

Playground

1. Inspection in Playground App

Copyright © 2022 Redoo Networks GmbH

To inspect the playground as an inspector, you must use the playground app.
Enter your login and password to login and start the inspection.

When you are logged in, you will see the list of inspections planned for today and the time defined for them. You will also see the name of the playgrounds that are being inspected.

Click on the required inspection and press the right arrow to start.

In this menu you have to select the type of inspection from three existing ones.

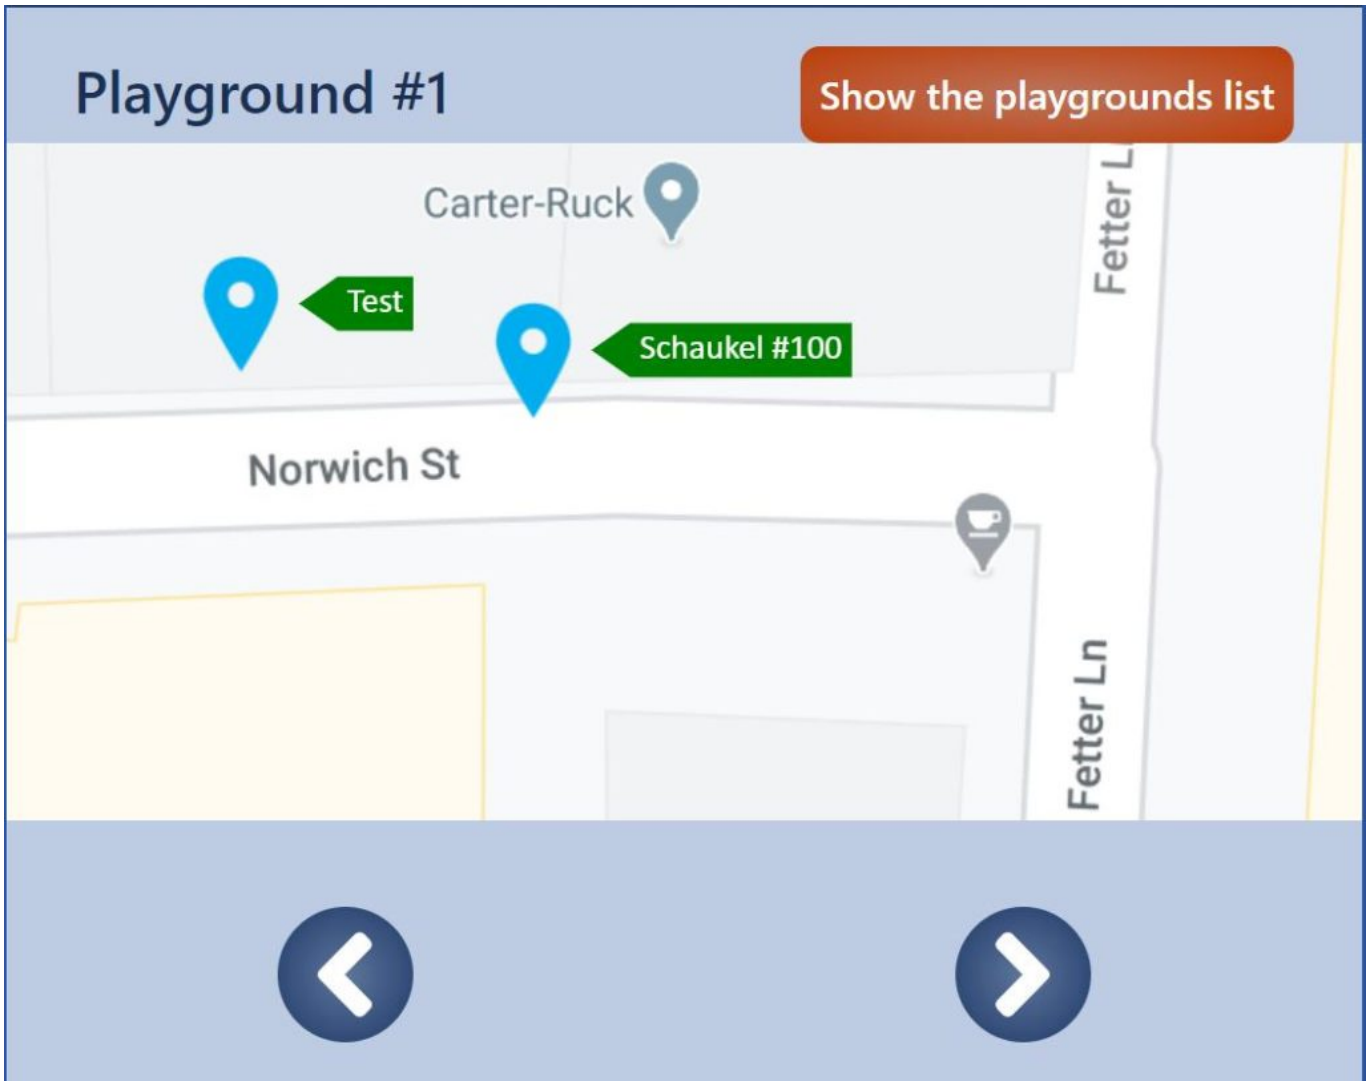

Visual inspection / visual routine inspection

After you have selected the visual inspection, you will see the list of all the equipment available on the playground.

