PIN code

Pin code - is generated automatically when creating a user with the "Driver" role.

The Pin code can be viewed on the users page (only the administrator can view and change the Pin code).

The screenshot shows the 'Flexx.Logistik' interface with a sidebar on the left containing navigation options like 'PLAN NEW ROUTE', 'OPEN ROUTES', 'VEHICLES', etc. The main content area features a 'CREATE USER' button and a table of users. The 'PIN' column is highlighted with a red box, and a red arrow points to the edit icon in the 'ACTIONS' column for the user 'alex dev'.

The pin code can be changed by clicking the edit button next to the desired user

This screenshot is identical to the previous one, but the red box highlights the edit icon (a pencil) in the 'ACTIONS' column for the user 'alex dev'. A red arrow points from the bottom right towards this icon.

After clicking this button, the user data editing window opens
