Status: Captcha Enabled:

Description:

User Assignment

Assign Users in Round Robin: Round Robin Users List:

Contacts Field Information

Mandatory	Hidden	Field Name	Override Value	Webforms reference Field
<input checked="" type="checkbox"/>	<input type="checkbox"/>	Last Name*	<input type="text"/>	lastname

Upload Documents

Save Cancel

Down below there is Contacts Field Information

Contacts Field Information

Mandatory	Hidden	Field Name	Override Value	Webforms reference Field
<input checked="" type="checkbox"/>	<input type="checkbox"/>	Last Name*	<input type="text"/>	lastname

Upload Documents

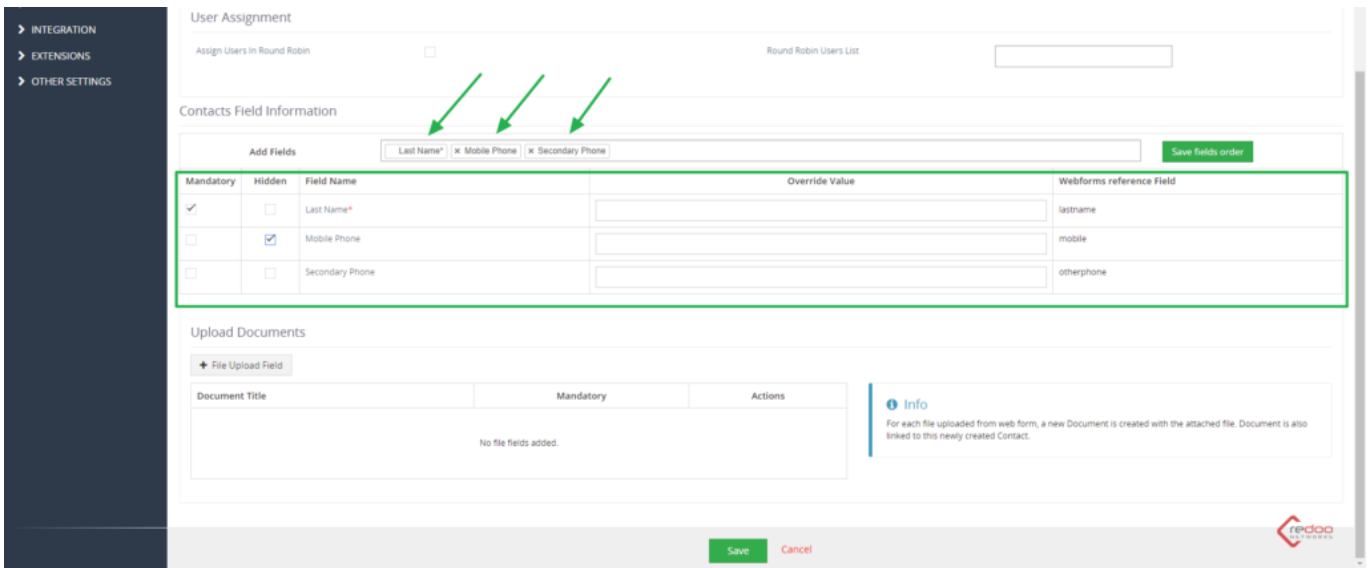

Document Title	Mandatory	Actions
No file fields added.		

Info: For each file uploaded from web form, a new Document is created with the attached file. Document is also linked to this newly created Contact.

