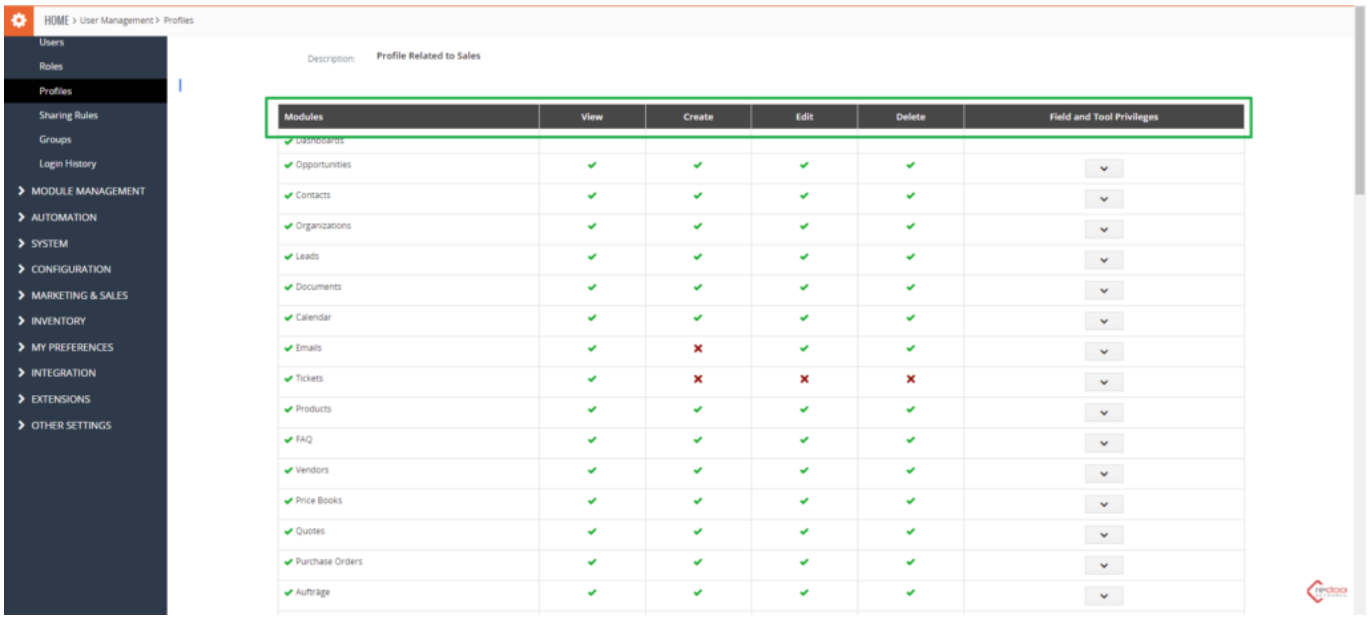
In this example we are viewing the Sales Person profile.

In the top panel you can view names of the columns:

- Modules
- View
- Create
- Edit

 Copyright © 2026 Redoo Networks GmbH

- Delete
- Field tool Privileges



Green check marks responds for the right to View, Create, Edit or Delete corresponding module records.