To see the location of the separate devices on the playground, press the button “Show on map”.

Your added device appears in the device overview.

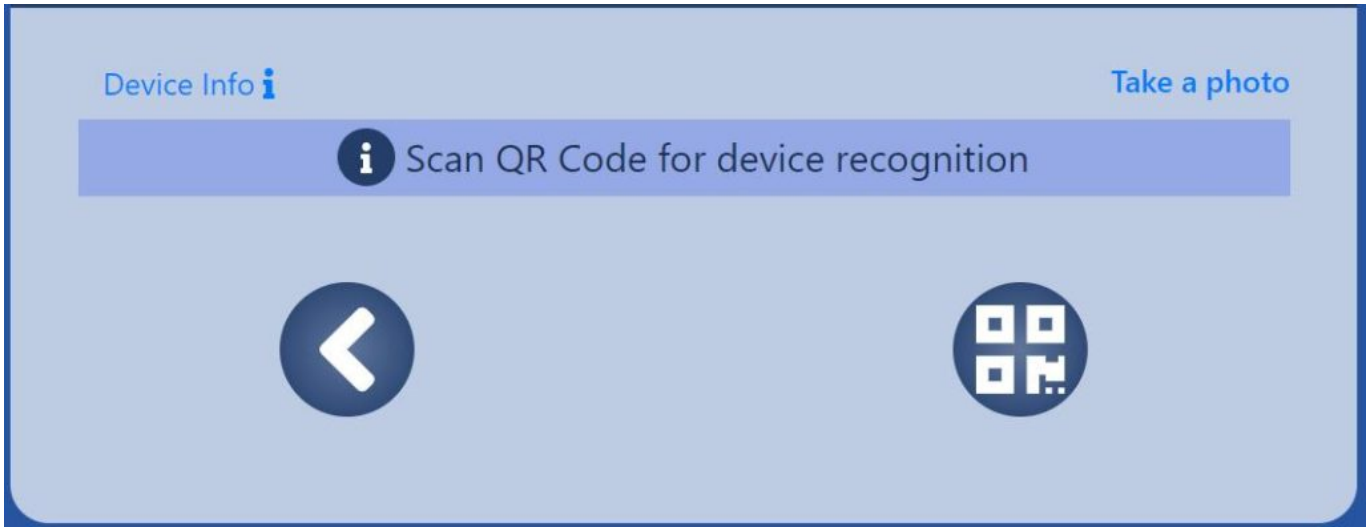

To inspect a device, click on the device name and then press the right arrow button to begin.

Copyright © 2026 Redoo Networks GmbH

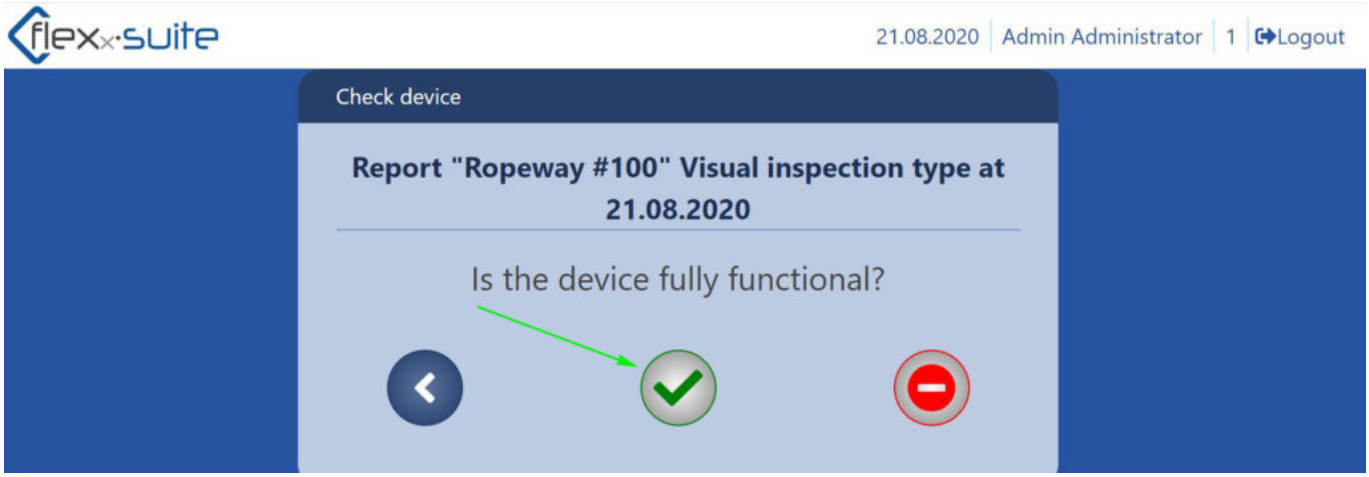

Now select the QR Code Scanner button.
Then scan the QR Code.
If your QR Code is invalid, the app will inform you accordingly.
If no QR Code is available, you can generate a new one. To do so, click on the QR Code icon again.