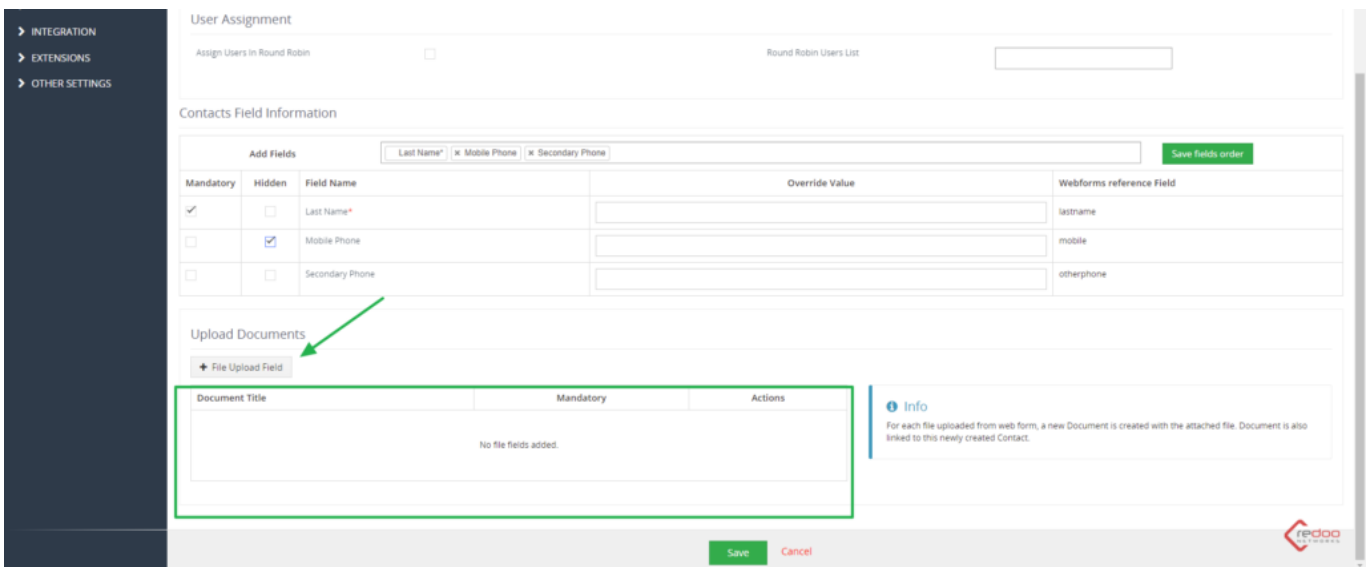

Save Cancel

In the first part you can add Field Labels and adjust their order.

As well you can set whether this is a mandatory field, is it visible or hidden and add an override value