The red ones says that this Profile has no rights to these actions

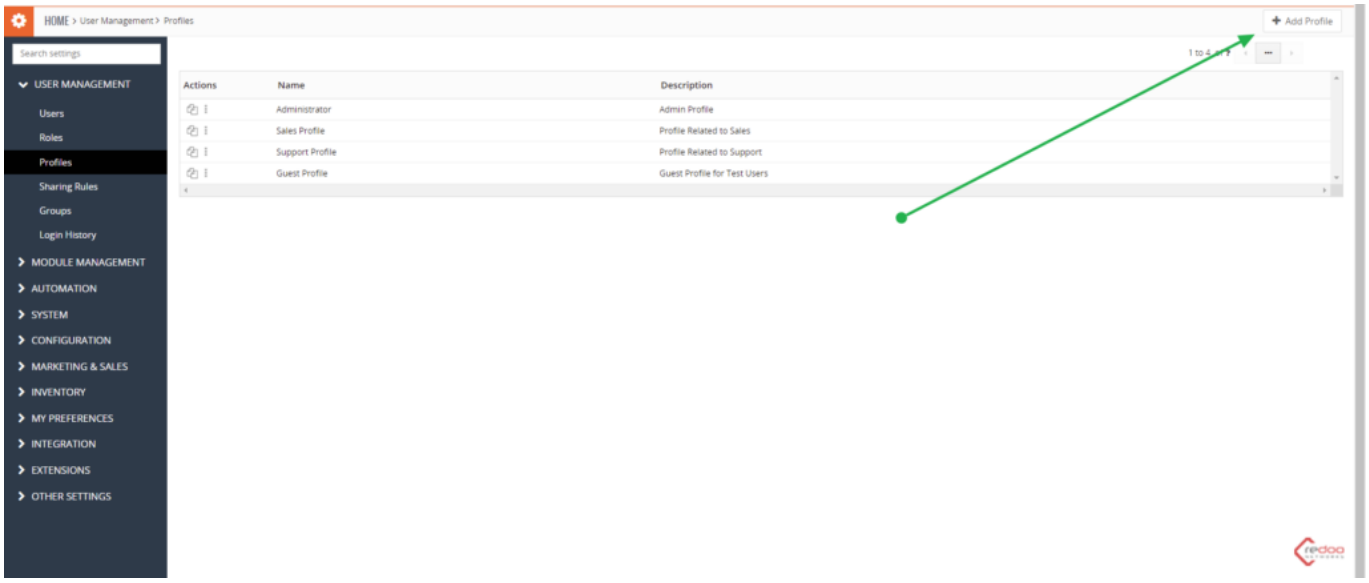
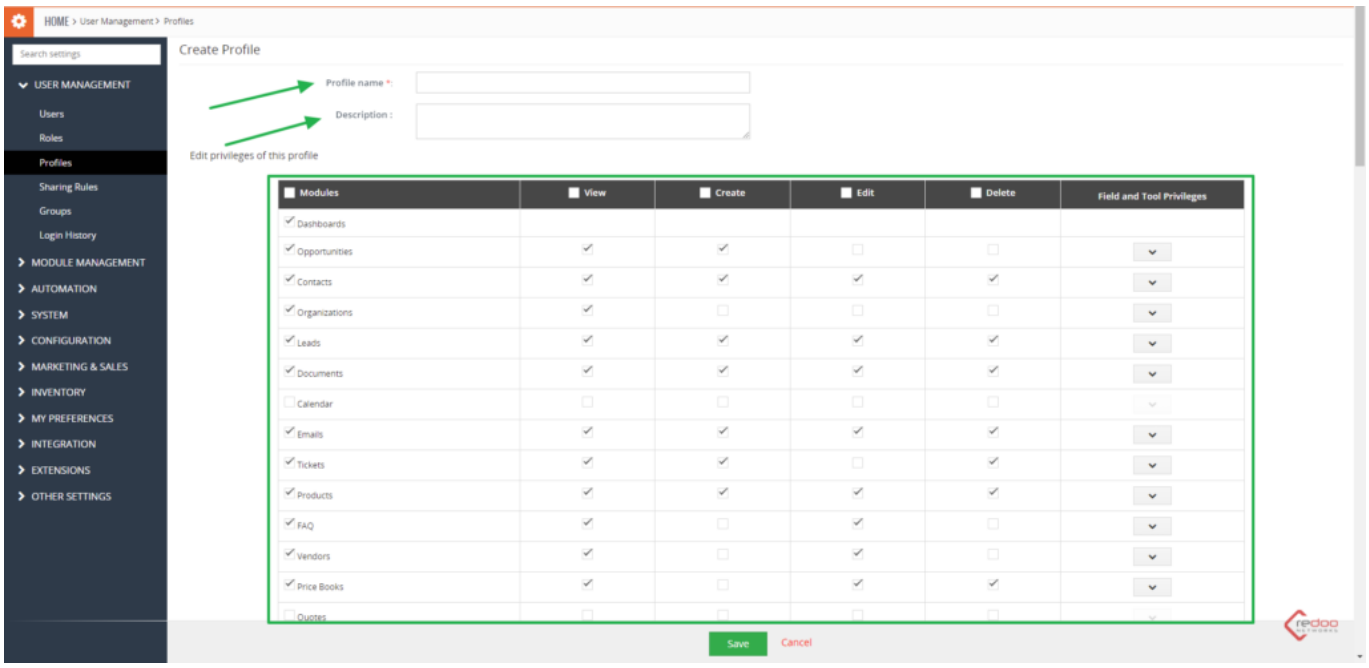
To add a new Record press the “Add Record” button below