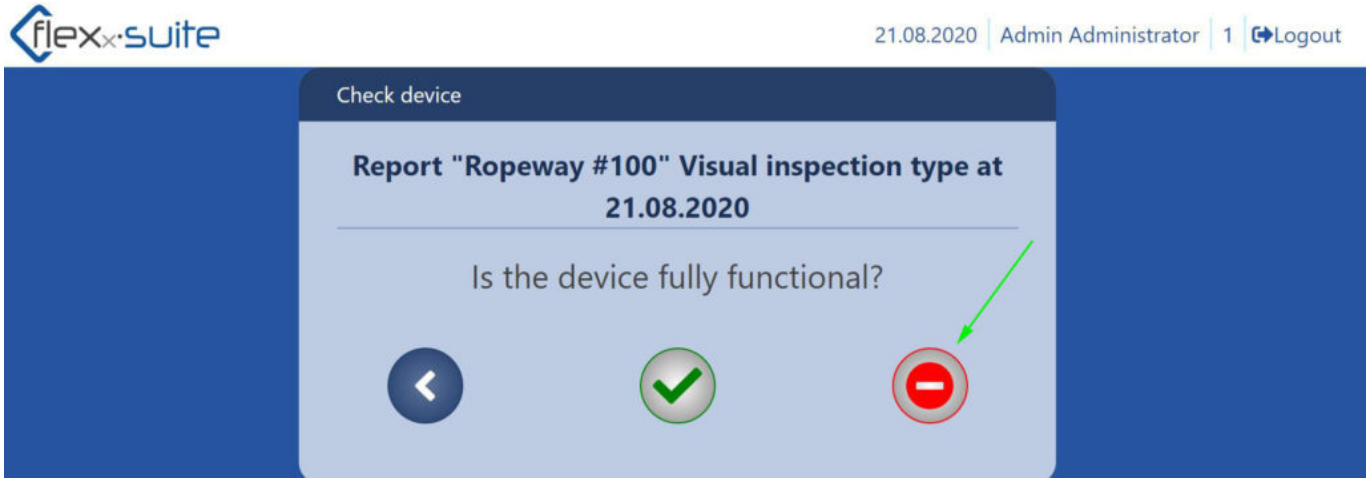

On the next page you will be asked if the device is working properly.

If it works properly, press the green check mark button (→ green arrow)
Now you will see a tick in the device list behind the device name.
This means that you have successfully inspected the device.

If something does not work, press the red stop sign (→ green arrow) to go to the next page

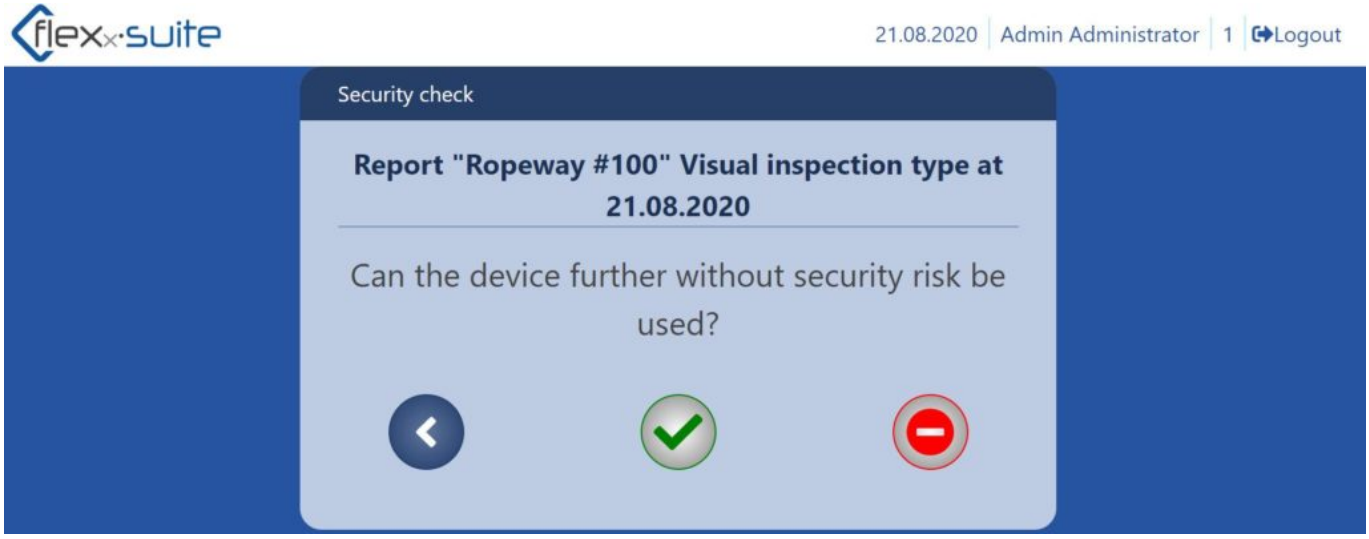

You will then receive an overview in which you can leave device errors.

Copyright © 2026 Redoo Networks GmbH

In this overview you can leave a message.
Write a text message (→ green arrow) , indicate the location (→ red arrow) . You can also directly add pictures (→ purple arrow) of the defective device.
When you have finished writing an overview, click on the right arrow button to continue.
The next step is to answer the question whether the device can function without endangering life safety.
If it does not pose a risk to the safety of human life, press the green hook button to continue or the red one if you assess a safety risk.

