

3. "CURRENCY - Format of output value as currency".

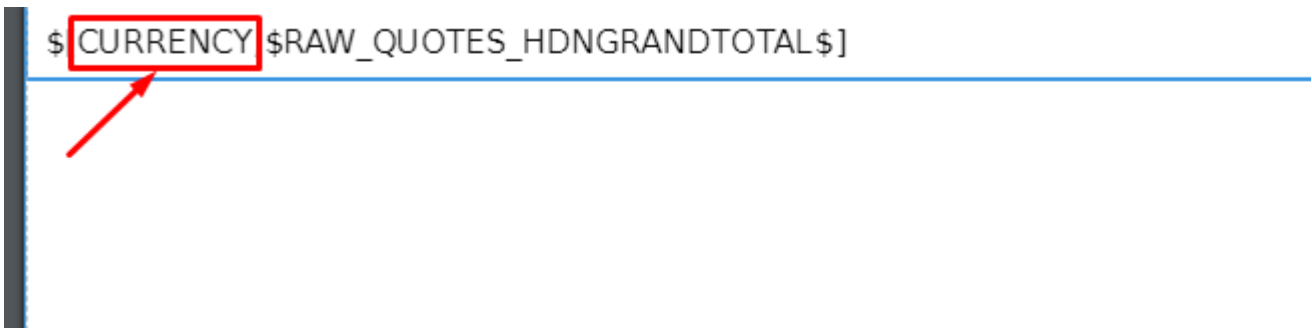

Displays the sum of the offers for all selected products

The short code can be used with the following modules: OFFER

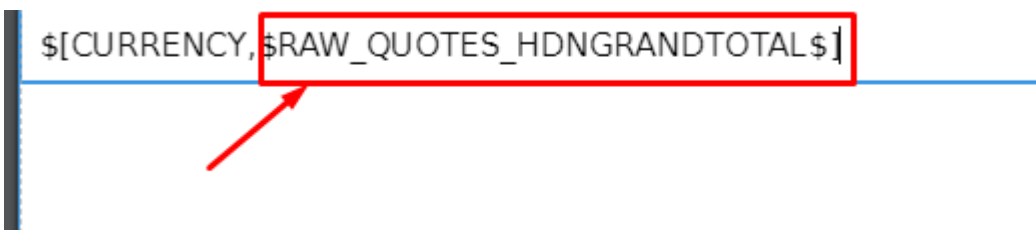

Meaning of the expressions in the shortcode:

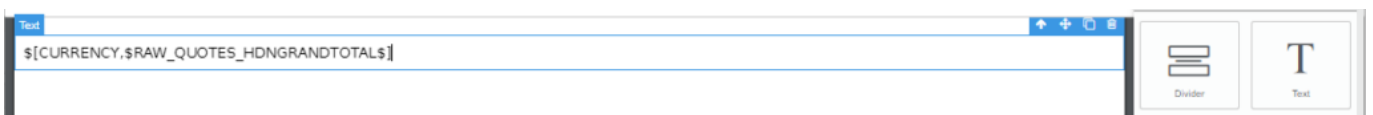

Products for which you need to calculate the offer

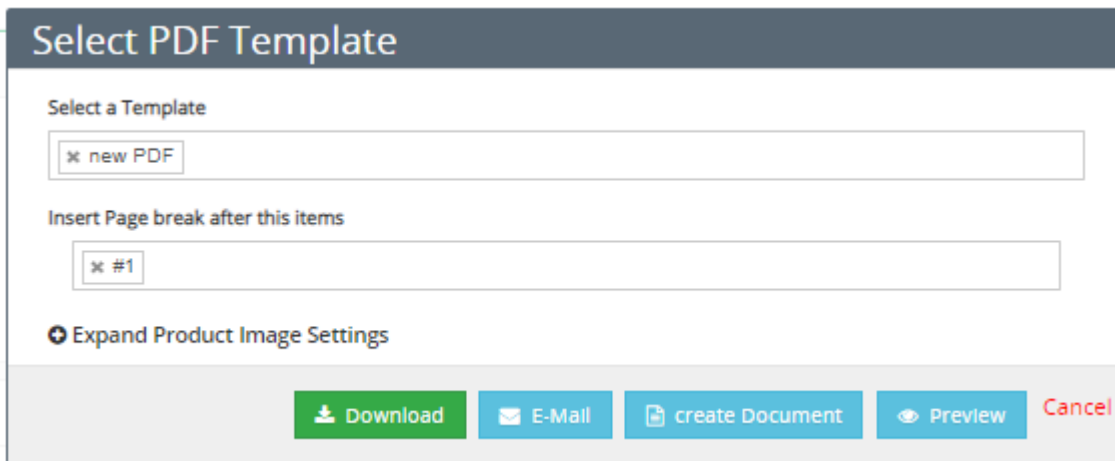

The value of the field in which the offer is specified

Example of use:

In the "QUOTE" module, when creating a pdf file, select the products for which you want to calculate the amount of the quotation

After you select the products, you can view the result