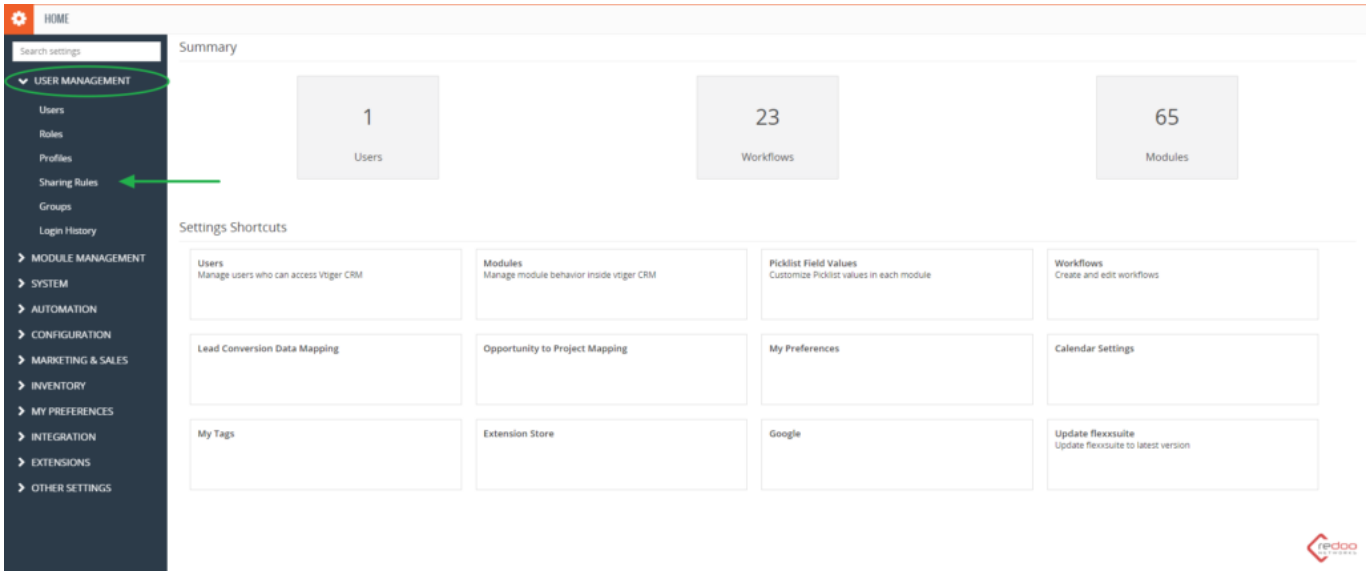
Here you can set a Profile`s name, Description and rights for each individual moudule



