

Playground

6. Create Device Categories and Subcategories

Click on the “Settings” sign in the upper left menu bar (→ green arrow).
 Now select the “Configuration” area (→ blue arrow).
 Then go to “Picklist Editor” (→ red arrow).

Select the “Devices” item in the “Modules” field (→ purple arrow).
 Thereafter you get an overview of all existing device types and subtypes.
 The fields for the check criteria in the main check are configured as follows

To add criteria, add a field block to the Review module (Defect Reports).

The name of the block must match the pattern: Criteria - .

It is displayed in the application when the corresponding device type is checked.(→ red arrows).

The screenshot displays the flexSuite application interface. At the top, there is a navigation menu with options: Playground, MARKETING, SALES, INVENTORY, SUPPORT, PROJECTS, and TOOLS. A search bar labeled 'Suche' is located on the right. Below the navigation, the main content area shows a 'DEFECT REPORT' for 'Device1'. The report includes fields for 'Last modified By' (Admin Administrator), 'Inspection' (Inspektion02-2020), 'Device' (Test), and 'Comment' (In good condition). A table of criteria is displayed below, with two sections: 'Criteria - Swing' and 'Criteria - Slide'. Red arrows point to these sections. The 'Criteria - Swing' section lists: Ground Clearance, Minimum clearance and directional stability..., Shock absorption for swing seats, Constructive stability, Drop height and impact surface, Seating space for single-point swings, Suspensions, Dynamic load of the swing device, and Framework. The 'Criteria - Slide' section lists: Entrance, Sliding part, Sliding surface, Impact surface, Seat part, Outlet part, and Free space. A 'Documents' sidebar is visible on the right.