Click on the right arrow button after your entries.

You receive an overview of your report.

Copyright © 2026 Redoo Networks GmbH

Check your entries and confirm them with the green check button.
If you want to make changes, click on the red button.

If you have found any defects in the device, you must indicate this in the first preselection.

 Copyright © 2026 Redoo Networks GmbH

To do this, click on the red button to go to the defect report.

Enter the defects here. You can also leave a voice message, the location and pictures about the deficiencies

The next step is to ask whether the device can still be used.
Make your decision here.

 Copyright © 2026 Redoo Networks GmbH

Now place the repair order for the playground device here.

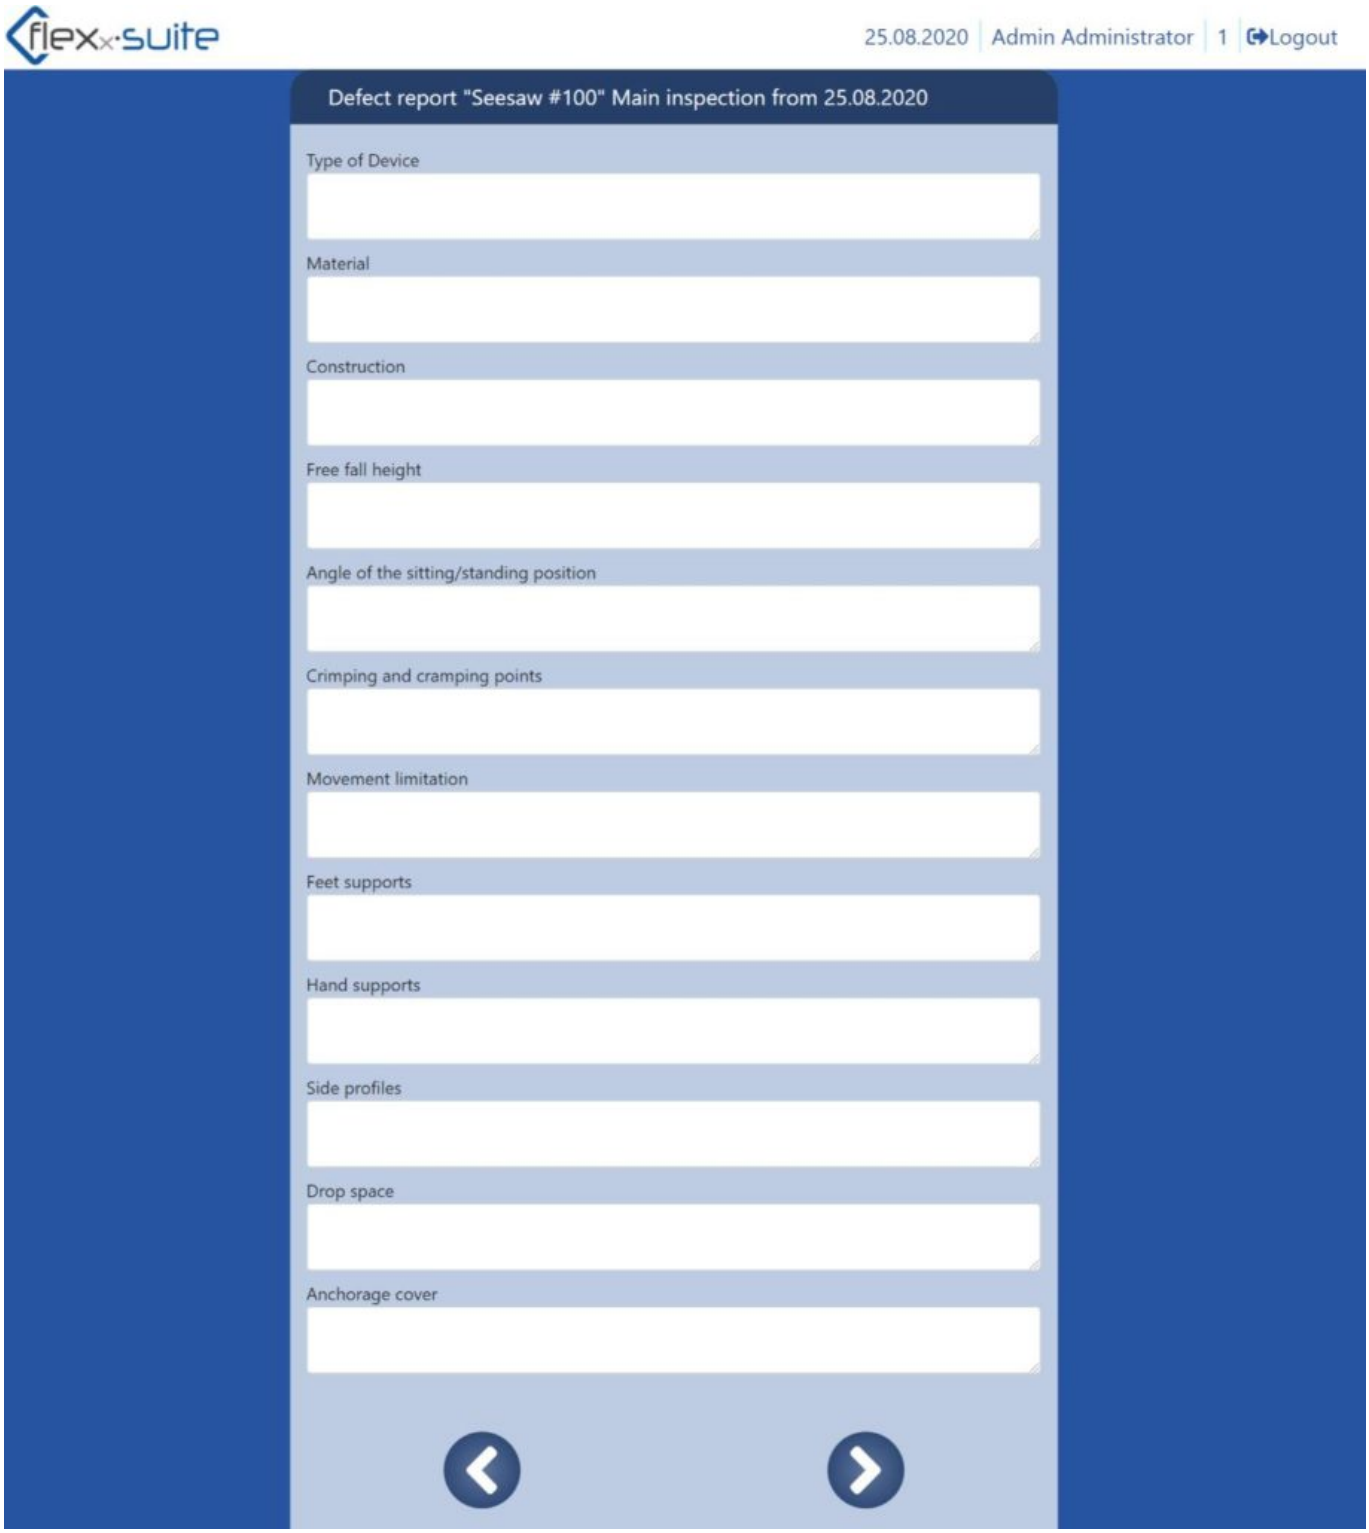

Select your company for the repair.