Sharing Rules

 Copyright © 2026 Redoo Networks GmbH

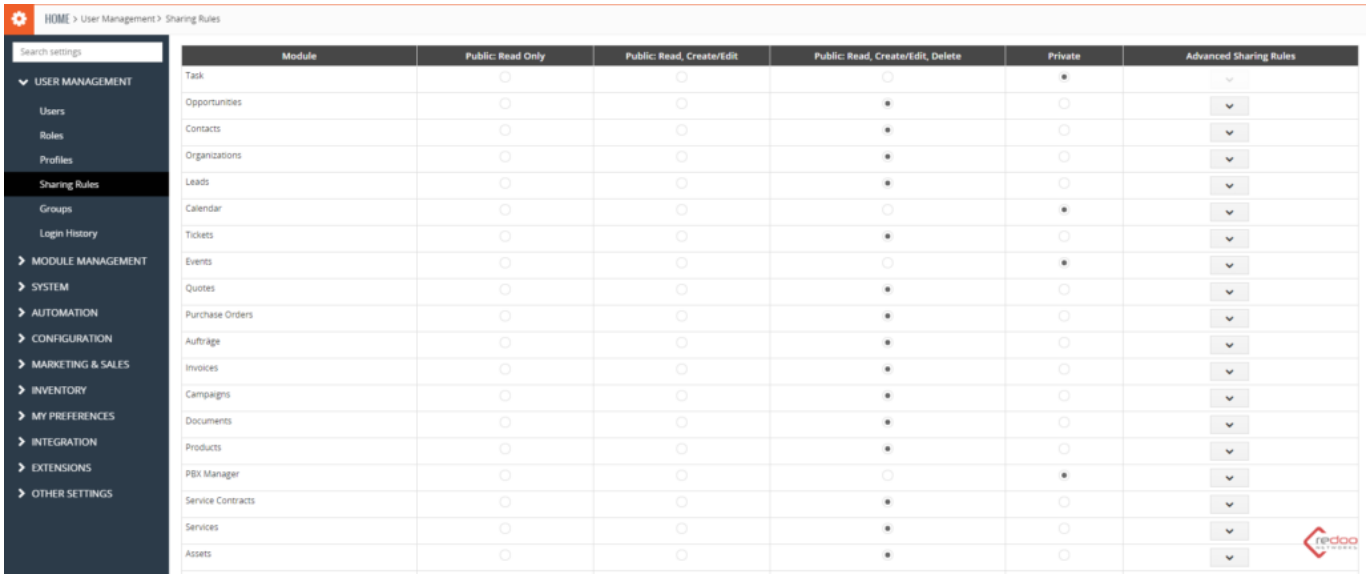
To set up Sharing Rules goes to the Settings page – User Management and choose the Sharing Rules option



Here you can see the list of all Modules available in the CRM and Sharing Rules settings like:

- Read Only
- Read, Create/Edit
- Private
- Advanced Sharing Rules

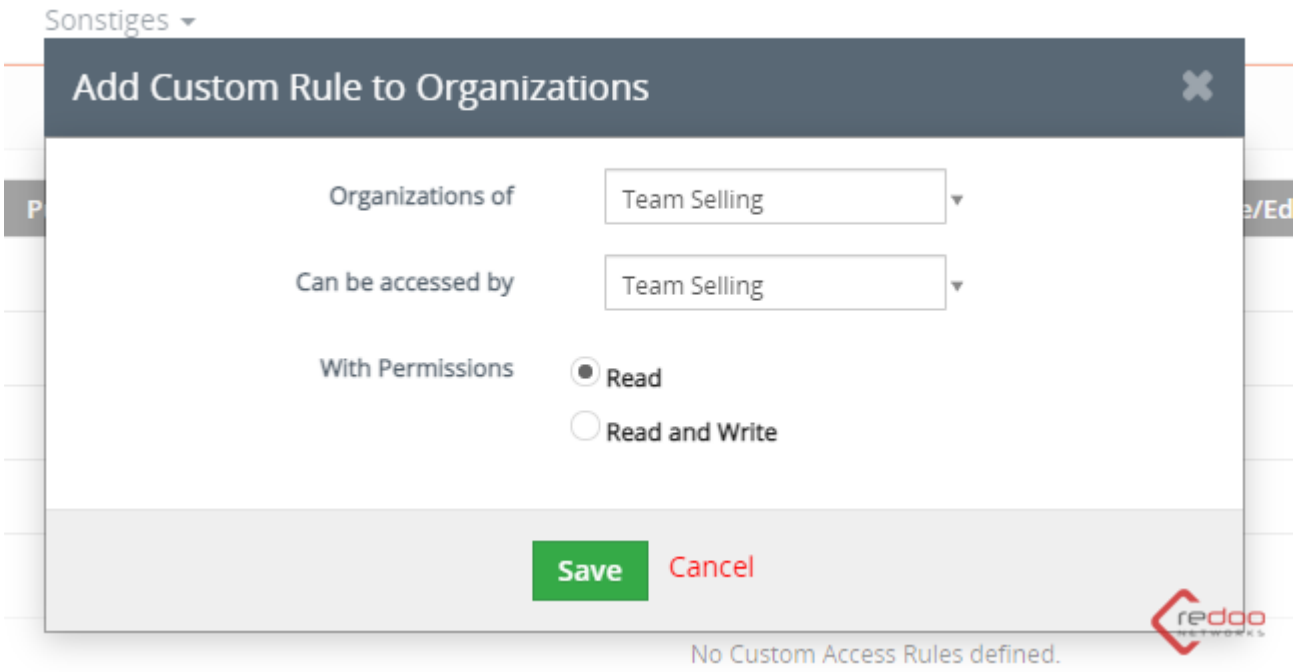
Using these options you can set the privacy settings for each module separately