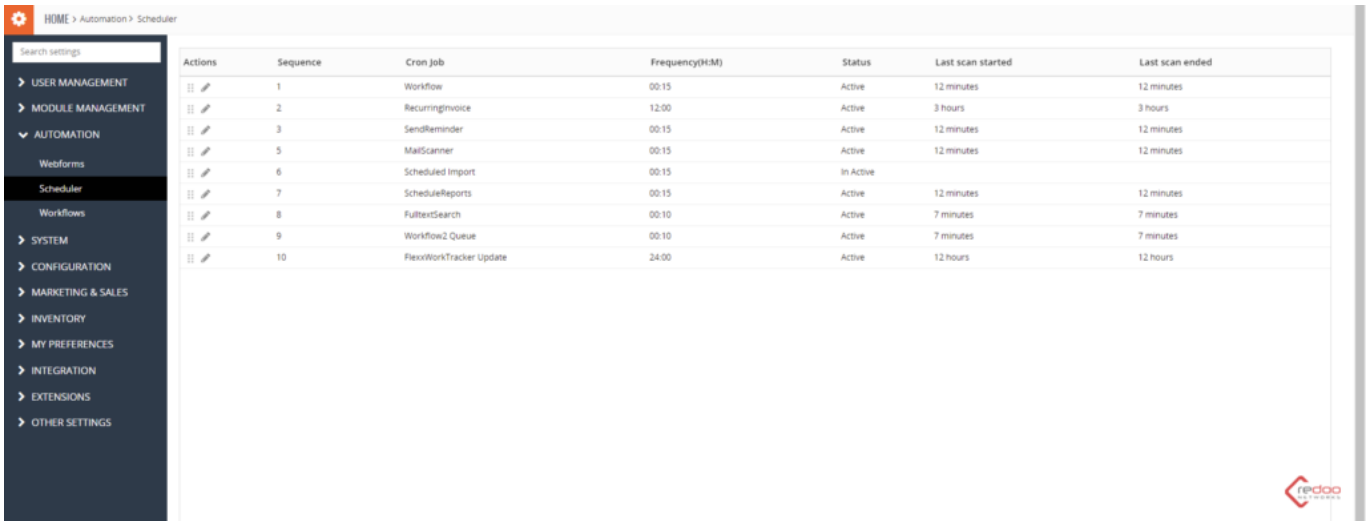

Next section is used for uploading fields as a file using the “File Upload Field”.

Scheduler

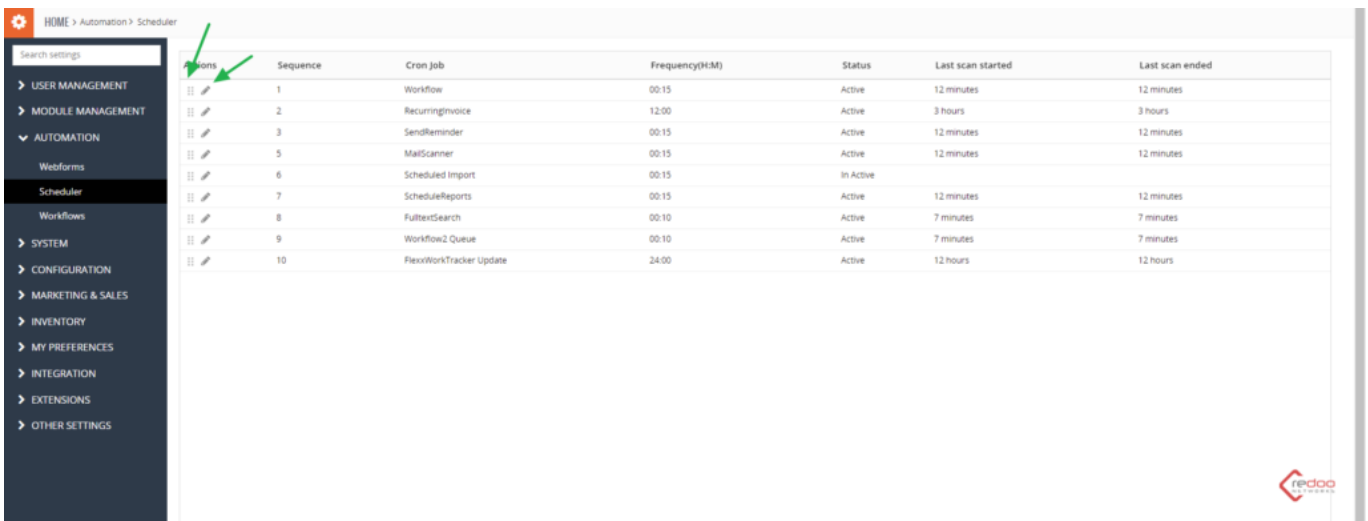

Scheduler is used to create Schedules for inner CRM processes

On this page you can see the list of available Schedules, modules they are working with, Frequency of scanning, the Status of the Schedule and Last scan started/ended time

Actions	Sequence	Cron Job	Frequency(H:M)	Status	Last scan started	Last scan ended
 	1	Workflow	00:15	Active	12 minutes	12 minutes
 	2	RecurringInvoice	12:00	Active	3 hours	3 hours
 	3	SendReminder	00:15	Active	12 minutes	12 minutes
 	5	MailScanner	00:15	Active	12 minutes	12 minutes
 	6	Scheduled Import	00:15	In Active		
 	7	ScheduleReports	00:15	Active	12 minutes	12 minutes
 	8	FulltextSearch	00:10	Active	7 minutes	7 minutes
 	9	Workflow2 Queue	00:10	Active	7 minutes	7 minutes
 	10	FlexiWorkTracker Update	24:00	Active	12 hours	12 hours