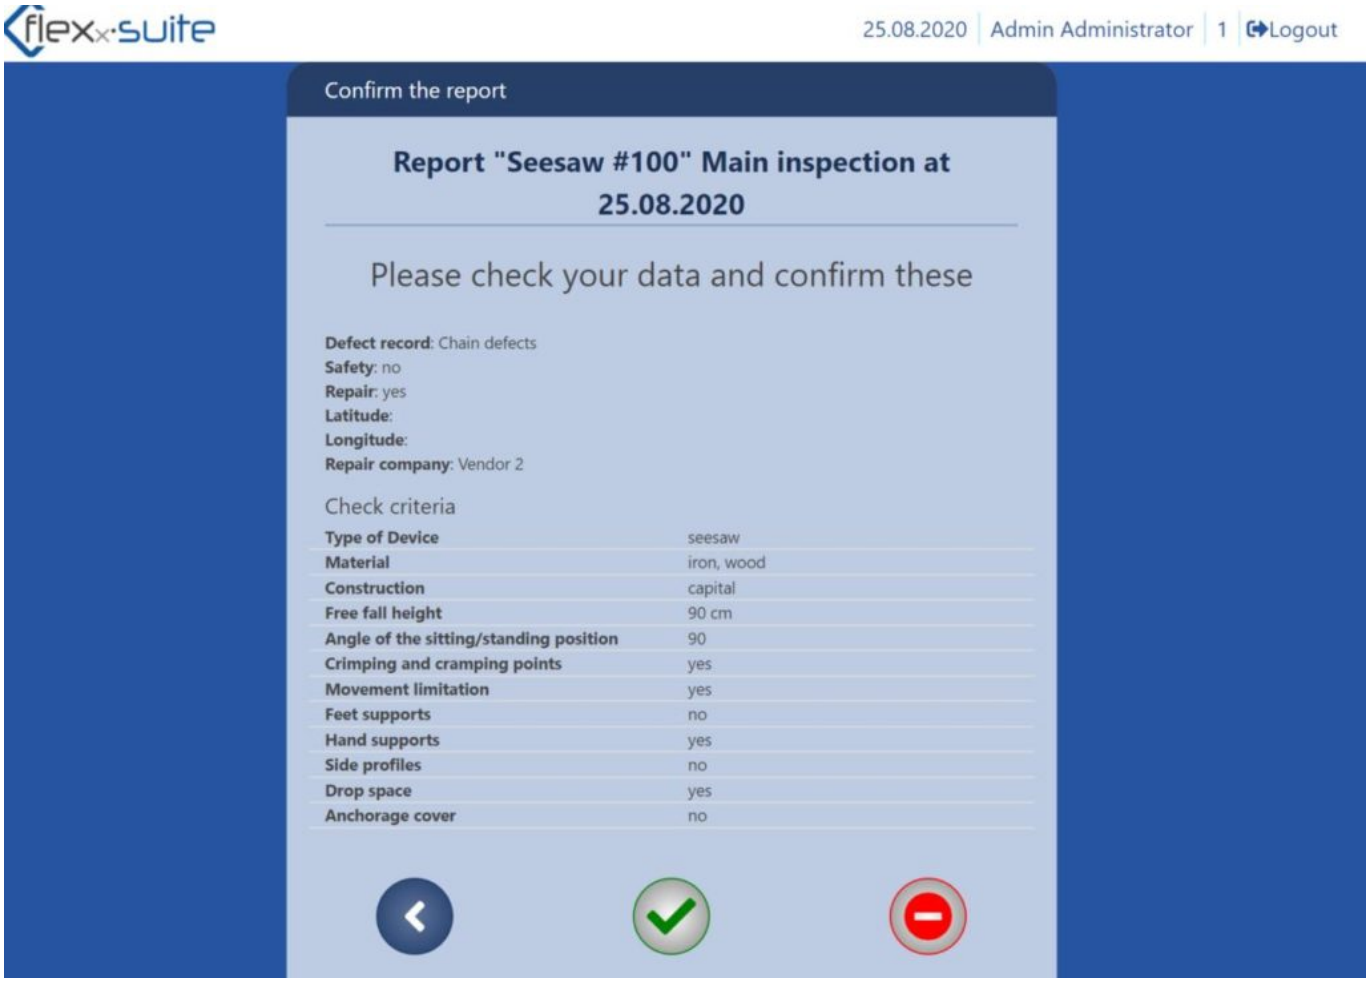

Now enter all necessary data about the playground device.