Copyright © 2026 Redoo Networks GmbH

You are also able to set a custom rule by expanding the module cell and clicking on “Add Custom Rule”

Here you can set “Organization of”, which roles can access the Module records and what permissions they will have

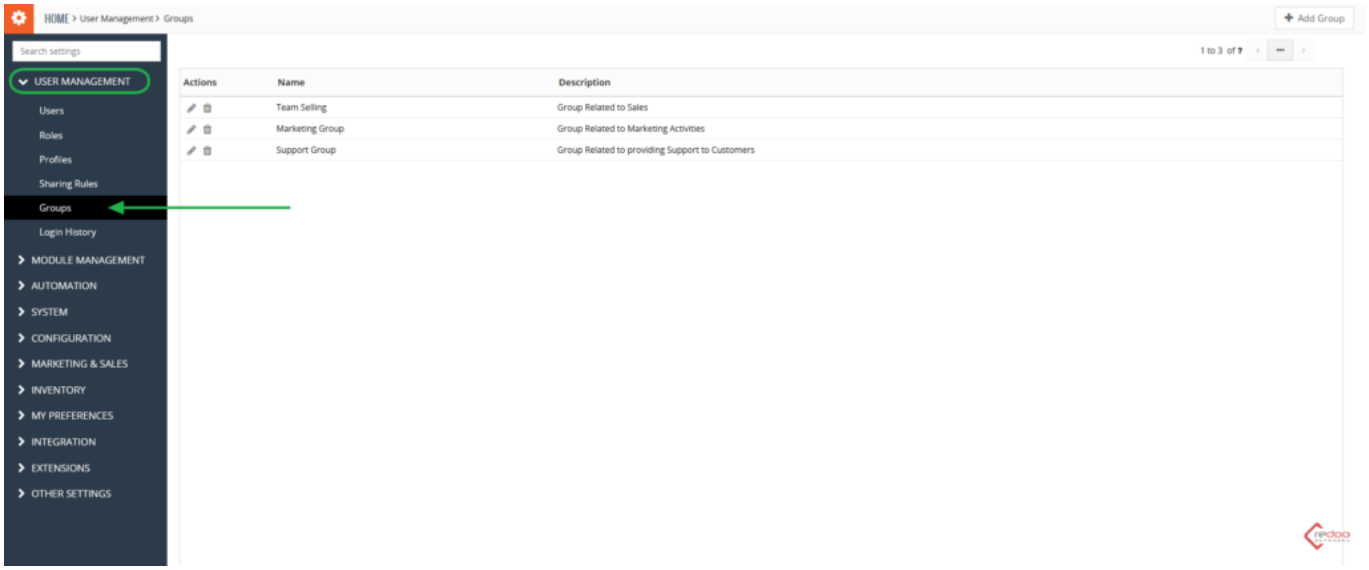


Press “Save” and then “Apply new Sharing Rules” buttons to save changes and continue.