This two buttons in Actions are used for moving Schedules within the list via drag and drop and for editing

Actions	Sequence	Cron Job	Frequency(H:M)	Status	Last scan started	Last scan ended
 	1	Workflow	00:15	Active	12 minutes	12 minutes
 	2	RecurringInvoice	12:00	Active	3 hours	3 hours
 	3	SendReminder	00:15	Active	12 minutes	12 minutes
 	5	MailScanner	00:15	Active	12 minutes	12 minutes
 	6	Scheduled Import	00:15	In Active		
 	7	ScheduleReports	00:15	Active	12 minutes	12 minutes
 	8	FulltextSearch	00:10	Active	7 minutes	7 minutes
 	9	Workflow2 Queue	00:10	Active	7 minutes	7 minutes
 	10	FlexiWorkTracker Update	24:00	Active	12 hours	12 hours

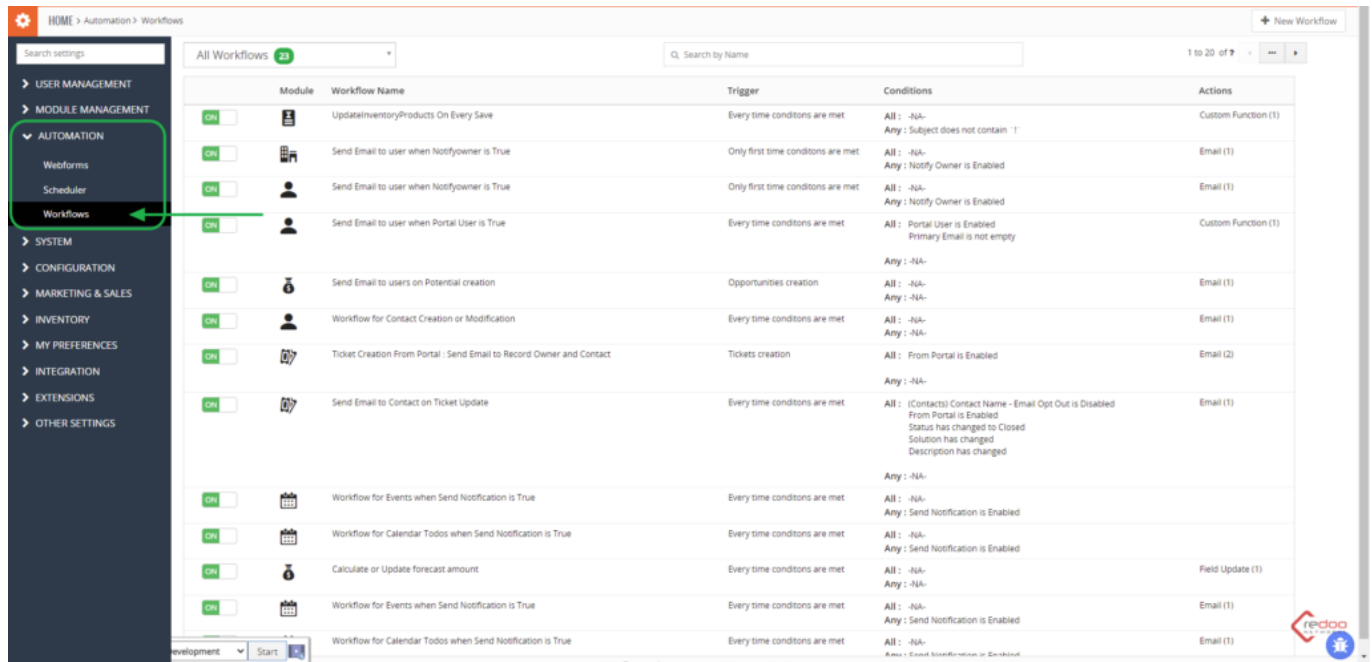

Workflows

This section displays the list of all available workflows within the CRM.