Copyright © 2026 Redoo Networks GmbH

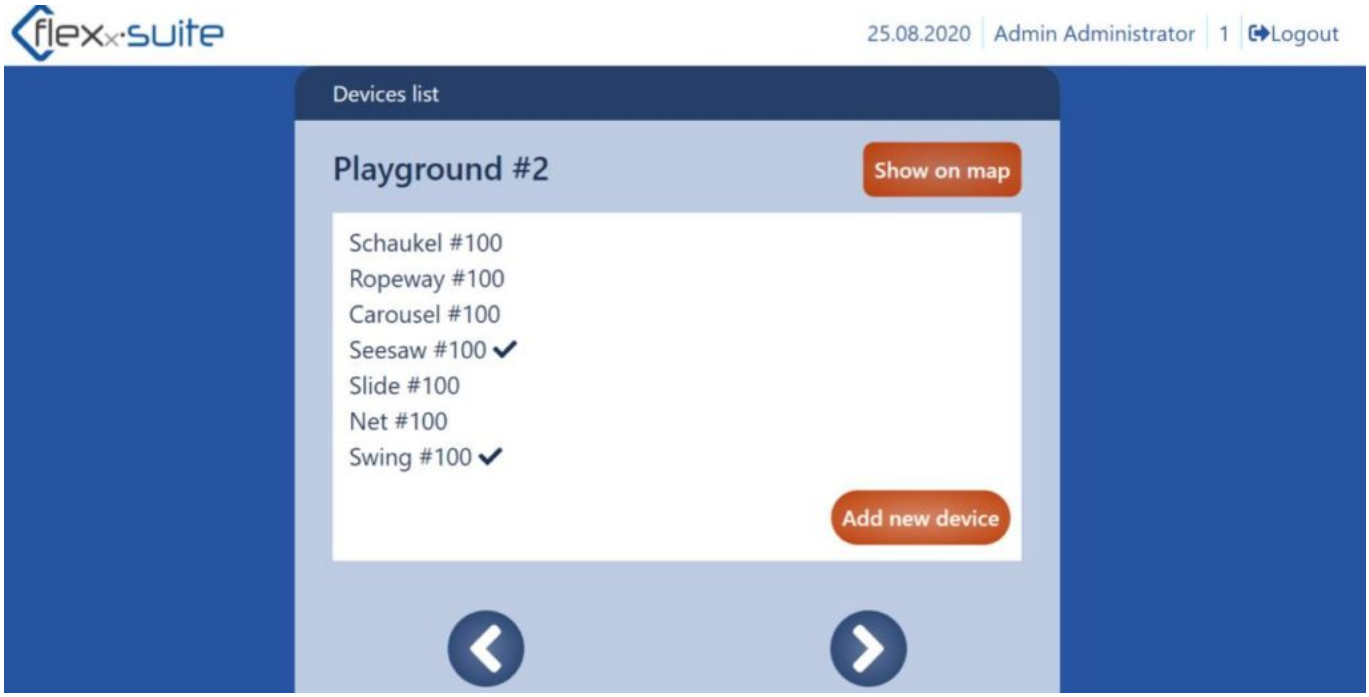

Now you will receive a general overview.