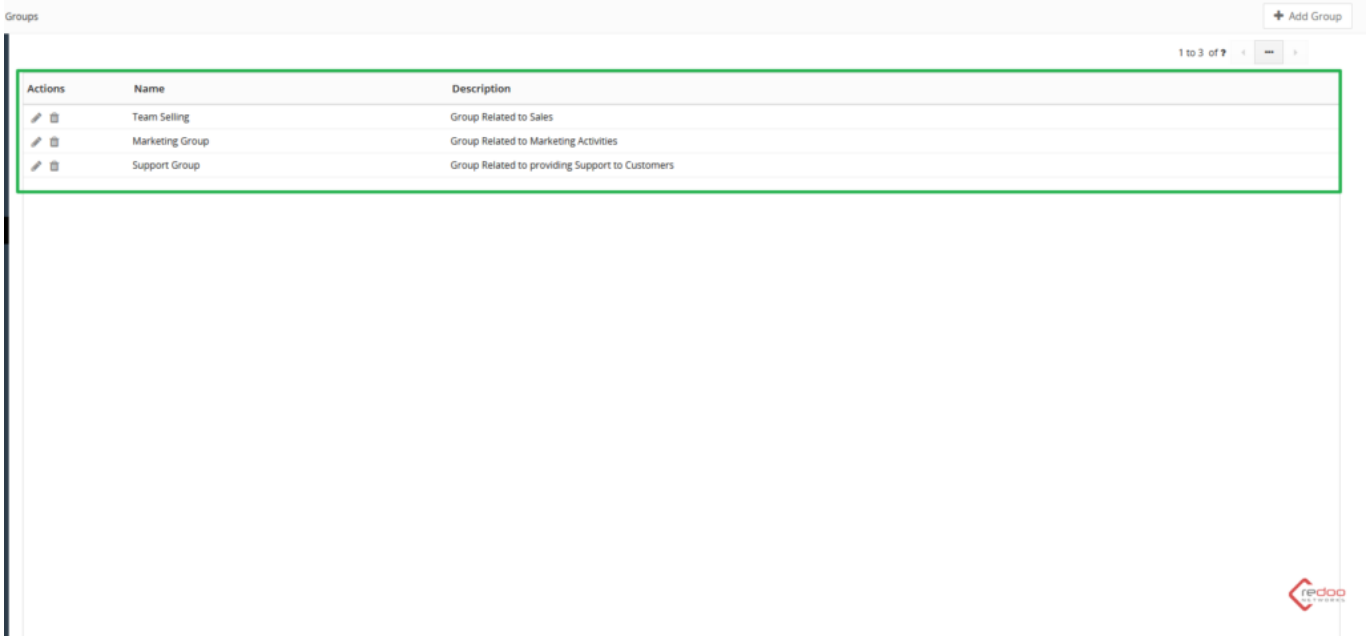
Groups

Copyright © 2026 Redoo Networks GmbH

Another section in User Management is Groups



Here you can view the list of all Groups available in the CRM



The list is divided in three sections:

- Actions – for editing or deleting a group

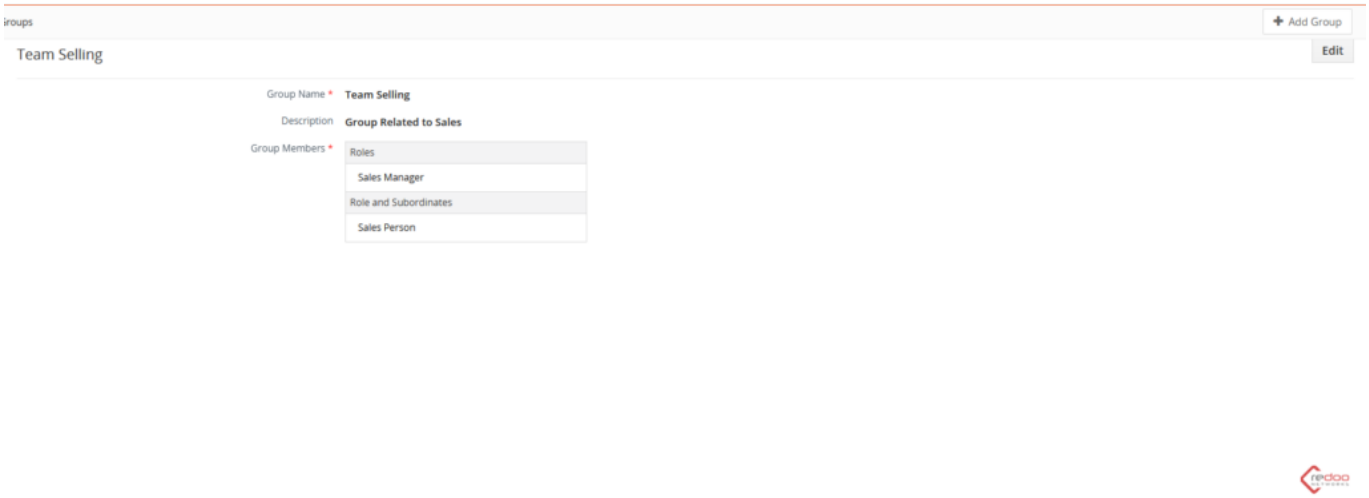
 Copyright © 2026 Redoo Networks GmbH

- Name of the group
- Description

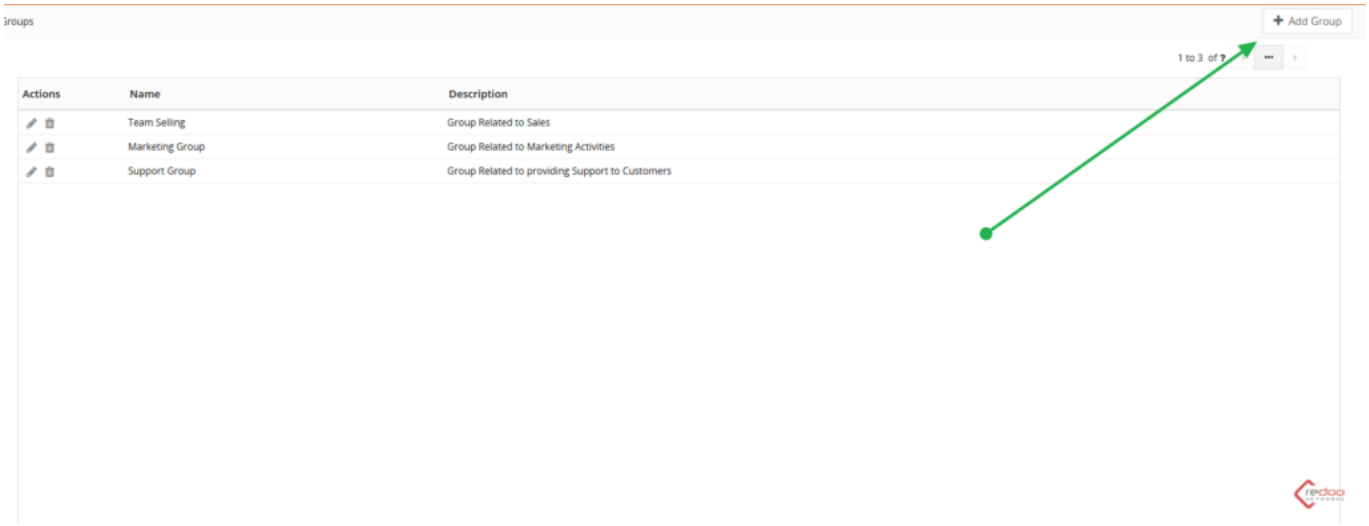
When you press on the Group's name it will lead you to its page

Here you can see the Name, Description and Group members

You can also edit it in here



To add a new Group press the "Add Group" button in the upper right corner

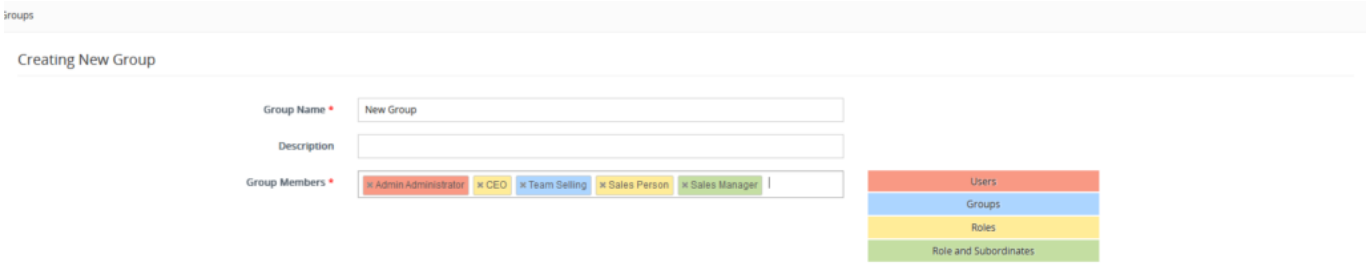


Copyright © 2026 Redoo Networks GmbH

When you are creating a new group choose its name,

Set a Description

And select Group Members from Users, other Groups, Roles, Role and Subordinates lists available in your CRM system



After you have created a new group it will be available to view