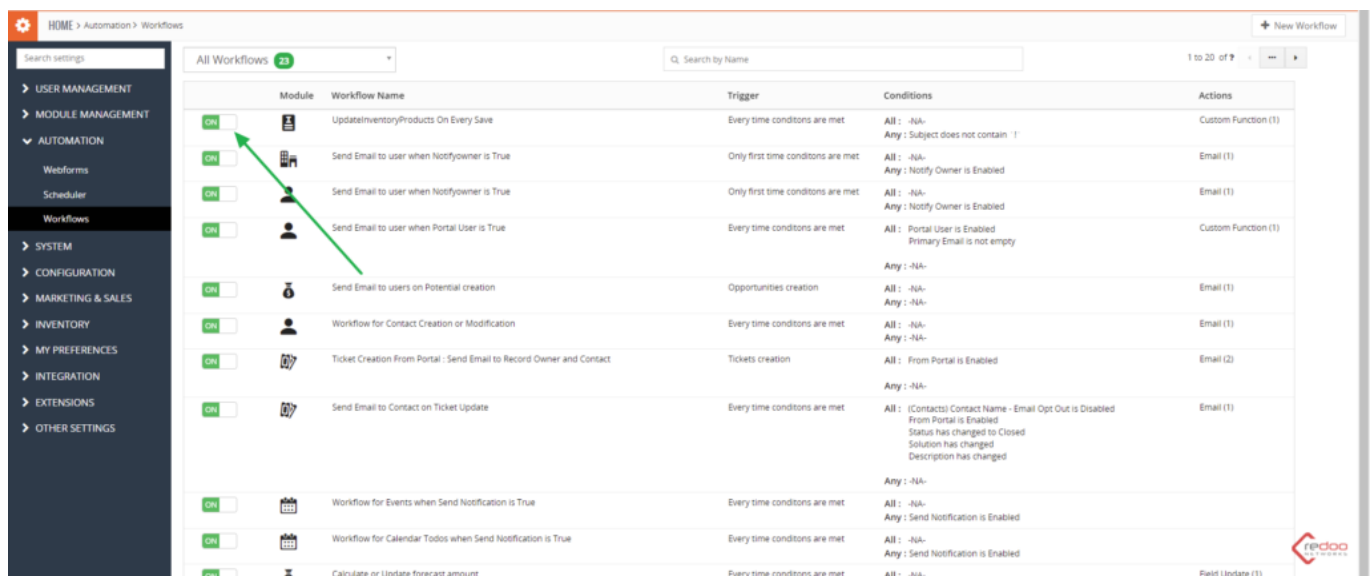

Each workflow is an adjustable function that operates with CRM data and can automatically execute

different processes without user`s involvement. Like an automatic email sending, event creations in calendar or record`s field updates.

Using the upper fields you can filter the workflows or use the search by name fuction

Green buttons on the left are used to turn on/off the workflow

To add a new Workflow press the “New Workflow” button in the upper right corner of the page

The screenshot displays the 'Automation > Workflows' interface. A sidebar on the left contains navigation options like 'USER MANAGEMENT', 'MODULE MANAGEMENT', 'AUTOMATION', 'SYSTEM', 'CONFIGURATION', 'MARKETING & SALES', 'INVENTORY', 'MY PREFERENCES', 'INTEGRATION', 'EXTENSIONS', and 'OTHER SETTINGS'. The main area shows a table of workflows. A green arrow points to the '+ New Workflow' button in the top right corner.

Module	Workflow Name	Trigger	Conditions	Actions
<input checked="" type="checkbox"/>	UpdateInventoryProducts On Every Save	Every time conditions are met	All : -NA- Any : Subject does not contain ' '	Custom Function (1)
<input checked="" type="checkbox"/>	Send Email to user when Notifyowner is True	Only first time conditions are met	All : -NA- Any : Notify Owner is Enabled	Email (1)
<input checked="" type="checkbox"/>	Send Email to user when Notifyowner is True	Only first time conditions are met	All : -NA- Any : Notify Owner is Enabled	Email (1)