Copyright © 2026 Redoo Networks GmbH

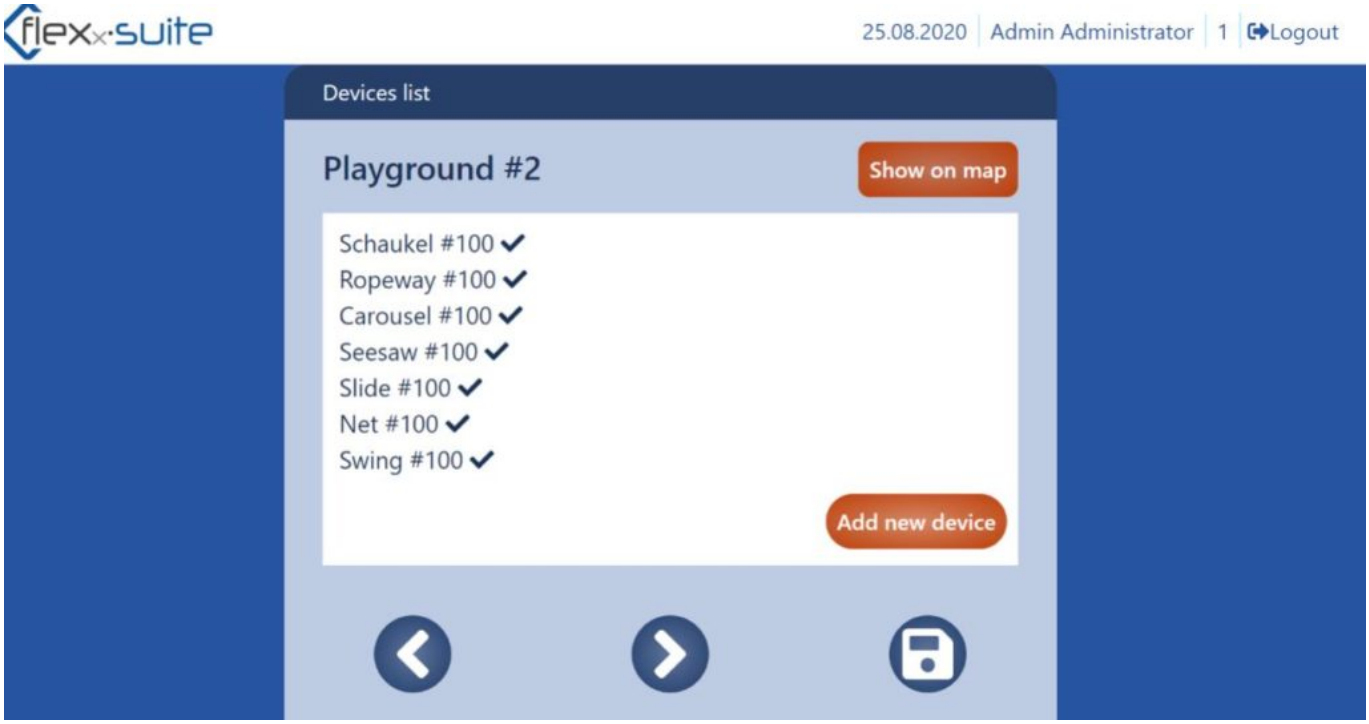

Check your entries and confirm your report with the green check button.
Your tested device has a tick in the device list.

 Copyright © 2026 Redoo Networks GmbH

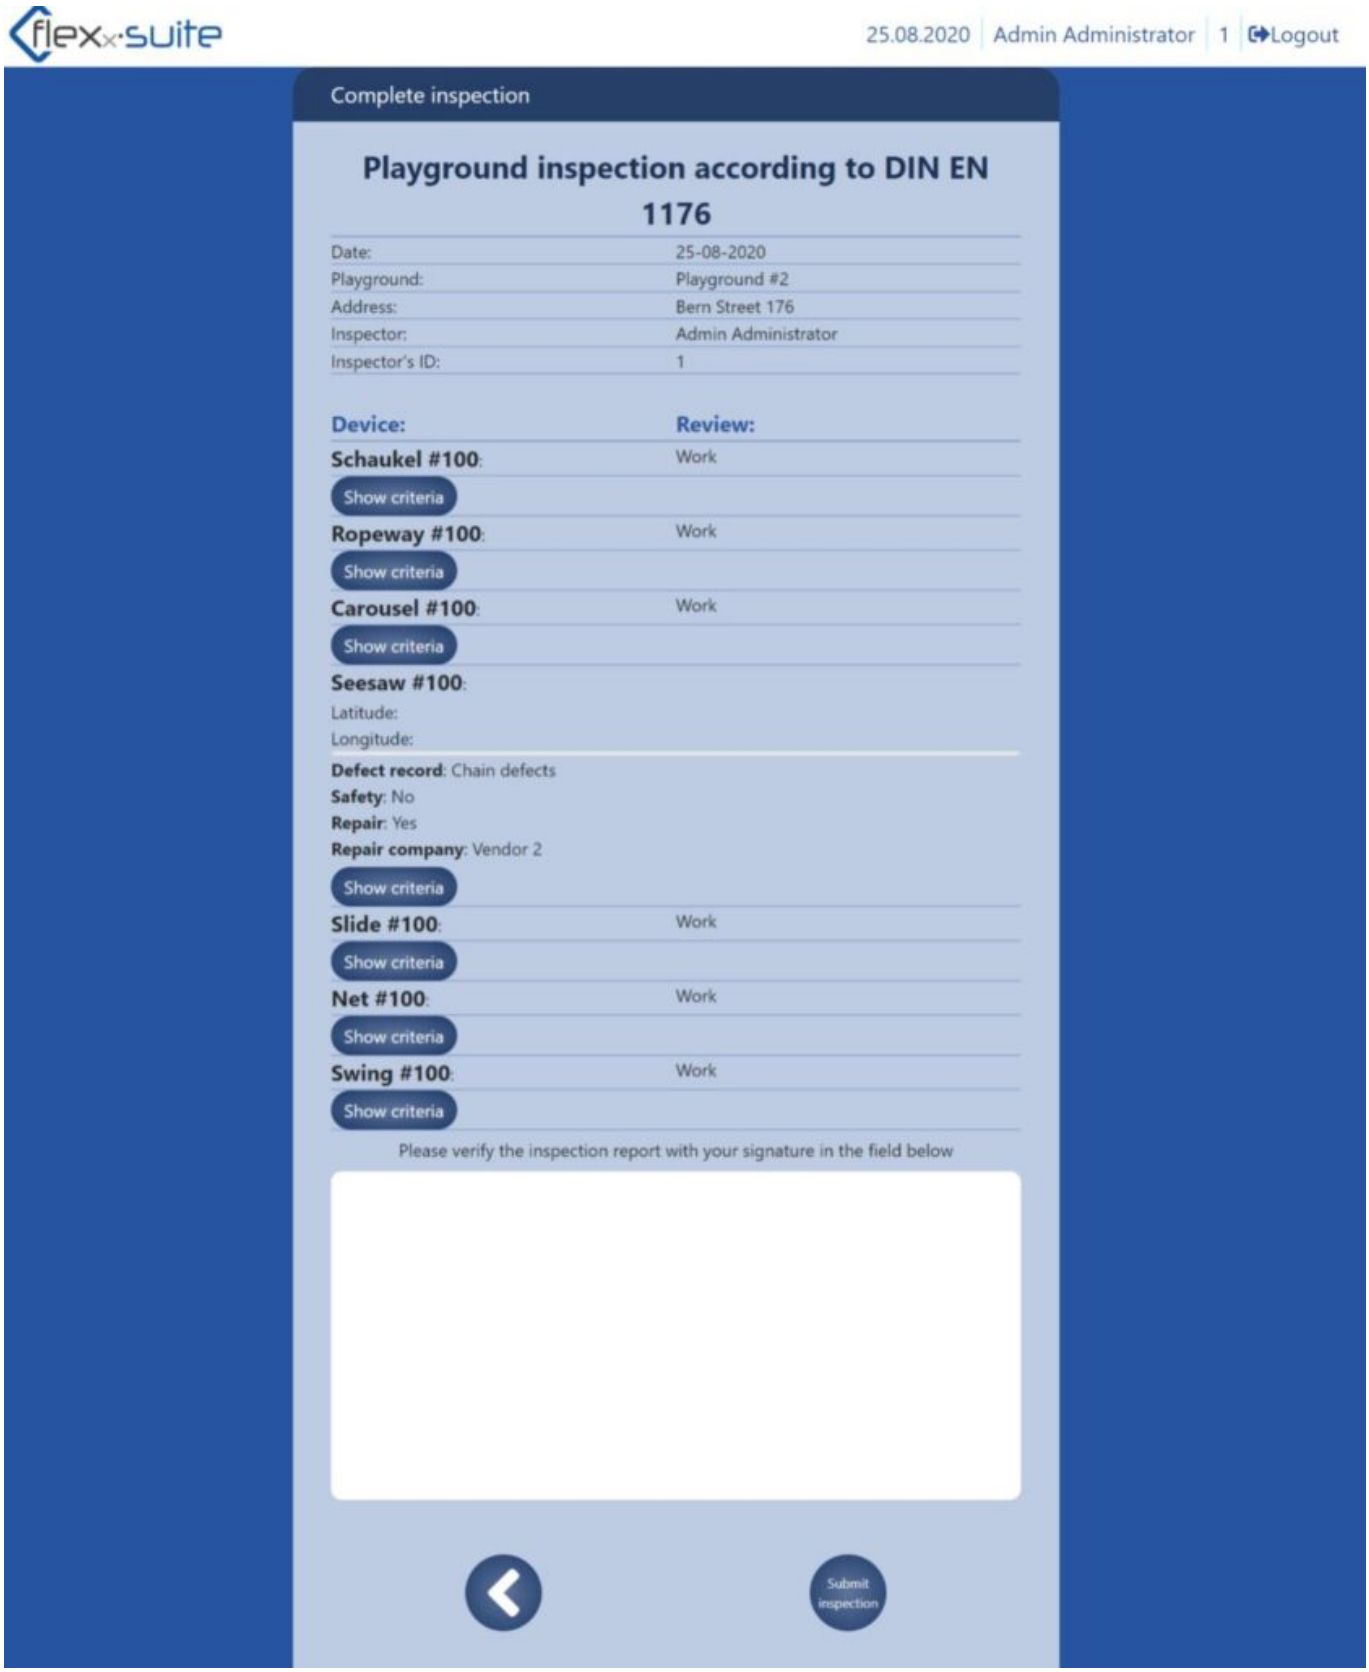

After testing all devices, save your inspection.

After saving, you will receive a general overview. Press the button “Submit inspection”. The inspection is now complete.
